PREFACE

I HAVE been encouraged to continue the publication of my collection of Maine documents by the increasing use which is being made of them by students of Maine history, and as the present volume has to do with events which occurred in a particularly critical and interesting period of our history, I do not doubt that it will prove to be fully as useful as preceding volumes. I have to apologise for the reappearance on page 22, of this volume, of the short article entitled "Alliance with Maquas Indians, etc.," which concluded Volume VI of Documents. By an oversight it reached the printer with other copy, and was printed before attracting my attention.

To the Kings Most Excellent Majesty—

The humble Petition of Jeremy Dummer Agent for your Majestyes Province of the Massachusetts Bay in New England.

Sheweth

That the Inhabitants of the sd Province have since the Conclusion of the Peace made divers settlements in the Out parts of the Province and particularly two Towns, one called George Town the other Brunswick and are Endeavoring to make more, which will be a great defence to the Northern Colonies: will enlarge the Trade & further Extend Yo^r Majestyes Dominions

That many French Popish Priests reside among the Indians in those parts & continually excite Men to Commit hostilities against your Maj^{ties} good Subjects whereby these settlements

are much discouraged & may in time, if due care "is not taken, be destroy^d. Your Peticon^r does likewise represent to your most sacred Majesty, that there is a considerable number of yo^r Maj^{ties} subjects among the French & Indians of Canada who being taken Prisoners in their minority & bred up in Popery are by Flattery & other acts detained there to the inexpressible Griefe of their Parents & Friends. Wherefore Yo^r Pet^r most humbly prays that yo^r Majesty will be graciously pleas^d to use yo^r Royall instances with the Regent of France that the Governour of Canada may be obliged to send home those of yo^r Ma^{ties} subjects who are in the French or Indian hands, and that no Popish Priests or other Emissaryes may be permitted to reside among the Indians within yo^r Ma^{ties} Territorys or that such other method may be taken for the Release of yo^r Mag^{ties} subjects as to yo^r Maj^{ty} in yo^r Great Wisdom shall seem meet

“You must as prudently as may be insinuate to them that those Eastern Indians hold correspondence and strict alliance wth the ffrench their Enemies and wilbe ready vpon any oppertunty and advantage given to assist the ffrench against them; And that it would be their intrest as well as ours that Check were given to the farther progress of the warr by the Eastern Indians, and that they be destroyed.”

Brethren

Wee being Commissionated by y^e severall Collonies in New England viz^t Massachusetts Plymouth and Canetticut to Renew the Antient friendship and League lately made by our Predecessors with y^e five nations of Indians viz^t Maquase Oneydes Onmondages Cayouges and Sinnekes Understanding that you are Subjects of this goverment and by y^t means wrapp'd and Included in the chaine or Covenant made with said Nations, wee doe think meet to acquaint you of y^e great change or Revolution of Government in England, and y^e Quarrell now Depending Between Protestants and Papists. our great king haveing United y^e English and Dutch to be as one, who are Resolved to assist him with their lives and fortunes against all y^t shall oppose.

Vnderstanding y^t y^e french at Canida (with whose nation wee are Informed by y^e way of y^e West Indies our great King hath Proclaimed warr) is now att warr with you, who are in Amity and League with y^e Maquase and y^e Rest of the Nations and so Consequently with us, who are in y^e same chain with them, wee take this opportunity to lett you

know y^t y^e Easterne Indians being Instigated and Encouraged by y^e french at Canida, who are your and our mortall Enemies: have made Ineursion upon y^e out Borders of our great Kings government to y^e Eastward of Merrÿmack River, and y^e Places there adjacent

Altho wee are not so Immediately concerned it being out of our Colonies yet we hold ourselves Obliged in Duty to Stand for y^e Defence of all or any of there Majesties Subjects; and wee doe Expect y^t you will accompt it your Duty Likewise to doe your utmost to kill and Destroy all those of there Maj^{es} Enemies and Particularly y^t you will not hold any Correspondence with any of y^e Easterne Indians. But take all oportunities and advantages to Destroy them as well as oy^r our grat kings and his subjects Enemies

Altho we hear Proclamation of warr wth france be made in England yett we have not Particular orders from our great King Concerning y^t matter, but Expect them daÿly which when we shall Receive shall not be wanting to doe our uttmmost for y^e Roteing out and Extirpation of your and our Enemies at Canada which have been so Treacherous to us both.

Wee have been informed of a Report you have Received from y^e Easterne Indians of a Designe y^e English had against you and all oy^r Indians to Mischeeffe and Destroy them, and also y^t we should have treacherously kill^d there Sachems.

Wee doe now wash our hands of it, and Declare it to be utterly false. and y^t we never had any such thought but on y^e Contrary when there Sachems were sent for, were Civilly used and had Presents given them and sent home in a Sloop safely, But soon after they Committed several murthers and Rapines, so y^t wee can Esteem those falcityes no oy^r then a Stratagem of y^e french Jesuits with whom they hold Correspondence to Sugest such notions to them on Purpose to Sett us at Variance which if yⁿ adhere to will undoubtedly

Proove Destructive to yⁿ and y^r Posterity, for our Parts we Intend no Evill against any Indians y^t will live Peaceably with us, and Resolve to keep y^e Chain Betwixt us whole, and doe Expect y^e same from yⁿ; & doe hertily wish y^t those foure Eastern Indians of our Enemies which were wth yoⁿ had been by you Secured, as yⁿ were ordered by y^e Gent: of Albany in your Castles wⁿ would have been verry acceptable to our great King and verry gratefully acknowleged by all there May^{es} Subjects, was given them

Oyster River that it was taken by y^e Enemie being about Sixty in y^e Comp^a: though part of Capⁿ Gardners Comp^a lodged the night before at said house & were moved away about half a hour before y^e assault and were got to Cochecha where a post overtooke them and they faced about & persued y^e Enemie but could not find them. Our Souldiers not having pvision nor Amunition to stay out were forced to return, Than I borrowed all y^e Amunition & Bread I could procure of the Inhabitants and sent p^t of Capⁿ Converss his Comp^a to Cochecha to meet & Joyn with Capⁿ Gardners who Persued y^e Enemie three dayes but finding none of them returned, but before y^r returne, one of y^e Captives made his escape two dayes after he was taken, whom y^e Indians tould that they had beleagerd y^e place three dayes and when they knew how many men belonged to y^e house & seeing y^m all gathering Corn came & killed them first, and then sett vpon y^e house where were onely Woomen children & two Boyes, they killed & Captivated Eighteene persons none escapeing, wherevpon I ordered all y^e Garrisons hereabouts (for time to Come) not to leave any Garrison without less then 4 or five able men vpon y^e Centry at all times, we are Endeavouring but cannot yet find any of y^e Enemie by our Scouts, onely now & than there is a report of Indians Seen & men are shott att. wherevpon I offord Gaurds to y^e Inhabitants about their bussiness I cannot as yet have any Intelligence of their head quarters but by y^e Captive boyes acco^{tt} he perceived or Judged it was vpon an Iland at Winipessawket which is a small lake; Hon^{ed} S^{rs} I am now advancing towards Casco, having set there two Companyes vpon duty, Some few of o^r men are Sick & some lame Soe y^t we are in want of a Chirurgion, many of y^e Souldiers are in much want of Cloathing & Tobacco & please send some more good pork and bread in Convenient time for a Recrute that we may not want as before, y^e first bar^{ll} of pork we opened proved so

To the Honored Gov^r & Councill

My Last to yo^r Honors was p John Gee. being then in great haste. So that I had not time to give a full account of all our wants, as to our provisions it spends apace, wee have but part of one barr^{ll} of pork left. but here is beef to be had

to Supply the want of pork. provided your honors give order for the Impressing of what is needfull, or rather I suppose if a Stock of goods Sutable for cloathing were Sent to purchase Such provision w^{ch} this place produces it might be more for the conveniency of the Inhabitants, and less charge to the Publique besides many of our Soldiers begins to want cloathing shoes & blankets &c. it is also Expected that some Straw beds be allowed them as for bread we shall soon want a Supply Espeshally if any more forces Should come heither, the want of w^{ch} cannot be suplied by anything raysed here. I hope yo^r honors have or Speedily will take care to send a supply of what is wanting, the former stock of provision w^{ch} Cap^t Davis had in his custody & neer spent so that here will be above a hundred men to be supplied out of what Stock we brought wth us of w^{ch} there is now but a little more then four hogsheds of the bread left, each mans allowance being a pound of bread for a day, here is wanting a p^r of Smiths bellows, here being none in the Town, and severall of our Soldiers will want their arms to be ffixt, here being no spare arms. I am tould that Some Swan Shot is wanting, also if more forces Should come to this place another bar^{ll} of powder will be wanting, as also a rhim of good paper to make cartrages.

Sep^t 17th yesterday moring the Ship Sett Sayle, upon w^{ch} the Indians Hallowed to them from Palmers Island upon w^{ch} they came to an anchor againe & Sent their boat and treated with them. the result of w^{ch} is that this day in the morning they exchanged their Captive for M^{rs} Lee & her child and about noon Sett Sayle wth her on bord & now being about 4 of the clock in the after noon the wind being contrary we se the Ships come to anchor againe. About 200 or more of Indians are Seen now upon S^d Island, and we do Expect a Speedy assault by them, the least harm we can Expect from them is that they will destroy what provisions are abroad,

w^{ch} I would use as an argument to your honors to send a
Speedy Supply w^{ch} is all at present from

It w^s thought necessary on all hands y^t Sixty men Should be left there twenty in Hampshire & forty in Maine, yⁿ I desired of y^m to know how many of those Sixty y^y would raise in y^e s^d province, after debate y^y agreed to raise ten, & so att Cochecho

to post 4, att y^e widdow Heards Garrison 8, att Capt. Jn^o Gerrishes, att Oister river, 4. att Capt. It was adjudged meet also y^t one of y^e Captaines in Co^mission in y^e army should take y^e charge of y^m, I urged y^t some of y^e officers y^r should do it, but y^y replied y^r Government was so lame y^t y^y could scarce co^mand each man his family, & it would be an undoing thing not to leave one of o^{rs} in co^mission there because y^e Soldiers & inhabitants stood in some more fear of y^e Bay yⁿ of y^r own officers.

Jan. 10. 1700. Report of his Majesty's Council in relation to Forts.

To the Kings most Excellent Majesty.

May it please Your Majesty

Your Majesty having required Us to Report the State of the severall Forts in your Majesties Plantations. Wee humbly take leave to lay the same before Your Majesty and to propose what we conceive may be necessary to be done for their better security & defence.

The Settlements of Your Majesties Subjects in Hudson's Bay being reduced to a weak condition; may in a particular manner deserve Your Majesties thoughts and Recommendation to the Governor and Company of Hudson's Bay, that they Employ their best Endeavours for the security of their Fort and Factories there.

Newfoundland is of great Importance, by reason of its Trade and Fishery which yield to England about £300,000 p Annum; The Eastern Coast of this Island is Inhabited by English, who this last Summer were computed to be 3733. The place of chief Strength is S^t Johns Harbour which is now Fortifying by Your Majesties Command, & if the Garrison which at present consists but of 40 men under the Command of a Lieutenant, were encreased to as many more (to be sent in the Spring with the Convoys) Your Majesties Subjects there will not lye so much exposed to an Ordinary force by sea, nor be in danger suffering from an Enemy by Land, as they did in the late War when they were destroy'd by the French from Placentia

On the Continent your Majesty has one continued Dominion for at least 17 Degrees beginning from the River S^{ta} Croix; And Coll^l Romer the Engineer has by Order from the Earl of Bellomont Surveyed all the Coast from S^t Georges to Boston, and sent his Draughts of the Principal Bays and Rivers, which we humbly lay before Your Majesty with the Condition of Several places which are thought Necessary to be fortified.

The Entrance into S^t Georges River being difficult because of several Islands and Rocks in the Bay of Musconcus a small Redoubt and Battery upon the neck of what is now Called Bellomont's Bay is Judged sufficient for the Security of that River.

About five Leagues to the Westward of S^t Georges lyes Pemaquid a Spacious River and of great consequence as covering three other Rivers, Damarascot, Sheepscot, and Kennebec; and therefore deserves to be well Guarded. At the Entrance of this River within two Leagues of the main sea, formerly stood a Fort which at the approach of two men of War with 100 French & 500 Indians was shamefully surrendered in August 1696 and demolished.

For the Security of this Port & Harbor and of all that Country, and to encourage people to settle there as formerly, a good Fort ought to be built in the same place or thereabouts, And for its better defence in Case of an Attack from the sea a Battery may be raised on the next point of Land, & a redoubt or round Tower on Johns Island.

Towards the Mouth of Kennebec River (seven Leagues from Pemaquid) are many little Islands: On that of Damaras= Cove there was before the war a Pallisadoed Fort for the defence of y^e Fishermen, & another on Cape Anawagon where they used to Cure their Fish; But to Guard the Entrance of the River a Redoubt ought to be raised on the Island Sagadahock and a little Fort at New

Town in Rouseck Island two Leagues up the River, where there was formerly a small square one Pallisadoed.

Casco (six Leagues from Kennebec) is a convenient Bay on the North West point whereof was formerly a village called Falmouth and a Wooden Fort both which having been destroyed in the late War, The Government of the Massachusets has Ordered a New Fort and Trading House to be built thereabouts which may be of good service

Saco River (about Nine Leagues to the Westward of Casco) is but smal and its Navigation interrupted by a Sandy Bank at its Mouth almost dry at Low Water Two Leagues up the River on the Western Side near the Falls, stands a Stone Fort and a Tower in the form of an irregular Pentagon, which ought to be kept in repair and Collonel Romer has marked out a place on Winter Harbour, or Stage gut point four Miles from the Mouth of this River for the security of the Fishery.

At Wells and York are Villages wth little Garrison Houses which require no further consideration.

Piscataway (nine Leagues from Saco) is an Important River being the Boundary between the Province of Main and New Hampshire. On the great Island at the Mouth of this River is a Fort of 30 Guns on New Hampshire=side but incapable of defending the River, Yet the place where the said Fort stands is very proper for building a good New Fort, such as the growing Trade of that place and Country requires Collonel Romer has sent a design thereof and adds that a good Strong Tower on the point of Fryars Island, a Battery on Wood Island, and an other Battery on Clerk's Island wou'd be very necessary.

The Massachusets Bay, has in it many Islands, and among the rest Castle Island not far from Boston, of great Security to that Harbour. In the said Island is a Fort which Colonell Romer proposes to be repaired and enlarged; And

for the bett^r Securing the Passages and Channels of the Bay, he further proposes some points of Land to be provided with Batteries.

Rhode Island being the most Important place on the South West side of Cape Codd, is so Situated as to be a very Convenient Harbour for shipping and of Security to that part of the Country in Case it were put in a State of Defence, which it has never yet been by the mean Condition and Refractoriness of the Inhabitants.

In the Province of New York there is a Fort for the Security of that City & Harbour, which is in an Indifferent good Condition; from thence 140 Miles up Hudsons River is the Town and Fort of Albany and about 20 Miles from thence on an other River, is a place Called Schenectady; Both which are of the greatest consequence towards the Security of that Province and your Majesties other Plantations on the Continent.

In the Onondage Country a Sodd Fort is necessary, towards securing the 5 Nations of Indians in their Allegiance to your Majesty; for which Provision is already made by Your Majesties Gift of 500 £ & a Contribution of 1500 by the Assembly of New York.

The Provinces of East & West New Jersey are without any Forts or Places of Defence and being Proprieties whose Governors are unqualified as not being approved of by your Majesty those Governments are in great disorder and nothing more can be proposed concerning them that they should contribute to the defence of New York.

The Province of Pensylvania is likewise without Fortifications nor are any desired by the Proprietor, which nevertheless might be requisite for the Security of the Delaware River.

Your Majesties Provinces of Maryland and Virginia

are so scituated y^t they are best secured by Shipping, and do not require any Fortifications.

The Provinces of North and South Carolina are under Proprietors who take upon themselves to provide for their own Security.

Having laid before your Majesty this Account of the Fortifications on the Continent, We humbly beg leave to add.

That the Province of the Massachusets Bay; being a Numerous and wealthy Colony, enjoying great priviledges by Charter; ought to be required to Repair, Erect and Maintain at their own Expence, the Fortifications in the fore mentioned places under that Government; And most particularly the Fort at Pemaquid, the Chief Frontier of that Province towards the French and their Indians, which was well kept up, whilst it remained under the immediate Government of the Crown; The said Forts being necessary for the Securing of the Timber and Fishery on that Coast and to encourage the resettling the Province of Main and the more Eastern parts which have been destroy^d and laid waste in the late War, by the Mismanagement and neglect of the Massachusets Government.

That the said Province of the Massachusets Bay, ought also to be Assisting to the Province of New Hampshire in their Fortifications.

That the Province of New York being another Frontier, Exhausted by the Extraordinary charge it was at for its own defence, during the late War; and the several Fortifications there being of too great expence to be Supported by that single Province, Your Majesty has been Graciously pleased to appoint 2,000^l towards the Fortifying of Albany Schennectady, and we hope upon the Significations of your Majesties Royall pleasure to the other Plantations, who are greatly concerned in the Security of that Frontier they may

be induced to contribute thereunto according to the Proportion which we have stated as followeth viz^t.

	£	s	d
Rhode Island & Providence)	150	0	0
Plantations)	450	0	0
Connecticut	250	0	0
East New Jersey	250	0	0
West New Jersey	350	0	0
Pensylvania	650	0	0
Maryland	900	0	0
Virginia	<hr/>		
Making in all £3000		Sterling	

In this Repartition we have omitted North and South Carolina as to any part of that Charge, because of the Duty incumbent on those Proprietors to maintain and defend that Province which is likewise a Frontier fit to be secured.

And in Order to excite the sever^{ll} fore mentioned Plantations to contribute in their respective proportions to the Charge of Securing the Frontiers of New York, We herewith lay before your Majesty the Draughts of Letters relating to each of the said Plantations, (as also to New England for the fortifying of their own Coast) in pursuance of Your Majesties Commands Signified to Us by the Right Hon^{ble} M^r Secretary Vernon

To y^e Hon^{ble} y^e Lieu^t Govern^r and Council of his Majesties Province of the Massachusets Bay.

The Petition of Sundry the Inhabitants of the County of York bordering upon the river Piscataqua ~

Most humbly Sheweth

That whereas an Equall right to y^e river of Piscataqua has been always accounted belonging to this Govern^t, with that of the Province of New Hampshire, for which reason we are humbly of opinion the trade on this side y^e river ought not to be interrupted by the Government on y^e other however we are Credibly informed that y^e Generall Assembly of New-hampshire have lately past an Act of 12^d p tun. payable by all Small vessells trading into this river And that they are resolved not to confine themselves within the Limits of their own Govern^t but to impose the same on such vessells as shall come to trade on this Side, which they are enabled to doe by having a ffort that comand^r y^e mouth of y^e river whereby Small vessels will be discouraged coming to us as formerly with a Supply of Provision and other Necessaries from Boston and so Exporting our Lumber, the native product of

the place, which will be very prejudicial to the Inhabitants here.

as I learned y^e trade of a weauer, wrought hard, Earned money, bought a bitt of land, built a small hous,— but now and then my arme would break out,—I sold what I had att Woobourne & Remoued to Swanzey, from whence I was Impress^d againe by Cap^{tn} Browne, now in this late warr with y^e Indians, Eastw^d being late in y^e yeare and Cold, I got Cold in my old wound, it swell^d Exceedingly. I vnderwent more paine then at first. It broak out with many holes thrô my arme. I have been vnder y^e hand of severall docters, and am got much into their debts, severall holes thrô my arme to this day, never like to be my own man, & I have spent all I have in y^e world, my father dead, my mother a poore widow, I have nothing to help my selfe withall, I never had anything of the Contrey but fiue pounds towards paying y^e docter &c while I was at Road Island, they would allow me no more because my father fetched me away before I was well,— and now I lye lyable to be thrown into Goal by y^e docters &c

My prayer to Your Exelency and this high and Hon^{le} Court, is, y^t you would pleas to take order y^t my docters (whose acc^{ts} are in Court, may be pay^d out of the publick tresury of this province and A small pention Allowed me Annually, I being disabled to work at my trade, and have a great famaly to maintaine, and many skilfull do think this wound will be my death at last,— and what I pray for is not like to Continue long,— so hoping for a mercifull answer, I shall wright no more at present, but as in duty bound continue to pray &c

“Letter to Vincent—a Bigot.”

Boston, Apr. 10, 1701.

Sir,

That you may Not always complain of not being answered, These are to let you know, that I have seen what you writt to Cap^t George Turfrey comānder of our Garrison at Saco, dated the 24th of September last. And I con you no Thanks For your over Officiousness in endeavouring to proselyte the Subjects of my Master the K. of great Britain, to your Idolatries. It would be more pertinent & profitable for you to Repent of your Blasphemies belched out against the Most pure and holy Christian Religion which we profess; and against the English & French Martyrs of Jesus. They that slander our Religion with y^e imputation or Idleness and inefficacy; must first harden their hearts and brasen their foreheads, and do with a prodigious baseness and boldness defame our Glorious Saviour Jesus Christ and his most important Offices, as idle & in vain. Vincent you are so fool-hardy as to dare to wound Christ rather than not come at us. Thô you should overcome, you will have nothing to glory in but your Shame.

In your aversation to our Religion, you draw back from Christ.

-----nescis temerarie, nescis

Quem fugis-----

Don't seek to purchase to your self a Licentiousness of tyrānising over our Consciences, & destroying our Souls, and we are very thankfull to you for the Relief you have afforded ours in their Distress. Some of yours have experienced the like succor from us. And we are ready to grant it still to any of yours; and to yourself in particular. And you will account it friendship that we call upon you not to run upon the Swords point; but to learn of St. Paul in keeping within your bounds, and not going beyond your Line which

extends not to our Indians: and to learn of St. Peter to submit to every ordinance of man for the Lords sake; and not practically to Contemn the Civil Government here established, while you ill favoardly flatter the Persons y^t bear it.

I strictly Coñmand & Require you to withdraw your self out of the King of England's Jurisdiction, where you now are; and that you cease from levening the Indians with your pernicious principles & practises. I have sent you a Copy of the Law, that you may not pretend surpretend surprise for want of due Notice. Do you provide for your own safety in time & Imitate our Countryman the Protean persons whose [serfdom] & other Vertues you so much Extoll in your Harangue Romantick by speedily betakeing your self to Quebeck, or Paris, or Rome or where you please out of this Jurisdiction Except you can find in your heart to forego your superstitions for Christ and embrace the true reformed Religion which most firmly retains every thing that is Christian in yours. I heartily desire & pray for Your Wellfare in this Life and that which is to come. & am

*Letter from Lt. Gov. Stoughton to R^t. Hon. James Vernon

Boston April 28th 1701.

R^t Hon^{ble}

I wrote to your Honour on the 10th curreant and therein Advised of the Death of the late Governo^r the Earl of Bellomont, and our great unhappiness in being deprived of his good Conduct, which was very acceptable to his Maj^{ties} subjects, on whose behalfe I was humbly bold to pray your

Honours Favour in what doth concern this Province, Especially relating to the Security and defence thereof in case a new War happen to commence, and crave leave to renew my Request to yo^r Honour on that subject. We depend on his Maj^{ties} Princely care of us in affording us such Supplies of Warlike Stores and provision for the furnishing of his Forts & Garrisons within this part of his Territories and Dominion, and a Naval Force for Guarding of our Sea-coast, as by the blessing of God may be a meanes to preserve us from becoming a prey to a potent Enemy: which without his maj^{ties} Royal Aid we shallbe in danger of: I have by this Conveyance represented to the R^t Hon^{ble} the Lords Commissioners of the Council for Trade and Plantations the circumstances of this Province and humbly prayed their Lord^{ps} Favour in laying the same before his Maj^{ty}. And the Character I have received of your Honours generosity and goodnes perswades me to beleive that your Honour willbe propitious to us in the promoting of such Order to be taken for our Supply as shallbe effectual for the defending of his Ma^{ties} Interests.

I crave your Honours pardon for this trouble, and leave to Subscribe

Rt. Hon^{ble} James Vernon Esq^r Principal Secretary of State.

Letter Lt. Gov. Stoughton to Hon. Secretary Vernon.

Boston, June 3^d 1701

Rt. Hon^{ble}

Having already by two Several Conveyances, one of them in April and the other in the beginning of May last given

your Honour an Accompt of y^e Melancholly condition of this Province by the death of our noble Governour the R^t Hon^{ble} Earle of Bellomont, of whose prudent and wise conduct, it is our great unhappiness to be deprived, and the more so by reason of those troubles unto which, according to y^e present appearance of affairs, we seem liable to be exposed. And having also in my s^d Letters humbly prayed yo^r Hon^{rs} favour towards this his Ma^{ty}s Province, in representing the State & circumstances thereof unto his Ma^{ty} and obtaining from his Royal bounty such supplies of Stores of War and other assistance as with the Blessing of heaven may be for y^e preservation of his Ma^{ty}s Interests and the Safety of his good Subjects in these parts. I shall not now trouble your honour with any further recital of what is contained in those Letters, hoping the same will come safe to your Honours hands and humbly confiding in your honours goodness for a favourable regard to my humble Suit therein.

Since my writing of my afores^d Letters I have received his Ma^{ty}s three several Royal Letters one of them of the 19th of January 170₁ referring to the Spoils comitted in the woods by cutting down and converting to private uses Such Trees as are or may be proper for the Service of his Ma^{ty}s Royal Navy, and directing me to use my Endeavours with the Council & assembly to get such an Act past as may be effectual to prevent the making such spoile for y^e future one other of them of the same date relating to Forts & Fortifications, and assistance to be given to the Province of New Yorke in case of an Invasion. And the other of them of the 2^d of February 170₁ referring to Accessories in cases of Piracy.

And have communicated the s^d several Letters to the General Assembly now sitting And recommended the consideration of the same unto them, that they may make such provision as is proper, relating to the several heads thereof, to comply

with his Ma^{ty}s Commands. They had before granted money for the repairing and new making of Fortifications on Castle Island (so called) near Boston, which are in doing by the advice and direction of Col^o Romer, his Ma^{ty}s Engineer.

His Ma^{ty} in his s^d Letter of the 2^d of February relating to Accessories in Piracy, having directed That his Will and Pleasure therein be signified unto the Governour & Company of the Colony of Rhode Island, that they may conforme themselves thereunto I have accordingly sent them a Copy of his Ma^{ty}s s^d Royal Letter. And have likewise sent a Copy of That of the 19th of January referring to Spoils in the woods of Trees fit for the Service of his Ma^{ty}s Royal Navy, unto the Lieut Governour of the Province of New Hampshire. And crave leave humbly to observe unto your hon^r; that I apprehend it will be difficult to prevail with the assembly of this Province to be at charge for the building or maintaining of Forts at Piscataqua or other parts of that Province which is challenged to be the propriety of a single private person. This Province having, in the late War, expended many thousand pounds in the assistance given his Ma^{ty}s Subjects there for their defence, of which no part hath been reimbursed.

Besides, the Inhabitants of this Province being extremely impoverished & many scarce able to provide for their necessary subsistence, and having many Frontier Towns and places of our own, Some of which are also Barriers to that Province, they think the People thereof are as well (if not more) able to bear the charge of necessary Forts & Fortifications for their own defence, than those of this Province are to support their own and other great charges of this government.

As to the erecting of a Fort at Pemaquid, it is the general opinion of all who know y^e place that the Situation thereof is such as renders a Fortification there of very little or no use for the Securing of any of our Plantations, nor can it be

a bridle to the Indians, being far remote from any present Settlement of the English and lies much out of the Common road of the Indians the greatest numbers of which, that usually annoy us, having their Plantations and settlements on this side thereof.

The Quota of men required from this Province for the assistance of New Yorke, not a little Startle his Ma^{ty}s Subjects here who apprehend themselves to lye more open and in danger of an Invasion than that Province, and altogether as unable (if not more) than they to defend themselves without further assistance and they humbly hope for his Ma^{ty}s Royal Grace therein.

I have not any thing further to observe unto your honour at present, but to assure yo^r honour that I shall studiously endeavour in my Station to promote his Ma^{ty}s Service in all things to the utmost of my power, whereof I crave your honours beliefe, as also that I am with all imaginable respect

*Letter Lt. Gov. Stoughton to the Lords Commiss^{rs} of the
Council for Trade and Plantations*

Boston 3^d June 1701.~

R^t Hon^{ble}

By a Vessell that Sayled from hence for London in April last and also by another in the begining of May, I transmitted unto your Lord^{ps} the sorrowful tidings of the Death of the

R^t Hon^{ble} the Earl of Bellomont, his Ma^{ty}s Cap^{ne} General and Governour in Chief over this Province &c^a which I presume is long before this come to your Lord^{ps} Knowledge: It's a very great unhappiness to this Province to be deprived of his Excell^{cy}s Conduet, especially at a time when the conjuncture of Affairs seem to forbode our being involved in more than ordinary difficulties and troubles.

I was humbly bold to pray your Lord^{ps} Favour in concerning your Selves for the preservation of his Maj^{ties} Interests and the safety of his good Subjects in these parts: that they may not fall a prey to a potent Enemy: but that early care may be taken for such supplies of Stores for War. and other assistance to be afforded them, as with the blessing of God may enable them to Defend themselves and his Maj^{ties} Interests, if a War breake forth.

I hope my former Letters will come safe to hand, and shall therefore forbear givinge yo^r Lordp^s the trouble of the repetition thereof, resting confident of your Lordp^s kind regard, in representing to his Maj^{ty} the dependance and humble expectation which his Maj^{ty}s good Subjects here have of receiving his Royal Aid.

Since the writing of my former, I have with the Advice of the Council, commissioned some persons to manage a Treaty with the Eastern Indians, and to endeavour to prevent their being debauched by the French, that they may not take part with them against us. And to Oblige them by Presents and assurances of full supplys for Trade to be afforded them, and of kind usage therein beyond what they have had from the French. The said Commissioners are not yet returned, So that I cannot by this Convayance give your Lord^{ps} an Accompt of there Negotiation: which I hope will have a good issue.

I have to acknowledge unto yo^r Lordp^s the receipt of his

Mat^{ties} Royal Commission for the Tryal of Pirates within this Province, the Province of New Hampshire, & Colony of Rhode Island, pursuant to the late Act of Parliament, Entituled An Act For the more effectual Suppression of Piracy with several of the said Acts inclosed in the Box therewith.

As also the receipt of the representation made by yo^r Lordp^s upon several Acts and Laws made and passed by the General Assembly of this Province from the 15th of December 1697. to the 13th of March 1699. with his Maj^{ties} Orders in Council Declaring his Royal Approbation and Confirmation of several of the said Laws, therein particularly enumerated by their respective Titles. And his Disallowance & Repeal of some others; which I shall endeavour may be amended having regard to the Exceptions made by yo^r Lord^{ps}

I have Likewise received his Maj^{ties} three several Royal Letters, two of them of 19th of January 170^o and one of the 2^d of February 170^o. One of the first referring to the Spoils committed in the Woods, by cutting down & converting to private uses such Trees as are or may be proper for the service of his Mat^{ties} Royal Navy; And the other referring to Forts and Fortifications, and assistance to be given to the Province of New Yorke in case of an Invasion.

And that of the latest date referring to accessories in cases of Piraey, All which I have communicated to the General Assembly now sitting, and recommended the consideration of them unto them, That such provision may be made by them as is proper on the several heads therein mentioned to comply with his Mat^{ties} Commands

They had before granted money for the repairing and makeing of new Fortifications on castle Island (so called) ncere Boston, which are in doing by the Advice and direction of Col^o. Romer his Mat^{ties} Engineer.

R: Hon^{ble}

I crave leave to Observe to your Lord^{ps} That I apprehend it will be difficult to prevail with the Assembly of this Province, to be at the charge for the building & maintaining of Forts at Piscataqua and elsewhere in the Province of New Hampshire (which is challenged to be the propriety of a single private person) for the defence whereof this Province expended many thousands of pounds in the Assistance given his Ma^{ty}s Subjects there during the late War, and are not reimbursed any part thereof.

They also apprehend that the Inhabitants there are as able (if not more) to bear the charge of necessary Forts and Fortifications for their own defence than those of this Province (who are extremely impoverished and many scarce able to provide for their necessary subsistence) are to support the vast charges this Government are at for those within the same; which are also Barriers to that Province, and divers of our Towns and places lye more Frontier.

As to the Erecting of a Fort at Pemaquid It is the general Opinion of all who know the place, That the situation thereof is such as renders a Fortification there of very little or no use for the securing of any of our Plantations; nor can it be a bridle to the Indians, being far remote from any present Settlement of the English, and lyes much out of the common road of the Indians, the greatest numbers of which that usually Annoy us, having their Plantations and Settlements on this side thereof.

The Quota required from this Province for the Assistance of New Yorke do's much startle his Ma^{ties} Subjects here, who apprehend themselves to lye more open and in danger of an Invasion than that Province; and altogether as unable (if not more) than they to defend themselves, without further assistance. And they humbly hope for his Ma^{ties} Royal Grace therein.

Nothing further Offering at present for
his Maj^{ties} Service I crave leave to Subscribe.

S^r.

The long Intermission of writing to you, and answering yo^r Letter of the 16th of May 1700. which arrived during the life of our Governour the Earl of Bellomont, and was transmitted to him, then at New-Yorke, where he continued till the time of his death; Our L^t Governo^r also dying soon after, has partly been occasioned by those providences.

We return you thanks for the good Advice and direction in yours relating to Appeals for England, As also for your good Service in your Agency for this Province, having no intention to make a difference in the reward therefor to S^r Henry Ashurst and your Selfe. The sum of Five hundred pounds Sterling mentioned in yours to be remitted to S^r Henry is a mistake. True it is that Five hundred pounds of this money was ordered to be paid him here.

He demanding a considerable sum for his disbursments and Expences in our Service: which he reckons amounts to that value and more. Your Selfe Saying you had advanced nothing on that Accompt other than for Coach hire Letters and other necessary Expences.

We have now Ordered the payment of One hundred pounds Sterling to you as a further acknowledgem^t of your Service in your Agency for us, which is remitted to you by his Maj^{ties} Ship Arundel Cap^{tn} Josias Crowe Com^{and} as by the Inclosed bill of Lading-

Desiring that you will further concern yo^r Selfe in our Service, We have herewith transmitted unto you our Addresses and Applications now made to his Maj^{ty} to be presented by the first Opportunity, and desire you on our behalfe to Solicit the matters therein contained And in case these arrive to you before his Maj^{ties} Governour for this

Province be come from England Please to communicate to him what you shall receive from us, and pray his Advice and Assistance therein.

We were unwilling to make our Addresses and Memorial to his Ma^{ty} Swel to over-great length and therefore have omitted to be so particular therein as may possibly be necessary, thinking it better to hint the same in our Instructions to your Self viz^t

As to the Ordnance for our Fortifications, it will be needfull that some of them be whole Canon, our want being chiefly of Guns of the larger Cize.

Col^o Romer his Ma^{ty}s Engineer informes that he has sent a Memorial to the Secretary of State, and to the Commission^{rs} for Trade what will be necessary for us on that occasion, which you may obtain a sight of.

We have formerly written to the Ministers of State relating to the Boundaries betwixt this his Ma^{ty}s Territory and the French of L'Accadie or Nova Scotia and to the Fishery on those Coasts. We desire in case the War be not opened, that you would solicit the adjusting and settling of that affair, which will very much conduce to our quiet wth the Indians; as also to the encouragem^t of our Fishery, which is the chief Staple of this Country and do's considerably advance his Ma^{ty}s Customs, the proceeds thereof being remitted for England.

As to the Bill said to be lying before y^e house of Lords for the dissolving of Charter Governments in the Plantations We intreat you to be very watchful in that matter and use utmost diligence and applications by all convenient means to prevent our being comprehended in or concluded by the same to the depriving of our rights and priviledges, and, in case the Bill be likely to be forwarded, that you Address the Parliam^t on our behalfe.

Our circumstances are different from those of other Plan-

tations under Charter Governments. Our first Settlement being wholly at our own cost and charges. And by our present Settlement we are already reduced to a more immediate dependance on the Crown his Ma^{ty} having reserved to himselfe the nomination of our Governour Lieu^t: Governour & Secretary, and a negative on our Laws. So many of our former priviledges being lost we hope at least those that remain will be continued to us.

We shall be careful to make you all due acknowledgements for your service, and are

“March 9th 1703 His Excell^{cy}s Speech to the Assembly.”

March 9th 1702.

“Gentlemen,

I thought it necessary to see you at this time and to have your advice in the affayr of the Warr that presses hard and the season of the year advancing we may Expect the Enemy back vpon the fronteirs and on the sea cost.

I am sorry we have done no More against the Enemy this Winter however the severall Marches that we have made into the woods in the hardest of the Winter has Convinced the Enemy as well as ourselves that English Men can bear the cold and Travell upon the Snow as well as they and I am glad to see the temper and Inclination of her Majestyes good subjects so forward and patient of hardship and I heartely thank the Commanders and Every party of volunteers that have so freely undergone the Travel and difficulty of the service.

We are now to Look forward and I think it necessary beside the standing forces upon the fronteirs Especially in the province of Mayn which are necessary to keep off the Impression of the Enemy There will be needfull very speedily a good force of English and Indians with Sloopes to

attend the Coast Eastward to keep the Indians from the benefit of the sea and Trade with the french which Must be soon dispatet and after that may be drawn together to prevent their planting.”

Letter from the Governor.

March 10. 1702

Gentlemen

I did not expect when I parted with the Assembly of this province in November Last that I should have maintayned a quiet vpon the frontiers thus long, but I am Sensible that notwithstanding there is no Infraction of the peace that the pressing Instances of the french by their officers and Jesuites that are amongst the Indians are such that it is not possible for them to withstand their Importunity to break with us unless we have a considerable force in the province of Mayn who may be a security for them and a guard over them, the Charge whereof must be provided for.

I layd before the last Assembly her Majestyes Commands for the rebuilding the fort at Pemaquid, which was also the Comand of the late King in his Life time and must acquaint you that that Assembly went so farr in that affayr as to direct a Comittee of both houses to attend mee to the place who made their Report advising to go forward in that Work and their return was accepted and agreed to in Council but refused by the Gentlemen of the house of representatives, it is her Majestyes pleasure given Mee by the Right Honorable the Lords Commissioners of Trade and plantations, that all possible Methods be vsed to perswade you to an Obedience herein with her Majesties Most graecious Incouragement that no ordonance nor stores shall be Wanting towards the finishing and mayntayning the same.

I must also acquaint you that the last Sessions ordered five thousand pounds bills of Credit to be Issued by the Treasurer to pass in public payments and for their security Enacted that the next assembly should raise six thousand pounds for their payment which is therefore now to be done.

I must also recommend to your Care the Lines drawn before the Town of Boston which reach from the batteries at each point, it was at first a very good projection and security to the Harbour and Town but it is now become a Nuisance and will at length serve only to Destroy the Harbour and Spoyle the shipping, you will please to Consider either to put it upon the present owners to repay it or upon their submission of it to Dispose it to a New Company that it may not be a Mischeife to us.

There remainys but a little to be done at the castle, which as Colonel Romer and the Commissioners acquaint mee may be finished before Medsummer and that Noble work will be perfected for which this province ought to have its Just reputation and as My duty is I shall so represent it to her Majesty, I desire your Concurrence for the supply that no time may be lost and when I am there free of Workmen and Materials you shall see the Government and Care of that Garrison in its propper posture in all things.

Gentlemen I am often sollicitated and spoken to, referring to the Colledge at Cambridge, I am sorry for the Mistakes of this Government at any time in that affayr, if there be anything that Imports mee referring to it when it shall be Communicated I shall freely do My duty to lay it before her Majesty and in Every thing referring to the good and peace of this province Exert My self to the Vtmost and hope the same of every body in their propper stations.

— A.

I must desire a very speedy despatch in these affayres because if I have forces to the Eastward I must be Near

them and I think it necessary for Mee to see the Indians there if possible to Confirm them in their obedience to her Majesty and their dependance upon this Government

———— Gentlemen A.

There are very few places without some ill minded men that would be glad to see all things in Confusion and to that End would Create misunderstandings and prejudices in the Minds of her Majestyes Good subjects against her own Government, I hope your unanimous and Chearfull obedience in the Queens service will disappoynt the Ill designs of such men who with a pretence of friendship to this Country are their worst Enemyes and whilst her most sacred Majesty is successfull and Victorious Every where, would have her defeated and Disappoynted here of the Just duty and service of her own people.

Governor's Speech Oct. 1702

“Gentlemen.

Since I saw you last I have in Obedience to Her Majestys Commands visited all the frontiers to the Eastward as far as Pemaquid and had there the Opportunity of Conference, with the Sachems of those Parts, which has Occasioned the Quiet that we have hitherto had on that side, and saved you the Trouble of an earlier Meeting than at this time, which truly I was very apprehensive would not have been Prevented, and how long it shall last I have no Assurance, and therefore we ought to be in all Points ready.

The last Session I communicated to you Her Majesty's Instructions referring to the Rebuilding of Pemaquid, which I must Still with all Earnestnesse Offer to you, and when It is Considered that all the Stones necessary are in place, the foundation yet good, and Lime to be had very near and easy, the Rebuilding cannot be thought to be halfe the Original Charge. Added to this I must Acquaint you, that the Indians in their Treaty, and since Urge the Necessity of another Trading House beyond that at Casco Bay, and I Judge it as necessary as They, if we Intend to hold them Depending, and that may as well be at Pemaquid, as any whare else and better, because the Harbour is good, and our Honour Depends upon our Asserting our own which are so unluckily lost, These Things added to Her Majestys Directions in the matter I hope Will have their due Weight with every body, I hope the Gentlemen of the Councill & Assembly that there with me there, will when the Affair is before you Represent that matter as it is.”

Governor's Speech.

“Gentlemen

I am very glad I can Meet you at this your Anniversary Assembly in peace that neither the Coast nor our open frontier to the Continent have been troubled with the Enemies, I beleive our Early Care in sending that Litle force to the Eastward together with our Just and friendly dealing with the Indians has kept them at Quiet

I Expected when I last parted from you I should have given you an Account of another Enter view I might have had with the Sachems of the Eastern parts which I Judge very Necessary but the Infraction made by our own people upon some of them in friendship wth us at Penobscot delayed Mee untill I might have given them very full assurance that the Mischeif done upon them was without my knowledge which by the restitution of their goods, and the severe treatment of those Ill Men I believe by this time is done to their satisfaction and has now given Mee a propper time again to Demand their Attendance upon mee which all my officers in those parts urge may be presently upony many good reason I must also hasten because in a short time I Expect her Majestys fleet from Jamaica in their return home and I may not then be absent having her Majestyes Express Comands to provide for them, and if they shall be in a Capacity to do any thing to the Eastward upon the Enemy I hope we shall Chearfully Embrace the oportunity to Assist in the service it being so perticularly our own benefit.

I must also acquaint you that by letters from his Excellency the Lord Viscount Cornbury I have the Advice that I may Expect a party of french and Indians presently upon Conecticut River and we Must be in a readiness for them which will put mee upon sending home the Members of that part Imediately”

Journal of the March and Proceedings with the Forces under my Command lately sent forth agst the Indian Enemy & Rebels/

We began our March from Newiche wanock and set forth from thence the Ninth of February instant, following Your Excellency^s Instructions as near as we possibly could./ viz^t:

Feb. 9th We marched this day sixteen Miles, discovered nothing. Encamped.

10th Marched by breake of day, discovered two of the Enemy's Camps, Judged they might hold betwixt Forty or Fifty Indians, We travailed Twenty one miles this day and Encamped ~

11th Marched by breake of day, discovered two more of the Enemyes Camps, much of the same

bigness with the former. We travailed about thirty Miles this day and Encamped./~

12th Marched very Earley, still upon the Enemies Track, and came to Saco River about eight in the morning Judged by the Pilots to have fal'n upon the River about Fifty Miles upwards, haveing before we came to the River travailed about Eighteen miles; where we found the greatest part of the Enemy had left the River to the Southward, we set out a Scout to discover further after them. ~

13th We found they altered their course again, and came upon the Track of the Indians they left (when departed to the Southward) that had kept the River and then Marched all to the Eastward ; We left the Eastern Track and made the best of our way to Pegwockit Fort. we travailed this day Twenty miles and Encamped.

14th Bad weather, did nothing but secure our Provisions and Armes.

15th Marched before day, met with several Old Tracks of the Enemy We travailed till Sunset, judged about Twenty five miles, then Encamped. ~

16th Marched before day, and about Ten a clock in the forenoon our Pilots were discouraged, least they might not find Pegwockit, I then Encamped and drew forth One hundred choice Men, Ordering every man a bisket, with a designe to march them directly up the River in order to find Pegwockit Fort (leaving the rest to guard all our Provisions Knapsacks &c.) We found Pegwockit Fort about Sunset, so we returned again to our Encamped Men which we left behind,

being eight miles back. Judged we travailed this day thirty two Miles. When we came to the Fort, we found it a large place of about an Acre of ground taken in with timber set in the ground in a circular form with Ports, and about one hundred wigwams therein; but had been deserted about Six weekes as we judged by the opening their barnes where their Corn was lodged, and that they deserted it in hast upon some Alarm, because we found their Corn scattered about the mouthes of their barnes./

- 17th Marched homewards upon the River Saco about thirty Miles, saw nothing remarkable.
- 18th Marched homewards about Eighteen Miles./
- 19th Being very stormey could not travail
- 20th Marched homewards about Twenty five Miles
- 21st Marched about Twenty three Miles, and came to Saco Fort.
- 22nd Marched to Wells, being Twenty Miles~
- 23rd Marched to the Banke, being Twenty five Miles~
All our men well in health thanks to Almighty God.~

May it Please your Excellency. ~

This is what Offers upon this Expedition and I humbly conceive that the winter time is the onely time ever to march against the Indian Enemy -- both for their discovery and the health and least danger of our People; And shall always be ready to serve Her Majesty under Yo^r Excell^{cy}'s Commands, and for my Country's sake

I am

My Lords

A — By a vessell from Topsham who came out the third of May, I have Account of the losse of all my Letters and Papers that went by Captain Thomas, who sailed 10th Decem^r; also what I sent by Captain Easley 1. february, and what I sent by way of Leerpoot April 2^d were taken upon this Coast going off, which makes me perfectly behind hand in all my Addresses and Representations to your Lordships, Copys whereof I shall send by this, and the next Conveyance —

B — My last Letters were of the fifth of June by Captain Terrisse which I hope are arrived, since which I have been Eastward along the Coast in the Province of Mayne, and at Casco Bay met all the Sachims of Penobscott, and the three Tribes under Moxus, and Adiwando, and with a great deal of attendance which their Sullen Temper Demands, and Cost of Presents, and Expences upon them, to the value of four or five Hundred Pounds, Concluded a better friendship with them than at any other meeting, their Friars not daring to be seen, for fear I should have seized them, left them in a better, and more treatable ~ ~ Temper, and since that they
C. have advised me by Messengers of the March of Two Hundred french Indians, and about Thirty french men from Quebeck which has occasioned me to send out Two Hundred men of the best of our Quarter Part of the Militia, who have been ten months Detached by virtue of an Act of the Assembly, who are in four Companies upon the frontiers at Twenty Miles Distance from each other, and Interchange Ground every two Daies, that the Enemy may not come within them, and it is now the time of their Plenty of venison, and green corn, which will last them two months during which time we must be carefull of them to Prevent what is possible, tho a Security upon our frontier of Two Hundred Miles,

is not to be made with the force this Province is able to support.

D. In my Return from the Eastward I held the Generall Assembly of the Province of New Hampshire, who have very cheerfully Continued the Duties upon Timber and Boards Exported, and have Enforced it with good clauses, for the Collection thereof, which I hope will be acceptable to Her Majesty, It being the only Method that they have here, for the Support of the Government and their Defence, though it is very grievous to the Massachusetts Province and of which they complain, but I am humbly of opinion without cause, every Province being the proper Judges, of the best Method for their own Support.

E. The said Act and Minutes of Council are Enclosed in this Packet, and further I then Obedyed your Lordships, in Hearing the Suspension of M^r George Jeffrys, and Acquainted the Lieutenant Governour Partridge of his Neglect, in not offering your Lordships the reasons and Account thereof, The whole Proceeding in Council is in the Minutes, M^r Jeffrys answer, and M^r Partridge's Rejoinder, and are humbly submitted to your Lordships.

Judgment and Direction therein, I am humbly of opinion F. that M^r Jeffrys was very faulty, in that Oath mentioned in the Record, thô a great time is Elapsed, and it might have been forgotten, And I also think that he is very faulty in Labouring to Defend the Cotton Wool and to represent the Acts of Parliament hard upon the Plantations to Disorder the Inhabitants here, which ought by all means to be steadied especially by Gentlemen of the Council, and this he Palliates in his Answer altogether. I shall do as your Lordships shall command, but I doubt if he be Restored the Lieuten^t Governour and he will very difficultly serve Her Majesty together, and I think there is no Comparison between their Powers, and Inclinations for the service, M^r Partridge

having been very sincere & Industrious to my Observation in every thing that Imports Her Majesty's Service since my Arrivall however it was before I have no Persons to offer to your Lordships according to my Instructions, for the supply of the Councill but Richard Waldron and Major Joseph Smith, whom I humbly offer in the room, of M^r Fryer, and M^r Wier who are superannuated.

G. The Assembly of this Province was Adjourned during my Absence at the Eastward, and at my Return Sat again and were Prorogued two daies since to Michaelmasse their usuall time.

H. They have Granted to Her Majesty a Tax of Eleven Thousand five Hundred Pounds, the last year's Excise, And a little addition to the Impost, for the Payment of their Debts to the Castle, to Forces, and Garrisons, and Ships taken up at severall times for the Service, but will neither settle any Salaries for the Governour or others of the Civill List, here, so as to Support either the Governour Lieutenant Governour, Secretary Judges or other Officers, which will Discourage the best men in this Province from sustaining Offices here. I humbly thank your Lordships favourable Intention to offer that matter of a Salary to Her Majesty's gracious Consideration, and am of Opinion if Her Majesty's Commands were given therein, It would take away a great deal of Inconvenience that the Governour here will labour under till it be Determined, here are but few Persons fit to sustain the office of Judges, and I can hardly keep them that are upon the Bench, for want of a Support, if it were but an Hundred and fifty Pounds, for the Chief Justice, & an Hundred for the other four, it would be acceptable to them, they have at present but fifty Pounds each.

The Representatives have shewed their Ill=Inclination in the Article of the Assistance of New York, after severall conferences they have absolutely refused to give their usuall

vote, which they have done annually these fifteen years, that the Governour with the advice of the Councill, in the absence of the Generall Assembly should send forces thither, there may be at some time reason why such a thing should not be done, when the Hazard here is greater than there, but the Governour and Councill ought alwaies to be Judges of that Necessity, but nothing that could be offered would Prevaile with them, and truly My Lords, So it is that the best men in the severall Parts are left out of the Councill, and the meanest men in the Towns are sent to Represent them, who will take care by their Obstinacy to Recommend themselves to the People that they may be Electors of the Councill at the Season of it, which cannot be avoided till Her Majesty Name Her own Councill here as else where however I shall do my duty to My Lord Ornbury in obedience to her Majesty as I ought.

My Lords there is no ship of Her Majesty's here but the Gosport, who is also Commanded hence, and must have been gone long since but that the order came by way of Jamaica, & Arrived here but Thirty daies since, when the friggot was absent upon A Cruise, and is but returned a few daies, and now has not men sufficient to bring her home untill our ships from Europe shall Arrive, And then the Province will be absolutely without any Security, either of the Trade, or against an Enemy./

The Castle of this place is not yet finished, though we have fifty men every day upon the work, which has Retarded Colonel Romer the Engineer going to Pascataqua to begin that work, where there is 500^l ready to begin with, the Act for it is lost with my other papers./

M. I Humbly Acknowledge the Receipt of your Lordship's letters of the Twenty first of January, her Majesty's Allowance of the Two Hundred, and fifty Pounds, at New Hampshire, and Pray the same favour, for the Five Hundred

Pounds offered Me by the Massachusetts Assembly, which is lesse than ever they gave before, and having no Salary here I have spent it twice, in a Table, Servants, and Horses here, and am also in Advance as much as it amounts to for the fitting out the two Companies sent to Jamaica, which I hope my Lord Nottingham will obtain that I may be paid, having humbly written to him therein; since which I have had no Commands.

I am with all Sincerity

My Lords

Your Lordships

most obedient & faithfull Servant/

J Dudley

In the shippes at first mentioned I have lost all the Acts of Assembly of Pescataq and Minutes of Council/ The Copy of the 550^l Act your Lordships comāded me so perticularly to send which I have again ordered to be drawn out and the New Act of 500^l for the repayre of the Castle./

10. August. Yesterday I had the Honnor of your Lordships, letters by way of York of the twentyeth of April with her Majestyes Comands for both the provinces of which I humbly acknowledge the receipt and shall take care to do my duty in the severall Articlees, and shall Instantly acquaint the Surveyor that there is no Relaxation in the Measure of Timber and pray your Lordships to beleive there has been none yet thô Desired by the people./

My Lords copy

A. My Last Addresses to Your Lordships were of the 5th August last by A vessel to Whitehaven, Blore Master, this I hope may arrive after so many Letters that I have Lost, five packets successively, from January to April, I am already advised of, which I am forst to Adventure by Merchant Ships here being no Opportunity by Any of her Ma^{ty}s Ships returning hence,

B. I have now humbly to Acquaint Your Lordships that since My treaty in July with the Sachems of the Eastern parts, and all the Obligaçons taken from them of their Obediance to her Ma^{ty} & presents to the value of 300^l. A small party of about 30 french men with only three Officers & two preist's from Port Royal with about 200 Cape Sable Indians, of whome I formerly wrote to your Lordships came round the bay of Fundee and have debauched all the Eastern Coast from St. Croix to the Province of Main, and with the greatest profidy and secrecy scatter'd themselves to the Length of 100 Miles

and came with all possible Friendship to the poor scattering houses distant from our Forts, and all at once upon the 10th August fell upon the poor people, where themselves Lodged over Night, and killed & carryed away about 100 Men Women & Children, two dayes after they set upon the Forts at Casco bay, Saco & Wells, which are at Twenty Miles distant each on the Province of Mayn, where I had Lodged three foot Companyes, who received them so readily that we Lost nothing there, Scarce a man at each garrison, and at Casco bay which is the furthest, 200 Miles from Boston, the french Men began a Trench and in three dayes wase got within A pikes Length of their workes when her Ma^{ty}s Province Galley with Seventy men arrived from Boston and killed forty of them, obliged them to burne all their plunder to Leave their dead behinde them, and March away, since which for about 30 dayes, I hear of them in small partyes 5 or 10 stealing & killing Cattle Like the Rapparees of Ireland in several parts of the Province. —

C. this Breach has obliged me to raise a thousand men, whereof 850 are for the Land and 150 for the Coasters, and 600 of them will be upon there March in 14 dayes from Casco for the head quart^{rs} of the Indians who are in there forts at 150 Miles distance from the Sea, & 20 Miles from each other, where we may possible Destroy their Corn & houses, but no Likelihood of seeing them, who will have their Scouts out, & March Off as we Approach them, and only wayt an Opportunity, A whole fortnights March which we must be obliged to, to obtaine An Advantage, in the hedious desart, to fire now & then upon us, however the Experiance of the best men, that have at any time been here, can advise to no better method then by Constant Marches, Especialy in the winter to dislodge & starve them, and these men & about 10 Sloops necessary to attend them, will put the province According to the present Establishment, to

three thousand pounds A month, which has obliged me After I had rayed & Marched the Troopes to the several parts, to hold the Assembly, to Acquaint them with the Necessity of taking care to provide for this groing charge, who have very Dutifully thankt me, for the care of the peace of her Ma^{ty}s Subjects so long ~ And of the war so early, and have chearfully undertaken the charge and granted 11500^l to be raised that the Subsistance may not fail, and I hope in A winters Session about Christmas will further do their duty, and I think necessary to have the head quarter at Cascos, and have therefore sent Colonel Romer thither to reforme that fort, to make it fitt to Lodge 500 men, I did also Coñunicate to this Assembly who sat the first of this Instant, her Ma^{ty}s gracious Letters and Coñmands refering to A standing settled Sallary for the governour &c. which they have prayed they may give Answer to, when the Assembly is more full at their Ordinary time of Sessions in the winter.

D. The french and Indians have in this Occasion shewed a great deal of Cowardise & Cruelty, have not killed one man under his Arms, but by surprise, have scarcely saved any women or children but slayn many three dayes After they were prisoners and the Fryers make it all religion, and say mass over Every thing publickly in the Camp Night & Morning,~ while this was doing Brovillan the governour of port Royal sent to me for the Exchange of 10 prisoners & Frindly sent me three of mine, and A french Gent^m to Offer the Exchange which I Accepted & sent home his ten men, and the french Officer protested that his Governour knew nothing of this March of the Indians which since by some of our prisoners we are assured was most false,

E. In this Necessity and great charge, I have written in the most pressing manner, to the Governours of Rhoad Island & Conecticot for the Advance of but 150 Men between them, but can obtayn nothing, notwithstanding this province do's

F. wholly Cover & Secure them from danger, And I should be wanting in my duty if I should not Acquaint your Lordships by every opportunity how the service is ruined by the Government of Rhoad Island, two of the privateers fitted out by the Merchants of this Town with ships, provisions and Armes, brought in A spanish prise, worth 5000^l, coming up from the Southward were Obliged to touch at Rhoad Island, the men were presently debauched and the Governmt^t countenancing of them refused to Leave the place or to Suffer their prize to Come to Boston & there they Embessel'd the one halfe of the Goods & Cranston the Governour refused the Collector & the receiver on behalf of his Royal highness, to have anything to do, and all the Letters and messages, that I could possible write & sende, Could get no answer from them to any thing, since which the saylors from hence run away by Scores and there are hidden & secured, & Last of all our Imprest Men for the Land service, in all the parts next them run away to the Island. & nothing returns from thence, so that of Six privateers, that did so much service Last Year, I am reduced to one, and when they are in the Sea, I expect Rhoad Island will be their port also, all which would be remedid in one hour, if her Ma^{ty}s pleases,

G. I humbly Acknowledge the receipt of your Lordships Letters of the 20th & 29th April, and in Answer to the perticulers, have given strict charge to the Judges of both the provinses, that they do proceed in All causes with exact Justice, and without any delay and have had no perticuler Complaint of any thing of that sort, since my being here, I must also Inform your Lordship's that there are no courts in this province wherein the Governour has any Share or power, but there are Judges on every bench. ~ thô I am humbly of Opinion this province will not be well until a Chancery Court, be Establish't, wherein the Governour will properly

preside In the Comãand refering to a Court for small causes, It is already a law here, and Long practised that every Justice of the peace has Cognisance of, a trespass, a Debt of Forty shillings without A Jury sumarily To determin (And in every County an Inferiour Court for any other Sum!) from whence there Lyes an Appeal to the Superior Court & these Laws were allowed by his Late Ma^{ty} and on file in your Lordships Office.

H. In the Last perticular of that Letter, I have comãanded the Clerks of every County Court, Superior Court, & the Admiralty Court at the ende of every Session to Transmit into the Secretarys Office an Abstract of all Causes & matters depending with the names of the plantifs, defandant, sum! sued for, Judgem^t, Appeal, which I shall from time to

I. time Humbly lay before your Lordships / With your Lord^{ps} Letter of the 29th of April I have a Cobby of your Lordships representation to her Ma^{ty} of the present State of the Province of the Massachusetts, for which I humbly thank your Lordships, and it is every day now Apparent that nothing will proceed well here, till her Ma^{ty} will please to name her owne Councill, the best men in the province can have no share in the Civil Governm^t till then./

K. her Ma^{ty} having appointed M^r Usher~Instead of M^r Partridge Lieu^t Governour of New Hampshire is very Acceptable to me and I shall hope for his good service there upon his arrival. In the affair of the dimentions of Timber, notwithstanding their Offer, there was never any relaxation made to the people for y^e cutting of Larger Timber then in the first orders from y^e Crown, in King Charles y^e 2^d time and so that matter rest's as it did, and shall be diligently performed by plaisted who is very carefull, I have sent her Ma^{ty}s gratiuous Letter to New Hampshier refering to salaryes ~ & shall follow it about Ten dayes hence, when the

L. Assembly shall sit, but can expect Little from that very small

province, M^r Usher Not being arrived, I have not yet received her Ma^{ty} Commands, relating to M^r Allens Title, but shall strictly & carefully observe and persue them ~ when I shall receive the . . In the courts of New hampshire for their Impartial & speedy proceedings And for an account of Causes, I have given the same Command as in this province & they shall be duely Obeyed,

N. I Humbly thank your Lordships for the hopes I have of Stores for both these provinces & of Ships of War. I have none here At this time but the Gosport, which since the O. death of Cap^t Crofts is Commanded by his Lieu^t Cap^t Smith who is very carefull here, and at this time has put Forty Men with an Officer on board a Sloop to Cruise on the Shoales After a french shallop that is Looking for provisions for Port Royal who are almost starved, having yet no Supplies from France, and if I might be honour'd with the Call of 3 or four of her Ma^{ty}s Ships, T'wol'd certainly fall into our hands.

P. The province of Mayn and the parts beyond Kenebeck River, Pemaquid & as far as S^t Croix would make better Settlem^{ts} then any in this province if a Scotch Collony might be Setled there, the Fishing and Lumber, and masting being more plenty and easy then in any part of America, And I'm Humbly of Opinion that they will not be settled without some such new Collony the English in these parts having already grasp'd more then they can plant or defend,

There shall be nothing wanting to the utmost expence to save the Frontiers here from depredations but a very few of them passing easily over our waters - and hedious swamp will distress us long, having all supplies from Quebeck & port Royal,

R. I have directed Colonel Romer at his return from Casco to meet me at Piscataqua to proceed in the reforming of that Fortification where they have raised 50-0¹ and I shall

proceed as Fast in it as the Troubles there will allow they being every day alarm'd and disturbed if but 2 or three Indians appear./

this is the third time the Act for 550^l rayed in New Hampshire which your Lordships so p^ticularly sent for has been covered to your Lord^{ps} with minute of Councill and Large Accounts/

I am my Lords

Your Lordships most faithfull

Humble servant

 May it Please Yo^r Ex^{cy}/

In Pursuance to Yo^r Ex^{cy}s orders dated 26th of August last past I departed y^e 29th of s^d ~ moneth for Cascoa, taking my Journey first for Marvelhead, where I set such worke as their ability for ten guns would allow from thence I went to Salem where I expected to have found the Sloop w^{ch} Yo^r Ex^{cy} appointed for my transportation to Cascoa but she being dispatched by Coll. Hawthorne & sailed thence the morning of the same day on which I arrived Ab^t the evening I therefore hired an open wood boat & made all dispatch I could for Cascoa where I arrived the first of this instant in

Evening & the next day I went on shore to sett out such workes as I deemed most propper for the security & defence of that place & for the reception of four or five hundred men as Yo^r Ex^{ty} ordered I remained at Cascoa until the eleventh instant, by w^{ch} time I had brought the worke into a very good forwardnesse, so as they could easily be perfected in ten or twelve dayes, on the eleventh instant, I embarked on board y^e Province Galley Cap^t Southwack Com^{dr} for New-Hampsh^r where I arrived on Sunday 12th instant. / Being here arrived according to Yo^r Ex^{ty} order & dire^{ct}con, I waited upon y^e Hono^{rb}le Lief^t Gov^r the Captain of the Fort, & others of the chief Gentlemen of the province, & co^mmuⁿicated to them what I thought necessary to be done for Repairing & securing her Ma^{ties} fort &c. they all tell me, they are readie & willing to do their utmost for her Ma^{ties} service, & their owne security, but that of late yeares they have been so impoverish'd by taxes & publick Contributions that by reason thereof they are capable to do very little at present they also tell me that y^e five hundred pounds granted by the Assembly for repair of the Fort by reason of the low price of provisions in which specie the sad tax is chiefly paid, will fall much short I have Accord^g to Yo^r Ex^{ty}s order carefully viewed her Ma^{ties} Fort at New Castle & find it of little service as it is I have therefore given such directions for the present defence & security of her Ma^{ties} s^d Fort & Province as I conceive most propper & suitable to the circumstances of y^e Place which if observed may be of Service in case of any sudden surprizall or assault And I hope her Ma^{tie} on the Application hath been made will be graciously pleased at her own charge to order such assistance & supply whereby this Province may be enabled to build & erect such Regular fortifications as may be effectuell to the ends proposed No place I have seen in my Travails being naturally better scituated & more suitable for defence.

I have also According to Yo^r Ex^{cy}s order viewed the Passage called New Castle Ferrey, where, in forme yeares hath been a Bridge som part of which is still remaining, w^{ch} s^d Bridge I am told was built at y^e charge of y^e Province and thought by the Govern^t then very necessary for a Passage to her Ma^{ties} Fort that so y^e Inhabitants of the other Towns of y^e Province might in case of any sudden assault have the Conveniencie to come in wth their assistance w^{ch} s^d Bridge is now much decayed & almost ruined thro^w want of seasonable & suitable repaire so that her Ma^{ties} Subjects who have occasion & would passe & return over s^d Bridge by themselves or with their horses & carriages as formerly now cannot which is detrimental to her Ma^{ties} Service especially now in time of Warre because the Correspondencie is wholly cutt off thereby between the Meine & her Ma^{ties} fortifications at New Castle and is to the common hurt & daⁿage not onely of all y^e Inhabitants of s^d Town of New Castle but of all y^e Neighbouring Towns & of Travailers ~ it being a shorter & nearer way by four or five miles & also a much safer way to y^e Eastward Parts & when s^d Bridge was in repaire I am informed was the chief & Most usual Roade I further represent unto Yo^r Ex^{cy} if s^d Bridge be repaired & rebulded it will be of speciall service unto her Ma^{tie} as it will be a meanes to prevent & obstruct any illegal trade which hath been or may be practised against the lawes customs & Acts of trade & Navigation/ these things as last mentioned I have formerly (a bout four yeares since in the late Earl of Bellomonts time of government) made report thereof so now with what at present is offered as in duty bound I humbly represent & submit the same unto yo^r Ex^{cy}s Consideration for her Ma^{ties} Service

Our Mills a wholly useless, wee are taken off from our Employem^t:^s have lost much Corne and Hey in our remote Skirts this Summer, Wee have borne almost an Equall Share with Pressed Soldiers, in Watching and Warding. Therefore may it please Yo^r: Excell^y: Councill & Representatives to Consider our Low circumstances, which Capt. Building a Fort at Pemaquid.”

“For the Building a Fort at Pemaquid.

We humbly Conceive Her Majesty hath Received Misrepresentations, concerning that affair, at least our Apprehensions of it do not Concurr, with what hath been Represented to Her Majesty, wherefore this House sent home their humble addresse & Memoriall Dated March 27th. 1703, to Lay before Her Majesty our reasons, why we did not Comply, with Her Majestys Directions in that matter, viz^t.

1.) The little advantage it was formerly to us althô. not lesse than Twenty Thousand Pounds expended.

2.) The Scituation being out of the ordinary Way of the Indians, and more than One Hundred Miles distance from any English Plantation.

3.) For the now Building and Maintaining s^d Fort, the great charge will be such that this Countrey cannot possibly Subsist under in Regard of the Severall large Summs of money Laid out in the Raising new Fortifications on Castle Island with diverse others in this Province of great Importance which are set forth in s^d Memoriall, and we hope may be sufficient to render us excusable; But the fresh unaccountable Charge Created by the present war, with the Indians, we humbly Conceive is Argument enough; were there no other for our not Building the same."

On the 10th August 1703 the french and Indians brook the peace and fell upon severall places at once (viz^t;) Cascow, black point, Cape Elizabeth, Perpudock, Sawcoa, Winter harbour, and Wells; destroyed all the Cattle, and all the Inhabitants they could ketch in their owne houses.—

At Purpudock they ript up one Goody Webber that was big with child and laid her child to her breast and so left her. At Spurwink river they knockt one Jordans sucking Childs brains out ag^t a Tree; The Father of s^d Child seeing the Indians approach went in a frindly manner to meet them thinking of no danger and shook hands wth them and as he was so doing they knocked out his brains and scalp'd him And took several families & carried them away captives they killed abundance of Cattle & left them untouched.

There was above fifteen hundred bushells of Indian

Corn besides other grain standing in the fields belonging to y^e English Inhabitants at y^e Eastward of Wells wⁿ y^e Indians broak out of w^{ch} they took possession & no body venturing to those parts to destroy it or take it away y^e Indians had y^e profit of it. There is quite contrary methods now taken then was in S^t E^d Andros time who took y^e most effectuall way to destroy them & root out y^e very Memory of them from y^e Eastward.— In Septemb^r there was Nineteen Men kill'd at black point ab^t a quarter of a Mile from y^e Garrison Cap^t Willard being then in y^e Garrison by ord^r of y^e Gov^r who as soon as y^e men were killed he run out of y^e Fourt wth all his men aboard a Sloop & left but 8 men behind w^{ch} belonged to s^d Garrison who were forced to desart y^e Fort; being so left by Cap^t Willard & y^e 19 men y^t was then killed are to this day left unburied. Boston April 20. 1704.

My Lords

By the Centurion who sailed hence about the tenth of March last I addressed Y^{our} Lordships with the State of these Provinces, and with all the accounts, papers, minutes of Council, Acts of Assembly, since which time severall partyes that I have in the woods to the head of Coⁿecticot--Morimack and Saco Rivers are returned, they were in all to the Number of six hundred men in four partyes and kept the forrest upon a three foot snow in snow shooes carrying their provision with them for Twenty daies but found no

Indians, they having early before Christ masse gone Eastward as far as Penobscot, but I have thereby given this Country as well as the Indians conviction that we can beare the frost and travell with our Victualls as long as they, and the spring being now come I am preparing about seven hundred men to Range the coast from casco bay fort to St^t Croix the extent of this Government to keep the Indians from their fishing and planting, to distresse them farther against winter, which will demand twenty sloops with provision to attend them, and this is besides Six hundred men in Garison upon the frontiers in a line from Marlborough to Wells as Your Lordships will see the frontiere to reach in the mapp which I humbly offered your Lordships by the Centurion, and as an Encouragment to Volentieres in the service, the Assembly at their Last Session agreed to pay one hundred pound per head for every Indian above ten yeares old brought in by the Voluntieres who March without pay./

During the time of the forces being abroad, the French and Indians about two hundred came from Mount Reall directly over the Lakes, and on the first of february fell in upon a Village called Dèerfield our uppermost Settlement upon Coñecticut River which was taken in by a Palisado containing about forty houses wherein were seventy men Inhabitants and twenty Musqueteirs I had Lodged there as a Garison, but the watch being neglected the Indians got into theyr gates, fired severall houses before any alarm, but when they were got to Armes, they defended themselves tollerably till Sixty men from Hatfield the next Village as I had ordered came to their Releife and beat the Enemy out of Town, where notwithstanding we Lost twenty men and seventy women and children carried away, but the Enemy Left thirty men dead behind them, within four and twenty houres there were three hundred men from the Lower townes of that River from Springfield and Hartford in the Village but

for want of Snow Shoes dare not follow the Enemy, this part is from Boston an hundred and twenty miles, and having no Officers nor Regular Soldiers for theyr Example, are not so ready and under command as they would be if Her Majesty would favour those provinces with two or three foot companyes to be disposed in the parts as at New Yorke, where the very being of the Soldiers in Garison hath secured the Maqua's at peace for severall yeares Last past.

While this was doing Brovillon the Governour of Port Royall had fitted out a privateer sloop with forty men to Cruise at Cape=Codd to look for our western Victuallers to supply his Garison, of which I was aware and had written to the Governour of Coñecticot not to suffer them to come Round the Cape without a Convoy, which I had ordered to receive them at Martha's Vinyard, where they stayed so long that by storme the French privateer was driven on shoare, and I seized the men who are now prisoners, and may serve to exchange for the people they carried away, the said prisoners give me account that there are drawn together from Quebeck, Port Royall and our own Indians, a Thousand Men, who Intend for Pascataqua Early in May, I hope to have a force there ready to receive them, but the Settlements in the province of Mayne are so open and unguarded that It is impossible to save them all from a lesse number of men, but I shall doe what is in my power and besides the Inhabitants I have three hundred men in Garison and one hundred Indians, which I have lately entertained from Connecticut colony and am fitting out ten sloops with about Six hundred men to seek theyr headquarters in their absence, I hope I shall keep the war at a good distance, but theyr waters and swamps Eastward are so unpassable that It is Impossible to root them out.

These services by sea and Land demand a very great share of the people of this province, and instead of assistance

from Road Island my next neighbors, I have some hundreds of Young fellowes the fittest for the service fled thither, and entertained there, and I have no meanes to reduce them, but they will double theyr province, and give me no assistance of men of money, and in a very short time if the war presses upon me, I shall be able to doe very Little my Seamen as well as Landmen taking refuge there, where they doe no duty nor pay any tax.

By the Centurion I gave your Lordships account of my obedience to her Majesties directions in M^r. Allens affayres at pascataqua, which he acknowledged to have put the people into a better disposition and Just opinion of his title, and nothing shall be wanting on my part to put him into an absolute and quiet possession of the waste, there is some little misunderstanding between himselfe and M^r. Usher unhappily fallen which may prove the greatest obstruction.

I have yet no other assistance for the sea but the Gospir which is uncapable to doe the services of one of the provinces much lesse of both, and if as we have a Rumor here the french fleet should call we have nothing to secure us, but they may lye before Boston or New Castle in pascataqua and bomb the places where the seate of our Trade is.

I humbly acknowledge the Receipt of Your Lordships letters of the twenty ninth of July and the sixth of August 1703, and in answer to the first humbly thank Your Lordships for the farther report of the state of these Her Majestyes provinces and hope the coming of a Fourth Rate friggot to be added to the Gospir, absolutely necessary for the service here.—

Your Lordships expectation of the assemblies obedience to Her Majesties comānds, for the Setlement of a Salary for the Governour here must be at an End. If the Centurion be well arrived as I hope where they have given their Last

peremptory answer to both Her Majestyes Gracious comānds Referring to pemaquid and that of a Salary, I can sincerely protest to your Lordships I never intended in any thing to use more skill nor application privately as well as in the Assembly to have obtained an Obedience in the Rebuilding of pemaquid, but without any successe with men that forget their duty, and the addresse that the Representatives privately sent away digested by a secret comīttee with theyr memoriall, which I hoped would never have been seen by your Lordships, M^r Phips now adviseth me he presented, which I humbly hope Your Lordships will please so far to animadvert upon as to prevent such methods for the future, and to doe me the favour to acquitt me I being perfectly ignorant thereof.

I have now a second comīssion for M^r Byfield Judge of the Admiralty, and he was this day sworn in Council and not before, and I shall leave nothing undone for her Majestyes service in the power of that Court.

The Indian boy mentioned in that letter will now be uselesse, the Indians having broken all faith with me, and I should not returne him if he were here.

In obedience to the letters of the Sixth of August I have enclosed plans of all the Fortifications in these provinces, and what is needfull for the present workes which Colonel Romer saith was done formerly, or I had not omitted it so long, but they may be mislayed coming over befoe my arrivall.

Besides the Cannon I am in great want of small Armes which are daily wasted by my forces abroad, especially the Indians in Her Majestyes Service, It would be a great favour, and that which I pray this people may deserve, if I might receive a small quantity, if but five hundred small armes, for both the provinces—

My Lords, I shall continue with all possible industry

and application to serve Her Majesty here, and pray that it may be acceptable to Her Majesty and to Your Lordships.

The hurry of the war in a great measure prevents the Inhabitants going upon the Turpentine and hemp trade, but I am sensible that if the people here be not put upon it, or that Her Majesty will please to have some ships of war built here for Her own service whereby the people may make Returns the woollen trade from England will sensibly be impayred every Yeare and great quantityes of all sorts of woollen clothes made here to the great hurt of the Kingdom of England, which it is my duty with Your Lordships directions to prevent.

I am My Lords
Your Lordships most obedient
and most faithfull
servant

J Dudley.

“ His Excellency's Speech April 19, 1704.”

Gentlemen

Since I saw you last I have used all possible means to Rayse a proper Number of Volunteers for the service upon the Honorable premium you allowed in the Last Session (and I hope you have done the same in the several parts) but without any Considerable appearance and by the Intelligence I have of the Enemy I am assured if wee Keep not the warr at a distance they will Employ us nearer home.

I must therefore desire you will have some other Considerations of the Matter, if you should see meet to revive the ten pound act made the last year and allow the transports, I believe we might Imediately see a sufficient Number for the Summer Expedition otherwise I must have recourse to the ordinary Method of the Impress least the summer be lost and the fronteirs oppressed.

I have the Last week from the Government of Connecticut 100 Indians under the Care of Major Mason who serve upon the forty pound a head, I shall post them in the province of Mayn as Conveniently as I can to Cover those towns and Desire you will have a Just Consideration of Major Masons service upon whom those Indians do absolutely depend.”

“ by the Intelligence I have it is necessary the forces be forthwith sent away.”

“ Gentlemen—

I beleive we are all sensible of the benefit of the Expedition Eastward in the Spring & Summer the effect whereof has been the quiet we have had in the province of Mayn &

our own Northern plantations & the Care & Watchfullness we have used to the Westward and the disappearance of the french & Indians at Lancaster has given us the same ease on that side which yet we must not depend upon but Expect another march of the Army from both sides;

My Lords

I lately humbly Addressed your Lordships by way of Lisbon of the twentyeth of Aprill past having had no direct conveyance from hence since the Centurion Copy whereof I have now again inclosed, since which I have had no Ill accident notwithstanding the appearance of the Indians every where in small partyes except the losse of one family at North hampton, where the Indians again surprized them in the darke of the night.

About Six weekes since by some letters from Canada to port Royal which I intercepted, we had newes of the March of One hundred french and two hundred Indians from Quebeck to Joyne the Eastern Indians to make in all one Thousand, with direction to them to fall in to pascataqua River to burn New Castle and the fort there and draw off Imediately, and to Acquaint them that from Mount Reall at the same time the number of five hundred should fall upon our upper Townes on Connecticut River, In prevention of which Colonel Church with the forces I had Eastward at penobscot very luckily fell upon that small Setlement of about ten french familyes where he took the present sent those Indians, and the agent one Monsieur Gordeau and twenty soldiers the fore runners of the Quebeck party and about forty soules more women and children whom he sent with Gorden prisoners hither with a considerable booty which I gave to his men, which I hope hath diverted that Expedition, and at the same time I sent three hundred men more into the province of Mayne, least the Enemy should oppresse any weak part there, and to the west ward upon Connecticut River I have two hundred men from Hart ford from Connecticut Colony, to whom that part is a frontier, and two hundred of this province who are now going two hundred miles above deer field upon Connecticut River, to seek the

Rendezvous of the Mount Reall party supposed to be upon that River about two hundred Miles above any English settlement and these additions to the forces under Colonel Church make up one thousand nine hundred men in pay with twenty sloopes put this province to a very great charge at present, under Colonel Church I have Six hundred Men with the said twenty sloopes and the Gospir friggot & the Jersy being here from New York to fitt I obtained of My Lord Cornbury to let her keep company with the abovesaid forces into L'accadia and all along the coast, on both sides the bay of fundee who are now out, and have Ranged all the coast from Kenebeck River as far as Saint Johns, and taken considerable plunder and burnt all the Settlements where Casteen Le Flibu and other french Settlements have long been, and are at this time gone over to the port Royal side to see if it may be, they may Surprize the french supplies coming thither where they are very poor, and to cut the banks of their corne Land, and let in the sea upon their meadowes, which destroys them for five Yeares next coming, and if I had had the favour of a 4th ship Rate, added this spring as I humbly pray'd, I might by the favour of God have possessed port Royall, with no other Losse or danger than Rideing before the place, and preventing their supply from France and the prisoners I have, tells me they have some moneths been at allowance the Inhabitants as well as the Garison, and in the like condicion they are at Quebeck as the Letters we have taken of theirs informe us.

To support this great charge the Assembly who sate the whole moneth of June, have very frankly granted twenty three thousand pounds and have given me no Objection to the number of y^e forces, nor Improvement of them but very readily and cheerfully submitted to the charge and thank'd me for the advance of the forces, which is now the fifth man in the province, but I can obtaine nothing from

Road Island from Coñecticot I have two hundred and Sixty men in the upper townes upon that River, which is truly their owne frontier, but without any comand, they come and goe as they please, sometimes by orders from their own government and sometimes without, and so it will be while those charters remaine, no money will be raised, nor men under coñmand while their Neighbour are oppressed with hard Marches and great taxes, if this Inequality (my Lords) were at a great distance it might not easily be observed, but nothing parts us but a brooke, we are in equal danger and can call to each other and a family of this province payes a tax of five pounds, and his next Neighbour of Equall estate payes not one crosse./

I am in great want of powder and small armes, I have strictly taken y^e powder duly in specie, and have abridged all unnecessary expence of powder, and the Lieutenant Governour and other Officers are very carefull, but the service, and marching and removing will waste it away, and armes are every day lost and spoyled, which I cannot repaire here, If by any means this province might be favoured with Her Majestyes bounty in these Articles, I would engage for the good husbandry & just expence of them.

I have as Your Lordships have directed sent exact planns of the severall fortifications in both her Majestyes provinces, with the number of Cannon mounted, and the wants we stand in, which I also humbly pray may be supplied according to Her Majesties gracious intimation in Your Lordships former letters.

It hath been the usage of this province once in a few yeares. to conciliate and confirme their friendship with the Maquaws & five nations and I have written to my Lord Cornbury to advise therein and have accordingly provided

for the charge of Commissioners, and a present about five hundred poundes, which is necessary to keep them steady, of which the french letters intercepted Complaine, and hath moved me to this present Errand and charge on their behalfe, and yet at last I doubt we shall loose them, if we have not Ministers amongst them to defeat the french Missionaryes to whom they are infinitely bigotted.

I am sencible the papers your Lordships gave me a list of as wanting were twice sealed up in my sight but both times Lost, but the last letters wherein those papers should have been were sealed at pascataqua, and by the carelesnesse of the Secretary left behind and yet I cannot expect any exact service there from a secretary whose salary is but twelve poundes per annum, and the perquisites scarce worth five poundes more, beyound which profit that office Hath not amounted these twenty Yeares.

I am sencible I have troubled Your Lordships too often with the Account of the Assemblies Refusall of any establishment of a salary for the Governour, which they are obstinate in to the Last degree, and so they are in their Elections of the Council, the best men in all parts are Left out, and men of no principles in Government sent to the board, from whom I can expect nothing but contradictions and oppositions and I make bold humbly to acquaint Your Lordships that those priviledges of Election of Councilours, are no manner of benefit to these provinces, but are scandalously used to support partyes against the Honour of the Crowne and Government and are made opportunities to affront every legall and good man that loves the Church of England and dependance upon Her Majestyes Government, who to be sure shall never obtaine a Vote though very superior to others for learning & Estates.

I have also humbly to acquaint Your Lordships that Amongst others the Last Yeare I gave coñission to Captain

Plowman for a Privateer Gally who was a man of undoubted probity and Courage, and was very well Equip^d by Merchants of this place, and sailed from Hence the first of Aug: 1703 but falling sick his company resolved to alter their course from the River of Canada whither they were bound, and two daies after he was found dead in his Cabbin, and then his Lievtenant and Company sailed for the Coast of Brasill where they robbed nine portugall Vessells, in a Moneths time took about Ten thousand pound of Treasure, kill^d one Portugall Captain, and upon the Coast on their returne tore and reformed their Journalls, but coming into harbour were soon suspected and comitted to prison, and have since been found guilty twenty of them the greatest Rogues of them Early escaped, however I have I hope attended the Act of Parliament and Her Majestyes instructions, and have executed six of them, that is to say, the Captain and Master who were the ringleaders, the person that kept Plowman Close and would suffer no man to speak with him, the man that shot the Portuguese Captain After he got on board his ship and there are yet fourteen Condemned left in chaines that are young and ignorant fellowes, objects of Her Majesties mercy if she please and I humbly pray Your Lordships that it may be represented unto Her Majesty for Her Royall pleasure and commands therein the whole proceeding is inclosed which I ordered to be printed, it being a very new thing and seeming very harsh to hang people that bring in gold to these provinces.

I have used all possible meanes to surprize their treasure and have got above halfe of it, the receipt of the gentlemen appoynted to receive and secure it is enclosed, and I humbly waite as I am commanded in Her Majesties instructions her Royall pleasure for the disposall thereof. There is a considerable charge in seizing of it in severall parts of the Countrey at great distances, which I have

allowed and ordered to be payd, If Her Majesty shall see meet to allow any part thereof for my care, or the Service of Lewtenant Governour Povey, I shall thankfully accept it, especially since the Province will do so little for the Support of the Government.

I have also sent home Captain Lawrence and his Lieutenant John Wells, who have made themselves accessories after the fact by hideing, concealing and carrying away seven of y^e s^d pyrates, with the proper evidences against them, as I am comānded, If Her Majesty shall please to extend Her Royall grace to those that remain here in Irons, their suffering will be long and hard, and the executions paste I hope will forever be a warning to such evill men here. I most humbly submitt the whole to Your Lordships Care, and pray I may be pardoned for any mistake in the Tryalls, the proceedings here being wholly new, and that I may have Her Majestyes direction for what remaines in this affaire.

I formerly acquainted Your lordships that the Representatives in theyr assembly the last year sent home a private addresse without my knowledge or advice, which I humbly pray Your Lordships will acquit me of, being referring to pemaquid &c and if it be a fault, (that matter being comānded by Her Majesty to be Sollicited by the Governour) to give him the goe by, I humbly pray they may be advised of it by your lordships, In the last Assembly they have done better, and prayed that a Coñmittee might be allowed to attend me with an addresse to Her Majesty which is Enclosed in this packet, and I humbly pray that it may be countenanced by your lordships, and the prayer therein heard, what is represented of the pressure of the war being altogether true.

I humbly Acknowledge the receipt of the duplicate of Your Lordships letters of february 16: 1703/4 with the Inclosed packet for Road Island which I received seven daies

past, and the Road Islands packet is by my own Messenger safely delivered, and I hope will be so far obeyed as to make the article of the vice Admiralty more easy for the future, but that of the Militia and the just use of theyr forces and expectation of a Quota from them will by no meanes be had untill they have farther coñmands from Her Majesty or a dissolution of theyr charter, which truly stands in the way of all Religion & good Government.

The grant of five hundred pounds for the fort by the Assembly of New hampshire, was truly as much as could well be collected at one time under the present pressure of the war; but I have done my Endeavour to double it by causing every man in the province by Thirty in a week to worke at the castle without pay which amounts to twice as much more as the tax and yet it will be too little for so Important a worke for that Province. I am in great need of great gunns as the account and planns shew powder and small armes which I hoped to have received Last Yeare, and can very Ill defend the province for want of it.

I thank Your Lordships for the re-establishment of Colonel Byfeild in the Admiralty, he lately in his first court gave Judgment against the Charles Gally out of which the privateers were taken and his Judgment seems agreeable to the Law, however the Owners have appealed to the Court of Admiralty in Doctors Coffions as the law allowes, where if the judgment be confirmed, it will very much repute and steady the Government here.

The allowance by law and usage here is to give the Justiees foure shillings per diem out of the fines during the Session lesse than what the law of England allowes, and I shall take Care that they doe not passe it in neither province, and the remainder of y^e fines strictly comes into the treasury.

The Assemblies refusall to vote the standing assistance for New York, I took it the more greivously from them

the last and this year because it had been no more than a dutifull Submission to Her Majestyes Comānds, and would have cost them nothing, the troubles being so pressing upon us, and my lord Cornbury in peace in his Government would have been much more ready to have moved to our Assistance than to have expected any thing from this province, and if it might be thought meet that all the provinces on the Shoar of America should contribute towards the war, it would make it look like fellow subjects and Concerned in the same Interest and duty to support Her Majestyes Crowne & Dignity.

I most humbly pray for the assistance of Guard ships for this great Coast.

I most humbly thank Your Lordships acceptance of my service so farr in raising men for the defence of the province, I must doe the Assembly here that justice to say that though they have not obeyed Her Majesty in providing for my support here, they have very frankly submitted to my appoyment at all times for numbers of Men and their support, and I am bold to say, one Reason hath been that they are convinced of my sincere endeavours in their service and for their support, and that not one man nor penny hath been diverted from its just use & service designed, nor have I by any meanes taken for my selfe or the Leivtenant Governour one penny but what hath been known to them and seen in their Accounts at all times for the payment and support of their owne men.

M^r Usher is in the province of New hampshire, taking care of the fortifications of which I have given him the Comānd, and Colonel Romer is overseeing the work, although uneasy with a difficult and poor people, I hope M^r Allen doth me the right in his letters to say that he hath asked nothing of me for letters or orders in his affaires that I have refused, he hath again begun his actions with Severall, and I hope

they shall come home in the order and method Her Majesty hath commanded, though many of the people do every day submit and take leases of him as he acquaints me from time to time.

I shall strictly obey your Lordships direction referring to privateers Commissions when I have the Honour to receive them.

I have published the repeale of the two Acts of the Assembly of New hampshire for the confirmation of some grants and an Act to prevent Contention &c. and entered the repeal in the Assemblies books, and the Avoydance of them will I think much facilitate M^r Allens affayre, they were both made before my arrivall here, and I have often observed the tendency of them since my coming.

The last Clause of your lordships letters of the Sixteenth of february aforesaid refers to the Setlement of a Salary, that matter being never to be obtained of this Government during their present forme; I most humbly submit my selfe to Her Majestyes Care, and shall never neglect my duty in Her Majestyes service Nor the Just Interest of this province notwithstanding, while I may approve my selfe to your Lordships, whose commands will be alwaies obeyed by me while I am honoured with my present station.

M^r Phipps gives me notice your lordships have considered the necessity of a chancery Court to be established in this province. I am humbly of opinion Your Lordships would have that power Lodged in the Governour for the time being, and a Number of the Council as Masters of chancery or assistants to that Court, and it is most certain it would then be a just honour to Her Majesty and a great benefit to the province, I have written to M^r Phipps to attend Your Lordships therein.—

These letters are sent expresse upon a Sloop I have Employed on the province charge on purpose, and humbly

pray your Lordships will let Captain Cary the messenger be as soon as possible dispatched having nothing else to doe, and that he may have protection for his master & saylors on board, and that the two prisoners and the evidences may be disposed of as Her Majesty pleaseth, that he may return.

Captain Lawrence and Leivtenant Wells the Accesories whom I am Coñmanded to send home, have these two last Yeares done good service, the first Year Lawrence took five french prizes & since coñmanded a Company of Voluntiers to Jamaica and Wells his Lievtenant, & did good service there & Returned but fell unluckily into this folly, I pray that if It may consist with her Majestyes Honour he may obtain his pardon

I am My Lords

Your Lordships most obedient & humble Servant
J. Dudley.

*Letter from Col: Dudley to the Board, relating to y^e
State of the Massachusetts Bay Dated the 13 July 1704./*

To the Queens Most Excellent Ma^{ty}:/

The humble Adresse of the Council & Rep^resentatives
of Yo^r Ma^{ty}s: Province of the Massachusetts Bay in
N: England in General Court Assembled./

May it please yo^r Ma^{ty}

His Ex^{cy} Yo^r Ma^{ty}s Cap^t General & Gov^r of this Yo^r
Ma^{ty}s Province, having communicated to us Yo^r Ma^{ty}s Royal
Letter of the 25th of Jan^{ry} 1704/5. In w^{ch} yo^r Majesty is

Graciously pleased to signify, That Yo^r Ma^{ty} of Yo^r Royal Bounty has thought fit to give Directions, That Twenty Cannon wth their Appur^{ces} be sent to us for the use of Your Ma^{ty}s Fortifications on Castle Island ~

We Yo^r Ma^{ty}s Loyal & Dutiful Subjects do wth all humility Address your Sacred Ma^{ty} wth our hearty & sineere Thanks for Yo^r Ma^{ty} Royal Bounty therein, And for the good Assistanee Yo^r Ma^{ty} has been pleased to Afford us in Sending the Dept ford Frigatt in our time of need, when o^r Coast has been Infested wth French Privateers./

And we crave leave in all humble & Dutiful manner to offer to yo^r Saered Ma^{ty} the following reasons, Why we cannot Answer Yo^r Ma^{ty}s Expectation of building a Fort at Pemaquid, The Contributing tow^{ds} the charge of the Fort at Pisetaq: River, & the Setling of fixed Salaries for the Gov^r & L^t Governour.

As to the building of a Fort at Pemaquid. The Expence already Made on o^r Fortresses, Garrisons, Marches & Guards by Sea, Am^o to more than Eighty Thousand pounds, a very great p^t whereof is in arrear & unpaid, Besides the daily growing charge for our necessary Defence & prosecution of the War is become almost insupportable, and has brought us under very distressing Circumstances & were the building & support of a Fort at Pemaquid Super added thereto, It would render the charge far beyond our Ability, And we humbly conceive would be no Security to o^r Frontiers or bridle to the Indians, the Situation thereof being so much out of their ordinary Rhode, and Upw^d of One hundred Miles distant from any p^t of this Province at present Inhabited by the English & of little or no Advantage to this Province, Althô the Expence in building & Supporting of the late Fort at Pemaquid cost not less than Twenty Thous^d pounds, w^{ch} was not lost by any Neglect in the Governm^t: It being fully Supplied for the Support & defence thereof; but by the Cow-

ardize or Treachery of the then Commanding Officer upon the place, who received his Tryal, but was Acquitted. -

The small Fortification w^{ch} was built at Casco Bay onely for a Cover for a Trading house in a time of peace, is since the War made a considerable Fort, and is likely to be as great a charge to Support the same, as that of Pemaquid; and for our present Security, and future Settem^t of Plantations in this Province, will be of greater Advantage.

As to the Contributing tow^{ds} the charge of Piscataq Fort— The Fort in that Province was built many years past, when it was neither desired or thought necessary that this province should assist therein; And the Navigation and Trade of this Province comeing down Piscataq. River have been and are charg^d wth a Considerable Duty tow^d their Support, And this Province has Afforded such Guards as were needful for their halling of Masts, Timber &c. for yo^r Ma^{ty}s Service, whilst the principal benefit and Advantage of that Trade has accrued to that Province. And they have never contributed any thing to the charge of o^r Forces, Forts, Garrisons or Guards by Sea that are as great a Safety & defence to them as to our selves. And y^e publick charge of that Governm^t has been much less in proportion than the charge of this./

As to the Setling of fixed Salaries./

Whereas it is the Native right & priviledge of English Subjects by Consent of Parliam^t from time to time to rayse & dispose Such Sum & Sums of money as the present Exegency of Affairs call for, The w^{ch} priviledge we Yo^r Ma^{ty}s. Loyal & Dutiful Subjects humbly crave leave to plead our right unto, not onely as Subjects of y^e Crown of England, but also as priviledged by the Royal Charter granted to this Province by their late Ma^{ty}s King William & Queen Mary of blessed Memory; which we have hitherto happily enjoyed under Your sacred Ma^{ty} And we humbly hope & pray will

be continued to us and our Posterity. And as hitherto We have not been wanting in our Loyalty tow^{ds} your Ma^{ty} & Support to our Govern^{rs} so we hope for the future Always to be found in the Discharge of Incumbent Duty's./

May, what we have herein humbly Offered be favourably Interpreted & Accepted by the Parental Indulgence of Yo^r most Gracious Majesty. And may the same propitious Providence which hath hitherto preserved Your Majesty's Sacred person, Still defend and prolong your happy Reign, and prosper yo^r Auspicious Armes in the just War wherein yo^r Majesty is engaged. ~

Is and shall be the Constant and
fervent prayers of

Mad^m Yo^r Ma^{ty}s

Loyal & Dutiful subj^{ts}
& Suppliants./

Copy of the Address of the Assembly of New England to Her Majesty setting forth their Reasons for not complying with her Commands for building a Fort at Pemaquid &c — and for setting a Salary on the Gov^r and Lieut Gov^r / referred to in Col. Dudley's L^re of 3 Nov^r last.

Petition of the Town of Wells.

Wells Octob^r 24th 1704.

To His Excellency the Govern^r, Her Majesties Hon-

our^{ble} Council, & y^e Hon^{ble} House of Representatives; In
Gen^l Court Assembled:

At Boston of y^e Massachesets.

The Humble Petition of y^e: Town of Wells, in y^e County
of Yorke.

May it please your Excell^{cy} yo^r Honours, &
y^e Hon^{ble} House of Representatives, It hath seemed good,
to this great & general Assembly, to lay on us, as our part
of three several Taxes, y^e Sum of 80^{li} = 30^l whereof was
required just upon the bloody desolation w^{ch} it pleased God,
in his sovereignty to make on our Town by y^e Eastern
Enemie last year in w^{ch} many of our inhabitants (& they
such as were wont to bear a great part of our publick
charges) were either murdered or taken captives; their
Houses burnt, & goods spoiled. besids diverse others,
escaping wth only their cloaths on their backs. So that we,
who are y^e Frontier wing of y^e Body of Frontier Towns,
are most of all impoverised & diminished. more then a
third part of our number are, one way or other, gone from
us: & a great part of us who are left, being destitute of
imployment & income are so exceeding poor, that if y^e Con-
stable, who hath already used all means more gentle, should
execute y^e law in severity, he must take their bodys. Our
straights are every way enlarged; What we did formerly
allow to our Minister w^{ch} at best was but a slender main-
tainance, we are not able now to make good & if Country
rates be exacted, we have reason to fear, that do what we
can, our Minister will be constrained to leave us; he having
already removed his family, for want of a convenient dwell-
ing place; his house being only raised & partly inclosed
before y^e present warr began; which to finish, will be impos-
sible for us, if that little w^{ch} (thanks be to God) is left us,
should be taken from us: while we hold our lives in our
hands, wth w^{ch} we should labour in improving our lands;

which also, excepting what are near adjoining to our Garrisons, lye wast: in somuch that what we do or can improve, will come farr short of finding us Bread corn. Moreover, instead of adding to that little w^{ch} y^e former warr had left us; we did, in y^e short time of peacable intermission, lay out what might be spared from our backs & mouths, in building a meeting House, & rebuilding our old wast places, & settling new ones, as also in erecting mills, w^{ch} are now, before they could in any measure repay our disbursements, useless & unprofitable.

May it therefore please this Honour^{ble} Assembly to comiserate y^e distressed condition of your impoverished & exposed Petitioners; groaning under many heavy burdens, enough to sink us if now we fail of relief; & to remit our above mentioned Taxes, excepting what is granted out of them, to our Minister. Thus humbly praying that y^e most fav'able construction may be made of our bold importunity, & what ever else may be found amiss therein; while we have not exceeded, but come very short in representing y^e hard circumstances of our present calamity; we must leave our verry sad case to y^e all disposing influences of a gracious God, who knows y^e depths of our Straights; and can move Your Excellency's & Honour's bowels of compassion towards your Dutifull Servants; who shall ever pray &

That yo^r Petitioner has a Lease of the Ferry at Kittery in the County of York by which Lease he is bound And has Covenanted to keep the s^d fferry in good repair and to give Constant attendance there as also to pay the sum of Ten pounds p^a annum Rent for the same.

Now so it is may it please yo^r Excellency and Honours and the rest of this great and General Assembly, That the far greatest part of yo^r Petitioners Employment at the s^d fferry is the Transporting and carrying over Soldiers and their Horses for the Publick Service, (the other business being very inconsiderable) and yo^r Petitioner has Receipts to shew from the several Captains & Commanders of Companies &ca for such service amounting to the sum of about Eight pounds, And if the fferriage will not be allowed him for such persons as are fferryed over upon the public Account It will be the utter ruine and undoing of yo^r poor Petitioner who hath yet six years to come in his Lease.

Yo^r Petitioner therefore humbly Prays this great and General Assembly will be pleased to take the premises into their pious and Charitable Consideration, and be pleased to allow him for such service so much as in their Wisdom and Justice they shall see meet.

“ Gentlemen,

Since I parted from you in your Last Session I have persued your advice referring to the Warr and the Number of men in the several parts as near as possible, so as in the whole they are below the Numbers you advised mee, which I was the rather Inclined unto supposing as it has hapned that the Last two months being neither propper for a suñier nor a winters March, we might have Less Expectation of the Enemy, but the winter being now Confirmed we must Expect to see them both in Yorkshire & west Hampshire, of this Last we are already advised that the Enemy Intends an Early Winters March & the same is Justly to be Expected in the Eastern parts & nothing will prevent their Ineursions so much as to let their own scouts find us in a readiness for them which I shall not Neelect & hope the Militia Every-where will be ready to prevent an oppression in the fronteirs.”

A Memoriall

That whereas the French inhabiting Canada are endeavouring Might & Maine to gain over to their Religion & Intrest all the Indians at Canada & places adjacent the Eastern Rebels & those inhabiting about Missipa Ruio & on the backside of Carolina Virginia Pensilvania, Jerzey, New Yorke & part of the Maque's It may be considered the danger those Plantations wth the Massathuset & New hampshire will be in, when they have brought that to pass their Barbarities & makeing our people Slaves to the Heathen Shew what wee may expect from them in time to come.

For Preventing whereof & as an adition to and advantage of the Crown of England itt will be highly necessary that Canada be reduced to the Crown of England.

And whereas Nova Scotia & Canada did formerly belong to the Crown of England (being contained wth in the Latitude of 40, or 43 degrees of North Latitude by King James the 1st to the Counsell of Plymouth) & given by King James the 1st to S^r W^m Alexander in the Year 1621, who sent a Colony thither in 1622 (See Mordens Geography) but it is said that S^r Will Alexander sold it to the French, And suposing it once belonged to the Crown a Subject could not dispose of y^e Royalty & Governm^t if he could the Soyl. –

It is a Country proper for the produceing Naval Stores there being a great quantity of Mast Trees, white & other Oak Pine Spruce Firr & other Sorts of Wood for the Fire

& the Land is suposed to be propper for Hemp & good hemp has been produced there by the inhabitants for their Use & a great Quantity of Pitch Tarr Rosen & Turpentine may be produced there.~

It is a healthfull place lyeing in y^e Latitude of about 43 & as good a place for fishing as any in y^e world & provisions of all Sorts may be raised there for thousands of Famileys the meadows bear as good Wheat as any in America it is Stored wth many good Harbours where good Towns & Villiages may be erected there is alsoe Store of Sea Coale

If Her Maj^{ty} the Parliam^{ts} of England and the Gentlemen Comiss^{rs} for providing Stores for the Navy were Sensible of the great advantage it would be to the Crown to take & Settle Nova Scotia & Canada with a Colony of Suitable people whose bussines should be to provide Stores it is not doubted but the Navy of England Might in a Little time be Suplyd with Considerable Stores from thence on reasonable Termes & spare the Vast quantitys of ready money w^{ch} they are now forc'd to disburse to Foreigners for the Supply of Her Maj^{ty}s Navy.

And it is proposed that whoever comes to Settle the Countrey there Shall be a Saveing to all or any of her Maj^{ty}s Subjects to have a free Liberty of fishing on those Coasts, Harbours, Bays, Creeks & Shoars as there may be need.

Port Royall is to these Northern Plantations as Dun Kirke to England a Den of Privateers.

S^t Hum: Gilbert was Sent out wth a Ship upon Discovery where he went to the River of S^t Laurence in Canada there he tooke Possession of the Same for Queen Elizabeth & Setled a Fishery there Anno 1583 Vide S^t John Norbouro's Journall into the South Seas through ye Streights of Magelane.

Sea Coal is not known to be in any part of her Maj^{ty}s Domin-

ions in America but only in Nova Scotia & the wood is soe much consumed in New England that it is feard in a few years they will not be able to subsist with out Sea Coale for their firing And the French will not even in Peace permitt the English to get Sea Coale there but have in such Case formerly taken their Vessells that went for that purpose. ~

That yo^r Poor Petitioner is one of the Ferry-men

Passengers, indeed almost none at all who Travel that way,
besides the Soldiers Employed in her Maj^{ties} Service, which
by Law are to be Transported fferryage free, which may be

no great prejudice to those fferryes which are not exposed, but as to those fferryes which are in ffrontier places, and especially this at Yorke Yo^r Poor Petitioner humbly hopes yo^r Excellency & Hono^{rs} will please to Consider the great hardship they lye under yo^r poor Petitioner being obliged to Maintain a Boat & give his attendance, thô he have no other business but what is upon the public Account; An account of what service he has done he has sent by Cap^t Bean, and to Cap^t Gooch but never had any allowance, which if it be not granted to him he cannot possibly Subsist.

To the Hono^{ble} her Maj^{ties} Council and House of

May 30th 1705.

The humble Petition of Lewis Bane & Joseph Hill
Representatives for the Towns of York & Wells in
behalf of themselves and the Rest of the Inhabitants
of y^e Province of Main

Sheweth That the Inhabitants of the s^d Province have been
extreamly harrassed during the last long Warr with the
Indians insomuch That they were forced to break up and
betake themselves to Garrison, and when the peace was con-
cluded every one being willing to go and make the best
Improvement they could of their Estates and laid out what
they had, and what they could borrow to furnish themselves
with Cattel & other Stock for which several of them are
still in debt having not been able during this short peace to

recover their fortunes. And now (may it please yo^r Excellency and Hono^{rs}) they have been ever since the begining of this Warr, and still are Exposed to the Incursions, and their Cattel to the Depredations of the Barbarous Enemy: many whereof have been found killed by them & many more missing. And because of their being continually in such Danger they are forced to live in Garrison and cannot Improve their Estates. Insomuch That they are thereby reduced to very unhappy Circumstances and will be very shortly constrained to desert the province, if they have not some ease given them & favour shewn them by this great & General Assembly. And there being now Two years Taxes due from the Province which they are in no ways able to pay, on the contrary are not able to support their ffamilies, especially those who are ffocused to leave their Houses, and Lands and to live in Garrison houses where they are ordered to go, & where they guard the Owners of such Houses Estates their own in the mean time going to ruine & they themselves ready to Perish through want if some redress be not made therein.

Yo^r Petitioners therefore humbly pray
 This great and Hono^{ble} Assembly would
 please to take the premises into their
 pious and Charitable Consideration and
 in regard of their great Poverty would
 be pleased to Remit them their Taxes,
 and be pleased to Order That those persons
 who are forced to go to Garrison Houses
 & so cannot Improve their own Estates
 during the Warr be allowed some liberty
 and priviledge for pasture and planting
 in the grounds belonging to such Houses
 for their necessary support, As to Yo^r

 seem meet.

Answer to the Governor's Speech September 5, 1705

In the House of Representatives
Septem^r 11th 1705.

May It please Your Excellency

In Answer to those Articles of Your Excellency^s Speech at the Opening of this Session, referring to Her Majesties Directions for the Building of a ffort at Pemaquid, Contributing to the charge of the ffort at Piscataqua & Setling of Salaries, We crave leave to Offer

Imprim:^s As to the Building of a ffort at Pemaquid, We are humbly of Opinion, that Her Majesty, hath received Misrepresentations, concerning the Necessity and Usefullnesse of a ffort there, Wherefore this House in their humble Adresse to Her Majesty dated the 27th of March 1703 (and since twice repeated) Did amongst other things Lay before Her Majesty, our reasons, why We could not Comply with Her Expectation in that affair, as

First, The little Benefit the s^d ffort was to Us, not being (that We could discern any Bridle to the Enemy, or Barrier to our ffrontiers; being out of the usual Road of the

Indians ; and one hundred miles distant from any English Plantation : And Served only to make a safe Anchorage, for a few fishing Boats, that accidentally put in there. But the Expence thereon was very great, not lesse than Twenty Thousand Pounds.

Secondly. The charges of the Said fort will be such ~ That We cannot see how said Province can possibly sustain it, having already Laid out severall large Sums of money, in the Raising of New fortifications, on Castle = Island, with diverse others in this Province of great Importance, which was set forth, in the said Adresse, and Memoriall accompanying of the same, but Understand Wee have been so unhappy, as that the said Adresse & Memoriall did not reach Her Majesty's hand, because proceeding from this House alone, although the addressing of Her Majesty is a Priviledge ever Allowed to the meanest of Her Subjects."

" We would now further Suggest, That the Fortification at Casco=Bay (which in the first Intention of It was Designed only as a Cover to a small Trading House, Erected there at the Request of the Eastern Indians, for a near Supply and to Steady them in their Obedience to the Crown of England, and to Prevent their Going to or Dependance on the French) is now very much Inlarged demanding a Great Expence, for the Support thereof, and is Seated near the former Settlements, & Plantations, of the English within this Province, and considerably beyond any of the present English Dwellings.

Which Reasons, we humbly Hope, will render us excusable for not Building a ffort at Pemaquid

2^{dly} The 2^d Article is the Contributing to the charge of Piscataqua ffort.

The Fort in that Province has been built Severall Years past, when It was not Desired, or thought necessary, that this Province should Assist them therein. The late Reforms,

& Reparations made of the same, as we have been informed stands that whole Province, about the sum of five Hundred Pounds which doth not amount to the Quota of Severall particular Towns within this Province; towards the Charge of the War, within the Compasse of one Yeare. And all the Navigation, and Trade, of this Province coming down Piscatqua River, have been charged with a considerable Duty towards the support of that fort.

And this Province hath alwaies Afforded such Guards, as were needfull for their Haling of Masts Timber &c^a for Her Majesty's service, whilst the principall Benefit, and Advantage of that Trade has Accru'd to That Province. And They have never Contributed anything to the Charge, of our ffoeces, fforts and Garrisons, or Guards by Sea, that are as great a Safety, and Defence to them as to our selves, But the Publick charge of that Government has been much lesse, proportionably, than the Charge of this.

Which being Considered We hope no Assistance will be Expected from Us, towards the charge of the s^d fort."

"His Excellency the Govern^{rs} Speech Octo^r 24, 1705"

Gentlemen

Since your Session in the Spring I have taken all the propper Care of the fronteirs in my power & by the favour of Almighty God it has been so successfull that though the Enemy has frequently Lookt upon the several parts they have had no Encouragement nor oportunity to do us any Considerable Mischeif, And being well informed of the Incapacity of the Enemy to make any Considerable March towards us I have retrenched the forces every where to that degree that I hope your accounts will shew you that we have saved ten thousand pound of the last years charge."

S^r This evening and not before I received account by M^r Nathan Jeffryes of your arrival, at Wells, and of the disasters of your Voyage & the rudeness of the English men on board which are very surprising & greivous to mee, I have dispatched my Comands into the province where you are, That an able Master may Imediately wayt on you and abide on board till your vessel be brought to safe harbour near mee That I may safely receive your self & your vessel where nothing shall be wanting to you.

I heartily wish you a good Voyage hither where You shall have all the Good treatment due to your Character & that of Monsieur Supereass from whom your Errand is.

" Letter to M^r Sheafe, D. Collector, Piscataq".

Boston, 15 January 1706.

S^r

I have before me a Letter from M^r Dufcolliau master of a french sloop y^t came from m^r Supereass Governour of Port Royal and brought with him Thirty Seven English Prisoners with Letters for mysefe in form of a flag of Truce, and that since his arrival he had received on board Captain Frost and some English Saylor by my Order for their Governm^t and to bring their Vessell into safe Harbour and to render me their Letters and Messages.

The said master Informs me that some body has been on board and Rob'd him of what he had there, being in no wise intended to breake bulk or Trade in any English Port.

I am since Inform'd That you have made Seizure and taken on shoar the said Goods, which I am doubtful is a great Mistake. If you had suspected any danger of his Trading, you had done well to have left an Officer on board till he had arrived to my care, but the Takeing her Goods on shoar out of her will reflect upon the Government.

This last Account is from the Gentlemen of Her Ma^{ty's} Council in N. Hampshire, And therefore I Direct That you forthwith send all the Goods taken out of y^e said Vessell forthwith to Boston, And if you have any Complaint, the Court of Admiralty is now open, the Judge being in Town, and the frenchmen here to make answer, whome, being Enemyes, I shall not allow to return to Piscataqua, but they shall have Judgement here; I shall not necessarily detain the s^d Vessell & the Messengers of the Governour but a very few days, and therefore Expect to see the Goods and your Complaint thereupon forthwith: If the Vessell be not come away the Goods I Judge most proper to be put in her, with your Officer on board, Captain Frost being now in Command of her by my Order, If she be come away, You must find some other vessell to bring the Goods in such form that they may not challenge you of Imbezlement and you shall be heard.

I must soon Dispatch and expect to see you without delay.

& a present or Gratuity for Captain Stueley & Captain Sutton the Queens officers from whom we may have a good (service): if these things be done this morning I am Intended to prorouge for twenty dayes when the Assembly may be advised how forward we may be for the Expedition,

without these things I shall have no officers, nor money for the service,

Every day we stay we Lose the season & I must have time to form every thing for the service which I Desire you will presently give mee that I may see what I may Expect from my Neighbours as well as what I can do my self,

I therefore desire that I may rise to day & have the Leisure of seeing my officers the next week.

“May 13, 1707

Gentlemen,

I had not troubled you with a Session at this Time, but that it was reasonable you should know the present State of the forces Eastward, And necessary that I should have your advice in so troublesom an affair –

The Expedition was entred upon at your Instance and advice, And the best officers & Souldiers in all Parts of the Province taken into the Service, the first orders & Instructions to the Coñanders of the Forces, Seen & approved by a Session of the Assembly holden for that Service.

And the Shippes of Warr & Transports very soon after arrived in the Bay of Port Royall, And the forces happily Landed & possessed themselves of the Ground near that Fort, of the houses, & cattle of the Inhabitants, but very soon after, without any Direction from mee, Embarqued again, left the Shoar, & Contrary to their orders; without visiting the other settlements of the French upon that Coast Directed there Transports to make the best of their way home to my very great surprise, which with all Industry with the advice of Her Majtys Council I have laboured to prevent, and Therefore coñanded the fleet to Stop at Casco-bay ~ And those that were gotten hither by all possible means I have arrested and returned, And have reinforced them with another Ship, and near an hundred men as I was desired by the Last Sessions of the Assembly. Letter from Francis Wainwright to Gov. Dudley.

May it please yo^r Excellency.

I rec^d y^rs by Lathrop. Significing yo^r Excell^ys pleasure : That we Return to o^r Camp. At w^{ch} (for the service of y^e Country) I sincerely Rejoyce. On the other hand I must say I am very much Troubled Att the ungovernableness of

some of the Masters of o^r Transports who (notwithstanding they were forbid) have presumed to Ramble away, we know not whither but possibly may Center at last at Nantaskett. I hope yo^r/. Excell^y will give orders for their Return to us To Casco-Bay. To attend their Duty in y^e service./

I hope the Gentlemen wee sent are waiting upon yo^r Excell^y Rendering an Acco^{ts} of our proceedings at Port Royall and the state of that place, w^{ch} will be without doubt far Different To the Acco^{ts} given by that Impudent Lyeing Hill, and will make such a discouery of Truth To yo^r Excell^t, and the Generall Court, as Really to Beleeve (by a good Reinforcement of five hundred good Effective men, provision and ammunition, &c. that by a Long seige, we might Reduce the Fort To very great distress, and if we Beleag^r it Long Enough To a surrend^r I doubt not: Certainly if we Take, or prevent their store-ship giving them Supply they must of Necessity Surrend^r! And we haveing Impouerished the Inhabitants so greatly. I believe now Indeed is the Only Time to Gain that Fort: I am very glad our Country-men are so Zealous, and Push forward so Resolutely in the matter. Sir, I am of opinion that our breaking up the seige, (if we Return) will be no Disadvantage to us, but Rather the Contrary. Probably upon our Return we may surprise many of them who are Taking a Melancholy view, of their Distressed State. And must (when they come to behold their fields of Corn on fire, and Every thing else (Eatable) distroy^d, cause them to Surrender, and ask for Boon Quart^r/. I must again offer my Opinion now is the time or Neuer. And I had Rather return and use all possible Endeauo^{rs}/. for the subdueing of them, and their Fort, Then to my family whom I saw very well. And upon our Return will be the Proper Time to uisit Menies and Shecanecte by a Party And to distress them by Burning their corn, killing their cattle, that a Supply from

them may be prevented. And if we miss this opportunity it is a question whither ever we have such an opportunity again. I Cannot but Express the wonderfull goodness of God to us in loseing No more men by y^e Sword. In givinge such Generall health, And pleasant weather as Ever was Known. I know not why (By a good Reinforcement) we should be Discouraged in y^e service. I shall heartyl^y be sorry if the Generall Court should (by any Information) alter their opinion from what yo^r / Excellency wrote mee. I am hearty sorry for any Mistakes we have made. And I doubt not but all wise men will Call them so. Rather then Acts of Cowardise. I beleeve upon a New attempt at Port Royal, we shall amongst us Contrive a way for y^e gaining of y^e mortars, To our Camp. I was in the day of it and am still heartyl^y Sorry for the great misunderstanding between Col^o March, and Col^o Redknap who were the only Masters of our Design. I hope on Col^o Redknaps return, they will be reunited in their Opinions for y^e service.

I earnestly desire a happy Result in our Expedition; w^{ch} with the Tender of my humble duty to yo^r Excell^y and Service To y^e Hono^{able} y^e Councill, and house of Representatives, is from him who would approve himself the ffaithfullest of all yo^r servants.

We are all in good Health, and in great Expectation of News from Boston of our return either home or to port Royall And the many reports and rumors Spread over the Country make our great Officers very uneasy, Especially

that Col^o Appleton Should go to Sett him self up and raise him upon the ruin of Some of our Officers or at Least his advancement above them which they as well as all our Souldiers are very much troubled at: tho resolved to be content if they can do the Country any Service, it must be Said and every day is that he was the only Instrument of raising the Seige that he might Save the Countrys money, but as they Say only to Save him self from the Danger which he alway's was very apprehensive of and would Sculk and hide as if he never heard a gun, S^r I dont make itt my buiness to reflect or make Remarks but am resolved to obey any and every body above me, and Serve in my Station which I have hetherto done to the utmost of my power, and indeed as the matter is Circumstanced I have a very difficult task, but Do expect as every body else a Change as to our Commander in Chief when things will go on with ease and good government, which has been Wanted very much, and is the Cause of the desarting of twenty men yesterday and as much Care and prudenece taken as if they we're not Concerned, and the Col^o as if he had nothing to do but make himself popular and a party, which end Col^o Appleton was also inclined and hopes (as the report is) to be one of the three tho as unwilling to come or return to port royall as any man Living. “Gentlemen

Since your last Session we have had a troublesom sumer my first advice from Quebeck of the Enemy^s Motion was that they Intended a Descent upon the fronteirs with 800 or 1000 Men, which put mee upon Covering all the fronteirs with forces, being not able to guess where they Intended to make their Impression, of which number they were afterwards disappointed by sickness and other disorders amongst themselves.”

Their appearance at Haverill was with a much Less number where they have little to boast of thô we might have done more against them if we had presently followed their tracks.

I suppose their motions for this season are over & to prevent their winter Marches we must keep our vsual methods which have been litherto very successfull.”

Boston New England March 1st 1708/9

My Lords

This comes by Capt Riddel in Her Majesty's Ship the Falmouth which is the only safe conveyance since the Deptford brought home the Accounts and Papers from these Governments the last year, and with this Your Lordships will receive all the Acts of the Assemblys of both Provinces, Continuation of the Revenues and Grants of Supplys for the War, the Minutes of Council the Issues of Causes and Judgments at Law, the Accounts of Stores, Armes Ammunition and Cannon in the several Castles and Forts, and what else I am Commanded by Her Majestys Instructions and Your Lordships Letters.

Your Lordships first Letter is of the Seventh of May 1707 to which I humbly referr requiring a full Information of the State and condition of the respective Provinces referring to their Government and Commerce, the Acts of their Assemblys, Grants of money &c. and the Governours proceeding by way of Journal; all which the Answers to the particular Questions will Open to your Lordships satisfaction, unless the last referring to the Governours Employing his time in Her Majestys service here, which in Obedience to Your Lordships Commands is after this manner.

In May the General Assembly of the Massachusetts sits down, and generally holds six weeks, which I am forced to attend every day to put forward Her Majestys Service and to keep the Houses to their Duty ~ The Council Consisting of Twenty Eight Members and the Representatives about Eighty, they may be if the Towns please to be at the Charge of their sitting, One hundred. When that Assembly rises the Assembly of New Hampshire usually sits down for a shorter time, being fewer in Number and more ready in their Dispatches. The issue of these two Assemblys brings July and August, in which Months I have what troubles the

French and Indians, my Neighbours can give me in the Frontiers by their Marches upon me in the Covert of the Woods, which keeps me well Employed to send Forces to all parts of the Frontiers of Two hundred miles long, which has been so successfully managed these Six years of the War, that I have not lost one Village, nor drawn in any, which has been always done in the former troubles with the Indians. This trouble and hurry of their Incursions holds till the fall of the Leafe, and beginning of October, when the General Assembly of the Massachusetts setts down again for another Six weeks, and then follows the Assembly of Piscataque, as in the Spring and these bring December, when I am fitting out Partys from all places upon their Snow Shoes, who in the Depth of the Winter for four Months, are Searching the Forrests for two hundred miles deep for the Lodging of the Indians, whereby, this whole War I have kept them from all their Antient Seats and planting grounds, and driven them to Inaccessable places, and parts, where no Corn will grow for their Support, and this brings the Spring again, and a new years business, and all the Travail and Care return again./

The Names of the present Council of the Massachusetts are in the Inclosed List, tho I suppose that Clause in your Lordships Letter Mistaken, because Her Majesty do's not supply the Vacancies of Councillours here, as in all Her Majt^{ies} other Governments, but they stand by an Annual Election, and so the Assembly alters them every year as they please, and the Governour has Power by the Charter to refuse any so Elected, which is usually done, so far as to refuse One or two of the Twenty Eight to maintain Her Majestys Prerogative, tho there is frequently reason enough besides, it being easily Observed by Strangers here that the best Estates in many parts of the Countrey are not chosen into the Council, but very Inferiour Persons taken in, both for Estate and Education, and of less Affection to the strict Dependance of

these Govern^{ts} upon the Crown and Government of England, to the hurt of Her Maj^{ties} Interest which can be Amended only by time, and a steady management of Affairs, which will at length Convince the People of their own benefit in Her Majesties Favour by their good Obedience./

By the Rule of Five to one for Old Men Women and Children Against the Mustered Souldiers I Judge this Province to Contain when I arrived Fifty thousand Souls, these are all Freemen and their Children besides the Blacks of which Your Lordships have Account in my Answer to the Affair of the Affrican Company./

This Number is Increased by One Thousand every year, and so I believe they are for these last six years that I have served Her Maj^{ty} here, the Warrs and troubles with the Indians notwithstanding./

The Cause of the Peoples removal out of this Province is the Inequality of the Taxes, The Lands are equal our health here the best of all the Provinces, Trade Superior to any, but our Taxes are Seven times as much as any other part of her Majestys Government from Carolina to Newfoundland, and there being nothing but a line of marked trees between the Inhabitants of this and the other Provinces, and they every year see that the whole burthen of the Warr, lyes upon these Provinces, this Poor People can easily remove to the next Colonys to that Degree that I believe we have lost two hundred Men within this five years, most of them to Our Neighbours of Connecticot, which will be all redrest and People quiet when Her Majesty shall please to make the Charge of the War equal upon all the Governments.

In Peace the Impost and Exceise tho very small will maintain the Charge of the Massachusetts Government and now we spend in the Warr Thirty thousand pound p Annum, by a Land Tax, very heavy to the Planter./

I Mustered the Militia of the whole Province in the

year 1702 and gave the Account to the Lords of the Plantation sitting at that time, about Tenn thousand, and I believe there are now One thousand More in the Musters, the Warrs and troubles notwithstanding.

The Commoditys raised in this Countrey for Exportation for Europe, are Fish, Lumber, Oyl Tar, and other Gums, Furrs; Fish to the value of Thirty thousand pounds Lumber two Thousand pounds, Oyl Five thousand Tarr and Gums Ten thousand, Furrs One thousand pounds, besides these, from hence comes into Great Britain, Sugar, Tobacco, Logwood, and other Dyes, Rice, Molasses &c to a very great Value, produced and brought hither, by a Trade with the West Indies, for Provisions horses and Lumber, and from Virginia for a Coasting Trade and Barter holden with them, all which Centre at home in England.

I know of no Commoditys of Europe Supplying the Inhabitants here, but from England directly tho they may Originally come from Holland, Hamborough, France (in Peace) or Spain, because the Acts of Parliament command it to be prevented, and I am as Careful as is possible, tho it be very Displeasing to such as use a false Trade.

The Trade of this Province is Increased in all the Articles above to a very great Degree, since my coming hither, Except the Article of Furrs which is abated by reason of the War; The Indians carry their Furrs to the French, and our own Indians and English are prevented from Lying abroad and following their Traps as in Peace. And I must add that the Woolen Trade from England is also in a great Measure abated, the People here Cloathing themselves with their own Wool, and this is Occasioned by two things ~

First the Excessive prices of all Goods from England nothing is here sold at less than One hundred and Fifty pounds p cent Advance, most Goods more, So that the Countrey Men cannot purchase them. And Secondly, the Returns for

This Province has all Sorts of Manufactures Settled, that belong to Iron, Leather, Linnen, and Woolen tho to no Degree capable to serve the Inhabitants as yet-

There is usually Shipped Eight hundred Tons of Train Oyl from this Province, which alters yearly as the Whales pass by us, nearer or further from the Shore, and as the Weather happens for Boats to keep the Sea as they pass, which they do every year from Pole to Pole-

The Fishing for Codd is much Superiour to Value of Thirty thousand pounds p Annum which goes to Spain &c. and returns mostly by England home again, besides the Trade of Mackerill for the West Indies at Five thousand pounds p Annum, uncertain-

Your Lordships Wisdome needs no Intimation of mine, to know how these Provinces may be made happy and Serviceable I am humbly of Opinion That the English Settlement! from Pemaquid to Delaware River, which never Cost England above Ten Thousand Souls to Settle them, which Tract is now Divided into six several Governments, Contain in them One hundred and Fifty Thousand Souls and are daily Increasing, and are a very Industrious People, as appears by a Subdued and well built Countrey and will stand in need of nothing to make them such as Your Lordships would have them but a good Defence against the Incursions of the Indians and French by Land, which would be done at once by a Colony of Ten Thousand North Britains, who might peaceably Enter upon a better Land than their own with all advantages of Trade, Fishing and Lumber, and be in a readiness to Assist the removal of the French from Quebeck and Port Royal, and then the Peace and repose of these Provinces, would make the Trade of all sorts five times what it is presently, Over all which, if Her Majestyes Government be justly Maintained, and the People and Trade kept to a strict and Constant dependance upon the Acts of Trade and

Navigation, and put upon the Linnen Manufactory for which the Countrey is Extreanly proper; The Mother will find her Daughters Increase her Wealth and honour to a very great Degree~

The last Clause of this Letter Commands the Publication of the Union of England and Scotland which was forthwith done in the presence and Attendance of the Council, Military Officers, the Regiment in Boston Horse and Foot in Armes with all due Solemnity as the Minutes of Council will further advise~

Your Lordships Next Letter was of the 12th of May 1707 with Her Maj^{ties} Additional Instructions Commanding the first Member of the Council to sit as President, and Execute the Commission of the Government, in Case of the Death or Absence of the Governour, and the Order for the Constant Attendance of the Councillours in New Hampshire, which came not to my hands till the twelfth of July, fourteen Months after, but were presently Communicated to the Council, and are upon Record in the Council Books~

The next Letters were dated December 30th 1707 being a Duplicate of the last Covering Her Majestys Letter of the 30th of November 1707 referring to the Attendance of the Councillours of New Hampshire at the Board; was read in full Council & Entred in the Council Books as I was Comanded~

The next Letters April the 15th 1708 brought Your Lordships Commands to give an Account referring to Negro's and the Affrican Trade to which I have Answered from both the Provinces by four several Conveyances, Exact Copys, which I presume, must some of them be arrived whereby it appears that here is no Trade to the Coast of Guinea on their Account to either of these Provinces.

The next Letters bear date 15th of May 1708 Covering the Acts of Parliament for the Ascertainning the Rates of

Forreign Coyns The other for Encouragem^t of the Trade to America both which have had their Solemn Publication in both Provinces, and I hope will be duly Obeyed; There shall be nothing wanting on my part to make Her Maj^{ties} Subjects sensible of the Favour done them in both those Acts, and the Injury the Plantations have done themselves in raising the value of peices of Eight, on pretence of keeping them in the Countrey which they have mist of, and have only Lowered and Injured their own Estates thereby-

Your Lordships Letters of July the Eighth 1708 Direct Me to take Care that M^r Bridger the Surveyor of Her Majesties Woods be duly Assisted in his Duty of the preservation of all great Timber belonging to Her Majesty in both the Provinces He is very sensible that at all times he has had my Proclamations, Orders, Warrants and the Assistance of the Justices & Sheriffs every where, and in all Dangerous places I have Assigned him Guards for the Security of himself and his Deputys, and wherever he has had Tryals with M^r Plaisted and M^r Mico, he has had Letters to the Judges of the Courts advising and requiring them to do their Duty to Her Majesty therein, as being the only Article wherein any thing is Reserved to Her Majesty is these Great Provinces, And because there was nothing of a Charter, nor any Record of that saving of Great Timber to Her Maj^{ty} in New Hampshire I have Obtained a Law, which is humbly Offered to Your Lordships in the Files, That it shall be One hundred pounds Fine for any Person on any pretence to Cut such Timber But am forced to acquaint your Lordships That at the next Session of the Massachusetts Assembly in May last I offered the same Act in the very words of the Charter of the Late King but could not Obtain it to be Enacted by the Representatives, which was the same House, that by a farr minor part of what sat down at first (who were necessarily with drawn for the Defence of the Province) sent away

a Secret Address to Her Majesty reflecting upon my self, and perhaps if it could be known, the Care of Her Majt^{ies} Rights and Interests in this and other things are the Latent reasons of all the Displeasure of that little party of Men, against whom there is One hundred to One that are of another mind.

Referring to the Councillours mentioned for New Hampshire in this Letter, I hope M^r Vaughan their Agent will take out the Warrants and if Your Lordships shall please at his Return to Add him the said M^r George Vaughan, and M^r George Jaffreys son of a Councillour lately deçed, they are Men of Loyalty, Estates and Education and will Honour the Queens Service in the Province of New Hampshire-

The Post Script of this Letter referring to the Barbarous Method of the French and Indians Depending on them, Scalping the Dead that fall into their hands, is upon Account that the French Government have set the Heads of Her Majt^{ies} Subjects at a value, sometimes Forty Shillings, sometimes Five pounds which the Savages cannot Challenge without shewing the Scalps as the French have made it in their Order referring thereto/ For This I have Expostulated and Upbraided M^r Vaudreuil & M^r Supercass and every Governour on the French side, and Challenged them to tell their own Master if they dare of such Barbarity used to Christians but to no Effect, and have threatned them to leave their Prisoners in the hands of the Indians as they have done many of Ours but have prevailed nothing; On the other hand I have Treated their Dead and Living Prisoners with all respect, tho as Your Lordships will see by the Acts of the Assembly of the Massachusetts I have set the Indian Rebels heads at One hundred pounds each who After a Forty Years Submission and Allegiance to the Crown of England, and Contrary to all Protestations and Covenants with me, at two Appearances and Attendancies of me since my Coming to

this Government without the least Provocation have broken out and Murthered several Familys at the first Opening of the Warr five years since, As in my Letters of those times in Your Lordships Office will appear a very far different Case from what your Lordships take Notice of in their Treatment of Christians~

Your Lordships next date is of y^e thirteenth of July Containing an Instruction from Her Majt^y Dated the third of July 1708 referring to Molasses Rice &c. which I formerly had and is well Established in the Custome House of both Provinces; All other clauses in that Instruction, referring to the Union, Forreign Coyns, Trade to America are Published and Established as Commanded, in both the Provinces~

Your Lordships next Letter is of the Twenty third of July 1708 wherein I acknowledge my Self well rewarded for all my Service here That any thing I have done against the Indian Enemy is acceptable to your Lordships, and if the proposals mentioned referring to Canada and Port Royal may proceed, it will perfectly put the North America with all the Fishery and Naval Stores into her Majt^{ies} hands and these Provinces to a lasting repose~

I shall as Your Lordships Direct Maintain a good Correspondance with my Neighbours of Rhoad Island, and the rest, with whom I never had any personal Difference, but was sometime since Commanded by their Lordships then at the Plantation Board to take and remit Papers and Evidences referring to the Neighbour Governments in which I proceeded upon Articles by Her Majt^{ies} Commands under the Great Seal of England, and no otherwise~

It would be very happy if the Challenge of M^r. Allyn against New Hampshire may have an Issue after Thirty three Years Strife~

I shall Continue my Care and Duty to Her Majestys Affairs in M^r. Bridgers hands and cannot suppose him Guilty

of any Neglect or Connivance, however shall use the Caution Your Lordships have given me~

I humbly Pray Your Lordships Favour to M^r: Vaughan in his attendance I hope he will behave himself as he ought, having always Observed his Loyalty & good Affection to Her Majestys Government here~

I shall Obey Your Lordships Commands and put the Letters to the other Officer by themselves for the Future~

I have also with these Letters a Duplicate of Her Majestys Commands referring to M^r: Vetch and Borland and others, and have proceeded long since in that Affair as I am Commanded the Fines of every One of them were forthwith restored, they having given Bond for their Attendance of a New Tryal in Ordinary Form Except M^r: Vetch who is not yet returned, and the Courts are proceeding in their Tryals, and the Accounts of Causes will-contain the issues of those cases~

Your Lordships last letter is of the fourth of August 1708 Containing Her Maj^{ties} Order referring to the Account of Ordnance, Armes, Stores of Powder and shott remaining in Her Maj^{ties} Castles and Forts in both Provinces~ That they be sent home yearly from the Twenty fourth of June to the same day Annually~

I have not hitherto Neglected for four or five years last past, the Account from the Castle of Boston, the Forts of Salem and Marblehead, and from New Castle in the Province of New Hampshire for every half year with the Expences have been duly Transmitted under the Officers hands and my Letter Conveying them unto the Board of Ordnance and are well Arrived as farr as I can learn, and I Doubt not are there remaining ending Lady Day and Michaelmas Day Annually and shall now be sent home to the Twenty fourth of June last past for the years with the Information,~ That I had Fifty Barrels of Powder from the Tower of London,

which came with me hither in April 1702 and since that I received Twenty Cannon which are set in the Castle of Boston in such places as Her Majesties Engineer has determined most proper for the Service; All other powder and Shot has been annually bought by the Province money given for that End, and taken in the Powder Duty in both provinces being One pound of powder for a Ton of all Ships Coming hither in Trade. Duplicates of these shall be also sent to Your Lordships Board, and are Inclosed with the Papers in this Packet~

The Continual Marches in the Woods, and One hundred and Ffty small Garrisons in the Frontiers and the Province Gally, which are all Maintained at the Province Charge put me to the Expence of — barrels of Powder p Annum for which the Assembly raises a payment in Common with other Affairs, and is with great Strictness and Care Issued by Warrant for the Several Services at all times which has sometimes Cost Eighteen pounds a barrel And to the End that the Stores of Powder might be kept safe and not Endanger this great Town, I have this Summer built a very fair Powder house of Brick Distant from any other Building and Appointed & Sworn Officers to receive and Deliver all powder and other Stores there kept, which cost the Province Six hundred pounds~

Your Lordships will see by the Aceount of Cannon &c That there are but four Fortifications that give in their Accounts; The Castle of Boston, Salem, Marblehead, and New Castle, besides which there are two other at present holden by a standing force both in the Province of Main, one at Saco River, and the other at Casco Bay, these two Forts were built before my Coming hither only as Trading Houses, but had each of them four Gunns for the Security of the Trade, and when the War broke out, the Representatives of this Province Earnestly Moved me to Slight them, and draw

in that Frontier, but they being the utmost Frontiers Eastward, I have always possitively refused to Draw them in, and while Coff Romer was here Her Majesties Engineer I got that at Casco Enlarged and have usually One hundred men in Garrison there. The other at Saco stood Inconveniently in a Valley, and Coff Redknap Her Maj^{ties} Engineer now residing here has taken down this Fort, and Set it in a more advantageous place down the River where it Covers the Fishery, This put the Province this year to Three or Four hundred pounds Cost, and will be for the future very serviceable ~

I have had but One Inroad this Summer from Canada, M^r Vaudreuil the Governour of Quebeck being in June last at Montreal, Gave out his Warrant for the raising One thousand Men for a Descent upon me, Of which I had soon Notice from my Indian Scouts always lying in his Countrey, and near him but not knowing where they Intended to light upon me I was forced to Equip Two Thousand Men, Tenn Troops of horse and the rest Foot, and lay them about One hundred and fifty in every Village from Dearfield to Wells Two hundred Miles in Length, But it so happened M^r Vaudreuil being then Three hundred miles from Quebeck where the most of his Troops were to be raised, the People made a great pretence of Sickness and Disorder amongst them so that he fell in his demands to Five hundred, and when they mustered they proved but Three hundred, and after three days March, half of them being most Indians weary of the War Deserted and Fled so that at Forty days, they fell in upon Haverhill, an open Village of about Two hundred Familys where as in other Villages there was a Troop of Horse, and One hundred Men quartered who soon beat them out of Town killed them Twenty men, and they Carryed away as many wounds, and we lost here three Familys of the Poor People, who without that Care, must One thousand of them have perished in a few hours time./

I have now abroad a force of Two hundred Men upon their Snow Shoes ranging all the Old Settlement of the Indians at Two hundred Miles Distance where I have kept them from their planting & residence these Six years, and Resolve by the help of God to keep them from thence till they Desert the French Service and return to their Duty, and Allegiance, And they now Confess it was Easy for the French to draw them into a Rebellion, but they are not able to support them in their own places, but they must leave their Beloved Countrey for another that will bear no Corn not Support them like their own ~ All this unspeakable Trouble and Cost would be saved by rooting out the French at Quebeck and Mont Real, and all the Indians in North America would submit in One day, for want of Armes and Ammunition as well as other Supports and Succours/

In the year 1692 The Government of this Province Obtaining the Late Kings Favour for the Establishment of the Methods of their Churches, And amongst other Laws for that End An Act for the Settlement and Support of Ministers and Schoolmasters and . thereby being Impowered to raise a Maintenance for the Ministers Equally upon the Inhabitants which in some places proved Inaffectual, so many of the People Living Disorderly, and some of them being Quakers, that there was nothing done towards the Maintenance of a Minister in several places, particularly in two Villages called Dartmouth and Tiverton, to remedy which the General Assembly the last year added Sixty pounds to the Publick Tax of Dartmouth, and Thirty to that of Tiverton for the Maintenance of the Ministers there, which the Quakers who were the Assessors of the Towns perceiving refused to lay the Tax with that Addition, and are since Restrained & Imprisoned by the Treasurers Warrant for the whole Tax of the two Towns Amounting to Five hundred pounds. I thought it my Duty to acquaint

Your Lordships herewith, Expecting a Complaint there upon, I am Sorry for their Suffering tho it be not upon the head of Religion, and am also sorry that they would be Assessors of the Tax to bring themselves into trouble, they think it hard to be taxed to the Maintenance of the Ministry, and if those that are strictly of their profession were quitted it would be no great loss, but it is Expected that if such an Indulgence be given, a great many will profess themselves Quakers to quit themselves of this Charge, as they have done from bearing Armes, and many Villages in the Countrey would be left without any Publick Worship on the Lords Day.

I humbly Offer it to Your Lordships Consideration having no Interest in the matter but that Religion may be Maintained.

At a Village called Swansey in the same County with these there was a Sober Young Divine a Master of Art who preached to some of the People at their request; The Selectmen of the Town being Anabaptists, Issued a Warrant to the Constable to Convent him as if he had been a Vagabond, and like to be Chargeable to the Town; a Copy of that Warrant is amongst the Papers ~

I humbly ask Your Lordships Acceptance of the Several Accounts given in these Letters and Your Lordships favourable representation of me to Her Majesty ~

Am am My Lords

Your Lordships

most obedient Faithful

Humble Servant

J Dudley

*Letter from Col. Dudley Gov^r of the Massachusetts Bay,
 Dated 1 March 1708/9.*

Boston March 27th 1709.

May it Please y^r Lordships/

My Lords./

I have rec^d your Lordships letter of the
 Seventh of July the 29th of Dec^r humbly pray leave to
 Answer./

That the Act yo^r Lord^{sh}ps offer for the
 Preservation of her Majesties woods has no relation thereto
 that Act Prespects only pitch pine of w^{ch} Tree is made
 Tar, Pitch, Tirpentine & Rozin, the mast Tree is another
 Speice thô both pine, the pitch pine is preserved by the
 Act to prevent the Destruction/ all at once and therefore
 such Sizes shall not be cutt and such shall, and thereby
 that tree w^{ch} now is to small will before you round any of
 those provincis. be fitt for use and so for ages her Majestie
 may be Supply'd, & the Materialls never wanting./

My Lords

I had the Hon^{ble} done me to be Con-
 sulted by your hon^{ble} board before that Act was Drawn,
 having been In those parts by his late Majesties Commis-
 sion on the same affaire as now I am, and by my Travails
 therein have Good knowlege of Its productions, w^{ch} was
 approved of by your Lordships board, and afterward
 Enacted wthout Amendmen^t. /

My Lords My complaint against M^r Plaisted I hope Your Lordships Conceives it just. and altho I Proved by three Witnesses the Cutting Six large mast trees yet was Cast the Jury being all as guilty as he was, & therefore I was Cast and forever shall be, (till an Act be passed in Great Britain for the preserving her Majesties Woods in the Plantations) the Whole Tryal I sent yo^r Lord^{sh}s last year notwithstanding M^r Plaisted has this winter cut many masts above his Contract th^o his Lycense Obliges him to his Contract w^{ch} is Twenty Six Inches Diameter the largest & Eighteen the smallest, but he has Cutt masts above thirty Inches Diameter, as last year he did wthout License; I most humbly pray your Lordships Orders whether he may Cut what, where & when he will Contrary to his Contract, and License, and my Instructions./ and how I shall proceed on the Seizing such masts, or Otherways./

My Lords In yo^r Lord^{sh}s leter you were pleased to Direct that I must prove the Trees grew on Publick land if so, wth all psible Submition I pray leave to Say That It will be Impossible for me to prove that any Tree did grow In the Woods belonging to her Majestie or on Common land for the frontiers are very large, and the Inhabitants very many, and do Every year, Cutt many Trees w^{ch} I cannott Know of, they goe into the Woods for 12 or 14 days together, w^{ch} I know nothing of and there cutt all what they meett wth my Opinion wth great Submition to your Lords^{sh}s is that when any Tree is Cutt and Drawn to the Waterside that is above the Dementions the Charter reserves, and above the Contract Size contracted for, that then all such Trees were to be Seized by me, & the prooffe to lay on those that Did cutt such Tree and not me for seizing the same (unless I could prove that such Tree was not Cutt in Prival grants) I most humbly pray

your Lord^{ps} Orders in this Affaire and on this head for my guidance./

My Lords The frontiers extends some what more than fifty miles, where the masts grow, and there is Seventy odd Saw mills on those frontiers and I have no assistance I humbly submitt it to your Lordships consideration.

My Lords As to the Wast made In her Majesties Woods I have and am still Endeavouring to prevent, wth all the Industry, Skill, and my uttmost Mannagment, but not to Effect, and Pray your Lord^{ps} to remember, that I have noe Deputies; having not received your Lord^{ps} Directions on that head, that Charge was to great together wth my own Travailing Charges, besides the Law last year, and the Expence I am at In refreshing the guards that attended, thô the Gover^r ordred them, this is a Daily Expence and not to be avoided. In the Winter w^{ch} is the time I must be in the Woods, and many other Incident charges w^{ch} will daily Occur, to great for my paying, & I hope your Lord:shipps will Consider of it accordingly./

My Lords This is what I humbly aske pardon for Troubling yo^r Lord^s so often about, but it is a charge that the Salary I have cannott Support if your Lordshipps Considers the matter, & humbly pray leave to answer one part of your Lord^{ps} Leter, w^{ch} Says I solicited the Treas-urey & was not Redress'd, It is true My Lords, but it was Thus Your Lord^{ps} board represented my Salary at once and when my Instructions were taken out w^{ch} was soon after I then knowing what Service I was to pforme, I petitioned my Lord high Treasurer, who was pleased to answer that he had done all that was represented to her Majestie, & that I should goe to New England, & if the Service required any further charge, I then must represent it home and he would Consider it, w^{ch} I have now Done, & humbly beg your Lord^{ps} favourable representations of the Services

I am Obliged to p^r forme, and I Doubt not of reliefe, for w^{ch} trouble and your Lordp^s patience, I most humbly beg pardon, and Doe Assure your Lordsp^s nothing shall be wanting in me towards preserving her Majesties Intrest and Progative to my uttmost Power Submitting all to your Lordshipps Great Justice & Wisdom./

My Lords As to M^r Plaisted's Lyeense in 1691 all the Masts were cutt & the Contract fulfilled many years before, so by your Lordshipps Judgments on that Affaire the Masts ought to Seized as they are and he Proccuted both whch are Comply'd wth the Offender is Cleered by the Jury, and the masts are under the Seizure w^{ch} I pray your Lordp^s may be good to her Mae^{ty} or to whome your Lordp^s shall in your Judgment think most proper./

My Lords./

My last General Letters were by Captain Riddell in Her Ma^{ty}s Ship the Falmouth, who being well Arrived, I hope your Lordships had the past Years papers and Accounts to your Lordships Satisfaction, This comes by Cap^t Teate in the Reserve, who brings home y^e Mast Fleet and other Ships from these Provinces, and in your Lordships Packetts now humbly presented there are in the files, the Acts of the Assembly's of both Provinces, Minutes of Council of each Province distinct, Continuation of the Revenue, & Taxes Granted to Her Majesty for the Support of the present War, which is this Year grown to a very great Sum, The last Years Expencc Amounted to Thirty Thousand pounds for the Ordinary Service by Sea & Land in the Defence of y^e Province and the Thousand Musquetiers that In Obedience to her Ma^{ty}s Commands were rayed in the s^d Provinces wth Transports & Provisions for them Amounts to Another Thirty Thousand pounds, of which I must yet humbly Acquaint your Lordships, Her Ma^{ty}s good Subjects have not been Impatient, but readily Granted the payment thereof to the Officers, and Souldiers & Saylor's wth all chearfulness, in hopes Her Majesty, if the War Continue, will please to revive that

Exped^{con} in the Spring, there being no manner of doubt, wth the favour and blessing of Almighty God upon Her Ma^{ty}s Armes, of the Reduction of Canada & Nova Scotia to Her Majesty's Obedience, and all the Trade of Naval Stores, enough for all Europe, will be intirely in Her Ma^{ty}s Disposition, & if a peace should Intervene It is humbly prayed that Her Majesty will Insist upon the rendition of Quebeck, Port Royal & y^e Dependency's. The Standing in Armes of ab^t. Three Thousand Men in all these Northern Provinces during the whole Summer, & the march of the One halfe of them to a place called Wood Creek (One hundred Miles distant from Albany) the head of the French Waters passing down to Mont Real, and ab^t halfe way thither from Albany, where they rayseed a Fortification and dwelt four months, So amused the French that they have Stood in their Armes all Summer, and not Suffered any Party's of their own, or the Indians to march upon the Frontiers, as in all times past, So that I am got into the Winter, which is my time to Visit them, if to be found, and my Snow Shoes are ready to March upon every Intelligence of their motion to their hunting ground, about Two hundred Miles distant from this place, where thó we do not alway's Meet them, yet they See our Tracks and are sensible So much of their Danger, that in August last Fifty Family's of the Eastern Rebels, who have been perswaded by the French to forsake their Allegiance to the Queen marched from Penobscott in the East, to the Maqua's Country, which must needs be Six or Seven hundred Miles, and in the presence of some Gentlemen from Albany, Acquainted the Maquas that they had been drawn into the War by the French Missionary's, That M^r. Voudrenil the Govern^r. of Quebeck promis'd to support them, & march halfe french wth them, in their Expeditions, but instead thereof he had Neglected them, and they were all driven from their Country these Seven Years past by the New Englanders, and

had not gotten One bushel of Corne in all that time, and were now come to dwell under the Maqua's feet however the Maqua's told them they were Rebels, and had Murthered their brethren of New England, and they would not receive them, and forced them to proceed to the Sinekars the furthest of the Five Nations, where they are Setled, and I hope I shall not have any further Trouble wth them, so far as their Number will go, Because the Sinekar's will be their Masters, and while the Five Nation's Maintain their Friendship with us; we must be safe of them, but there is Danger of the whole Body of the Maqua's least they desert us, upon the faylure of this Years Expedition, they are an Eager, Jealous, false People, and are very hardly steadyed in their dependance upon New York, the French Missionary's are so constantly amongst them.

I hope Col^o Nicholson and Cap^t Moody are Arrived long before this date, who came hither Voluntiers in Her Ma^{ty}s Service for the Exped^{con} to Canada, and who I am well Assured will justly represent the readiness and Obedience of these Provinces to Her Ma^{ty}s commands for the Expedition to Canada, and humbly to represent the great cost of that preparation, and to pray Her Majesty's most Gracious Consideration and Assistance in the past charges as well as the further proceeding in that Expedition, for the removal of the French Colony's of Quebeck & Nova Scotia without which it will be Impossible for us to proceed either in our Trade at Sea or our Inland Settlements, which the Industrious people of these Provinces are very Capable of, and ready to proceed in to the Advantage of Great Britain, as well as the quiet & Repose of the Inhabitants here.

I have since my last Letters by Cap^t Riddel, The honour of Three of Your Lordships Letters, — the first is dated the 12th of January 1708/9, the first Clause whereof refers to Naval Stores of Tarr & and particularly Masts, and the Security of Her Majesty's Rights therein.

I most humbly Acknowledge your Lordship's favour to me in Acceptance of my Service therein, I shall continue it wth utmost Diligence, as your Lordships Sees in the New Hampshire Act referring to the paym^t of Tarr into the Treasury in all publick Taxes sent home wth Cap^t Riddell, and the other Law in the same Province, putting the Penalty of One hundred pounds for any breach upon y^e Dimensions of Mast Trees, I have not yet made any further process in the Assembly of the Massachusetts to Obtayn it to be Enacted there, because at the same time that I represented that matter to your Lordship's, I also gave my Lord Sunderland Account thereof, as was my Duty, and his Lordship in his Answer, of ye fourth of August 1709. After his very favourable Acceptance of my Service to Her Majesty, in the business of Naval Stores, seems to be of opinion that I had better have Omitted the Offer to the Assembly of the Massachusetts, and let it have rested upon the provision in the Charter, as being sufficient Agreeable wth what your Lordship's have written which I humbly Confess I had better have done, If I had Expected the least doubt or delay in the Assembly's Obedience to the very Words of the Charter, which I keep strictly unto for fear of any demur, but my reasons why I Offered it, I shall humbly Submit to your Lordship's Censure, and do therein further as your Lordship's shall Command me; Upon an action and presentment of a Trespass by M^r Bridger her Ma^{ty}s Surveyor brought against certain Tresspassers, the Party's pleaded that there was no Law of the Province Enacted and published whereby they were made breachers, and secondly That M^r Surveyour was not in Law the prosecutor so Established and declared, both which Exceptions, thó there be Nothing in Law, of Weight in them, prevailed wth the Court, and therefore I thought to Obviate & remove them by this Act which was also M^r Bridgers Earnest desire, that he might proceed with

the less difficulty, I humbly refer the matter to your Lordships Consideration, and shall do therein as your Lordships command.

The business of Councillours for New Hampshire Mentioned in that Letter, Labours still, I have but Seven in that List, two of them near Four Score, and Waldron Hilton and Smith, have not yet taken out their Warrants, if M^r: George Vaughan who lately Attended your Lordships, and George Jaffrye's were admitted, or all five of them, it would be a service to the Province, they are men of the best Estate and Loyalty, in the Province, and without some of them, in Case of the death of M^r: Coffin & M^r: Ware of the great Age I mentioned above, I shall with difficulty Get a Quorum of the Council for y^e necessary Service of the Province.

The Act referring to a Duty upon Negroes Imported, is a Clause in an Act Entituled, An Act, to prevent a Spurious Issue, brought in upon several complaints that several Negroes had lain wth White Women, and has been since Transmitted in 1706, by Cap^t: Matthews & in the year 1707 by Cap. Stuely and M^r: Secretary Pople Acknowledges the receipt thereof in his Letters on file, and th^o the reason that I formerly Assigned of Negroes running from us, Seems to be equal wth Carolina & other Colony's, the force of it continues because they will alway's run to the Southward for warme Weather, and as the cold is disagreeable to them, so it demands of y^e Master much more Cloathing, and Gives him much less Service for Six Month's in the year.

Your Lordship's next Letter is of the Eleventh of Feb^ry 1708/9 referring to Her Mat^{ys} bounty in the Supply of Ordnance & Stores for y^e Province of New Hampshire w^{ch} are all since well arrived & disposed by a Committee, Major Vaughan of Her Majesty's Council, M^r: Penhallow Treasurer & Comissary General and Cap^t: Flunkins Speaker of the Assembly, The Ordnance in the Fort, and the powder in

Two places for fear of Danger, and Inclosed is their Account & Receipt, as well as Copy of my Orders thereabout, which is the best posture I am capable to Dispose them into, and I hope will be to your Lordships Satisfaction as well as to the Board of Ordnance, to whom I have Covered the same papers & Accounts of Expence downe to the 24th of June last, as I am Commanded.

Your Lordships last Letter in of the 28th of March 1709, referring to the further Encouragem^t of the Production of Naval Stores, and to have consultation thereupon, in Obedience whereunto, I have had several Meetings of the principal Merchants and Traders in those Commodities, and Inclosed in what they have humbly to propose.

I shall not fayle to Use all possible Endeavours to better those Commodity's & Enecrease the Trade of them, but while the War lasts, it will not rise so fast, the Tarr burners are fore't to straggle in y^e Woods, & are often in Danger of the Enemy where they work, as well as that they are necessarily taken off from their Labour into the Service of the War, to guard the Frontiers, and this Year Especially to that Degree, that every Fifth man in the Province was Obligated to serve, there being Two Thousand men of this Province in Armes, and our Lists of the whole in Ordinary make but Ten Thousand.

I hope M^r Bridger doe's me right to acquaint Your Lordships that in all his Visitations of y^e Woods he has as often as he Desires, Guards of Musquetiers & Troopers to Secure him (as I have Myselfe) & Warrants to all Sheriffs, Constables &c. to Assist him in Seizing and Discovering any Trespass, & Securing the Trespassers there is yet some Misunderstanding between him and M^r Collins Agents, whose Warrants to provide Masts for her Ma^{ty}s Service are come to hand, but there is yet, but One Ship of Three Arrived to take up the Masts, which if kept too long in the posture they

are here in, will suffer damage, how the Delay of the Ship's happens, we have here no Account, unless that they are otherwise Diverted, and if so, other Ships Must be gotten least y^e Masts be hurt by the Indians, or suffer wth being undrest, or by lying part in and part out of y^e Water, I am Semsible the bringing home of Masts at this time is a great Service to Her Majesty, and therefore have thought it my Duty to Cover the Labourers in the Woods, wth good Guards, these seven Years past, without which they must have been left to the Enemy, every day they Used an Ax in the Woods, and I should be sorry after all that Labour, any of them should be lost.

I am Informed there is before Her Majesty, I suppose at your Lordship's Board a Complaint from the Government of Connecticut referring to the Line parting the Two Provinces, The General Assembly here, have Earnestly desired that they may be heard thereupon and doubt not to Sett that matter in a true Light to Her Ma^{ty's} Satisfaction, The Question is Seventy Year old, and nothing new since my Arrival, nor am I any otherwise concerned in it then to know her Ma^{ty's} pleasure & See it Obeyed.

I shall Trouble Your Lordship's but wth One Short Article or Two more, the first is referring to the Supply of her Ma^{ty's} Ships of War with men, which notwithstanding the late Act of Parliam^t forbiding the Takeing of any men, out of Privateers or Ship's Tradeing in the Plantations, and notwithstanding the heavy War upon the s^d Provinces by the French & Indians, as well upon the Frontiers Inland, as upon the Coast by Sea, which the last Year Employed So many; Her Majesty's Commanders of the Men of War, particularly Cap^t Teate now returning thinks himself hardly dealt with, that he has no Men Supplied to him from hence, which is Impossible for me to do, – Unless I take the Planters from the Plough, or Trades men from their Stalls, Notwithstand-

ing I have allowed him to beat up his Drums for Volunteers, and Encouraged him to See his Fleet well man'd, and to borrow in case of Necessity, a man or Two out of each Ship, it being for their own Defence and to restore them again at his first port in Great Britain which is all that is in my power, since the Act of Parliam^t has otherwise provided for his Supply.

I should be wanting to my Duty, if I should not here Subjoine that Cap^t Teate for Three Years last past, has behaved himselfe with all Diligence, and to my Satisfaction in his Attendance upon the Coast.

The other Article is referring, to One Thousand small Armes that her Majesty of her great bounty & favour sent hither for the Expedition to Canada, & wth which One Thousand Effective men were Armed for that Service, and are now taken and Secured by the Officers, that they may if that Service do not proceed, be taken in, and kept at Her Majesty's Castle of this place, for the defence of the Province in any future Expedition, which will be a great Strengthening of the Country, & always ready for y^e Service, and if otherwise Absolutely given to the Souldiers, as by Some is Expected, will be soon lost or disposed, beyond any power of the Governm^t to bring them into the Service again. I humbly Submit this Article to your Lordships Consideration, to Move Her Majesty therein, if it be Agreeble to Your Lordship's better Judgement therein

My Lords, In the defence of this country these seven Years past, I have done the Utmost, to defend the Province, and have had good Success therein, and have Endeavoured to put forward the rayseing of Naval Stores, and in this last Summer, have had my Quota of men Superiour to any Her Ma^{ty}s Governm^t my neighbours, and shall not faile, if I may have Her Ma^{ty}s commands for the Revival of that Expedition, and I humbly pray that my Service may be Acceptable

to your Lordships, and that Your Lordships will please to represent me well to Her Majesty.

I am

My Lord's

Your Lordships

Most obedient humble Servant

May it please y^r Excellency

This day Lev^t Bean returnd wth y^r Excellency's letter, I am heartily sorry y^t my inadvertency should occasion y^e delay of y^r Excellencys designs & prove hurtfull in any measure to y^e intended service.

The inclosed letters came wth y^e other from Lev^t Littlefield w^{ch} I confess I ought before to have given advice of, & must beg y^r Excellency's pardon for my neglect in y^t Matter. Yet withall (being greatly astonished wth advice I have now from Boston as if I w^r suspected of ill designs in concealing y^e inclosed letter to Barber, v^t a private trade wth y^m) I do solemnly protest to y^r Excellency (& before God I be not) y^t my design was

only to prevent its coming into y^e hands of private persons who might send them supply's wth out y^r Excellency's Knowledge; & y^t I have never designed any such thing, or so much as entertained a thought of it, as well knowing how displeasing it would be to y^r Excellency, & injurious to my country, in whose Service I have ever indeavoured to be faithfull, & hope, if by providence I w^r called to it, I should not account my life dear. I have now sent y^r Excellency y^e whole truth of all y^t I know. No indians have appeared since Le^t Bean left us, but I p^sume are yet in y^e Bay or places adjacent one of y^r Cannoes being discovoured near Jewells Island by a Fisherman y^t came in here about Eight days since. I have now your second letter enclosing two other from Levtenant Litlefeild, that, to you is of no Importance, the

other to Barbar, referring to provisions and Goods to be sent to Sagadahock &c, I always pitty a prisoner in Indian hands, especially when their Masters are Indigent, & in Necessity of Every thing, but no Circumstance of that nature has yet altered my resolution, (never to buy a prisoner of an Indian) least we make a market for our poor weomēn & children in the frontiers.

The business of seeing them at Sagadahock (being Entangled with that Expectation of a Trade with Barbar) is perfectly over and will admitt of no further Consideration.

if they were in Earnest to release Litlefeild or hope for any thing from mee, they will Come again, & then you will Exactly follow your orders of the fourth of february to Insist upon the delivery of Litlefeild, & to tell you their Errand to mee, & they shall have my answer in twenty dayes & for the future whatever happens, never do, nor send, nor say anything but what you have my orders for, & never hide any thing thô it seem to be of the Least Importance, let mee alwayes know it, you may treat them civilly to get some knowledge of their affayrs, but keep your superiority, & distance as serving this Government & Express to mee as often as any thing occurs.

Boston, February ult. 1709/10

His Excellency has this day communicated in Council, Your Letter to himselfe accompanying those from the Magistrates of Albany, with the Copy of a Letter from M^r Vaudreuil Directed to Col^l Peter Schuyler, by the hand of his Messengers there attending from Mont Real on pretence of Negotiating an Exchange of Dutch Prisoners &c one Armes of Deerfield brought thither with them, for some French Prisoners at New Yorke, & Beuvenire taken at Haverhill and Le-ffeur, two of theirs in our hand, the latter propos'd to be Exchang'd for Armes with a great Demand upon him for his redemption out of the hands of the Indians :

It's no hard thing to penetrate into their Intreague, The Designe being to conciliate a new friendship, and Neutrality with the Albanians as they have lately had; to gain Intelligence of the motions and preparations of the English; and leave this and other Her Maj^{ty}s Colony's to take care for themselves.~

M^r Vaudreuil takes no Notice of his Excellency, Neglects to write to him, thinking to Obtain his Prisoners from hence by the Interposition of the Gentⁿ of Albany, well knowing how false he has been and Violated his promises made once and again to return all the English Prisoners, and that long since, upon which all the French Prisoners on his side were sent home by way of Port-Royall; Knowing also his Ex^{cy}s Resolution never to Set up an Algier Trade to purchase the Prisoners out of his hands, and Direction not to have them sent to Albany, but to have them brought in a Vessell by water from Canada, or down Kennebeck River to Casco Bay or Piscataqua. In which Resolution he continues, and it is

agreeable to the mind of the Council.~ So that Armes must go back with the Messengers, unless he can otherwise Obtain his Liberty; you will further Examin him particularly referring to the State of Quebeck and Mont-Real, how they are as to Provisions and Clothing; what Store Ships arrived there the last Summer and other Shipping, and what are there now? what new Fortifications they rays'd in the Summer past, and where?

And by the next Post from Albany you must send for Beuvenire from thence, and write to the Mayor and Magistrates to adjust the Accompt of the Demand for his Keeping; which as is Intimat^d is very Extravagant beyond what is usually allowed for Prisoners and Let draw upon the Governm^t here paym^t and it shall be done.

In case the Hunting Mohawks attend you It's thought Advisable that Major Stoddard joyne a Serj^t & Six Centinels of his best hunters wth them, who will take care to Observe them, and they will be a good out scout, for w^{ch} you have his Ex^{cy}s Letter & Order wth this.~

You may Adjust the Post, as is propos'd from Albany If the Service will be as well performed, & the Charge of the Province be thereby Eas'd, but the Albanians must not think to make a purse from us, and to Exact more than it would be done for by our own people. It being much better that they have y^e Advantage of what must be Necessarily Expended~

This by the Ord^r of his Ex^{cy} with the advice of the Council from

S^r

Yo^r Very humble Servant

The Lett^r to M^r Vaudreuil must be sent to Albany by y^e Post. & forwarded from thence by an Indⁿ wth out Charge or otherwise by y^e french Messengers there, now Attending.~

“ Boston 25th May 1709

Gentlemen

There are more than Thirty Years past wherein this Province & our Neighbours have been Troubled wth the Incursions of y^e Indians Supported by the French to the great hindrance of our Settlem^t: both of Plantations & Trade, dureing w^{ch} time we have been Oppressed wth great Losses and Greater Taxes, for the Support of our Frontiers, and have been alway's sensible That thô We have well defended ourselves, and these last Seven Years, better than in former times, when we have been forced to draw in our Out Plantations, We have yet had no view of the End of our Troubles, while our own Indian Rebels, as well as the other Tribes of Indians Dependants & Confederates to the French at Quebeck & Montreal, have been Supported & Animated by the Constant Supply's from them, in all w^{ch} time we have Earnestly desired and lately humbly Addressed her Majesty ffor such a strength of shipping & Land forces to be sent hither, that might destroy those Nests of Robbers, and put us into a Capacity to be masters of the Indians depending upon them.

And I am now to Acquaint you That her most Sacred Majesty out of her Royal Regard & Compassion to her good Subjects has Resolved to Send Such a superiour fforce of shipping, as well as Land forces, as with y^e Addition from us, & all her Ma^{ty}s Governm^{ts} our Neighbours by y^e Blessing of Almighty God, will be well able to Reduce those Colony's of y^e French to the Obedience of the Crown of Great Britain, who if this Opportunity be lost will insensibly grow in Numbers & Strength to y^e Greater Annoyance of these Colony's.”

“ It is plain to every Considering man that while there is a French Nation in Europe so bigoted to the Romish Religion & so set upon perfidy and Destruction of all protestants,

that have dependant Colony's in our Neighbourhood, we shall have no rest or Ease, as plain that if they are removed y^e Indians must inevitably become Vassals & Servants to us, having no possible means to be supplied wth Arms or Ammunition but from our selves, which must certainly Encourage us to do our Duty and put forward to the Utmost that her Ma^{ty}s Royal favour towards us, and great Expence in this Expedition be supported & Assisted by us to the Utmost of our Ability, & the Ease and profit and Establishm^t of these Provinces will a Thousand fold repay us."/~

On Weddensday y^e 12th Currant seven Indians came to y^e Fort with a flagg of truce, pretending they have News to tell, & seem very desireous of peace, & Liberty to return to y^r old quarters in Casco Bay.

Lev^t Bean suspected y^m of some ill design (having been lately fired upon by Some fishermen somewhere ab^t Penobscut, w^{ch} I gaue y^r Excellency An Acc^t of from Piscataqua) & would not speak wth them himself; but sent a Serg^t to tell y^m y^t here was no body to discourse them, but y^t I was Expected every Hour, & they might have liberty to come Again, upon w^{ch} they went Away, promising to return in four days & deliver y^r Message to Mee. In Answer to our repeated humble Addresses to Her Majesty Her Majestys Shippes of war forces & Stores by the Good Providence of Almighty God, are hapily arrived for our reliefe against the common Enemy in our Neighborhood. I have No Doubt of your ready & Chearfull Obedience to Her Maj^{ty}s Commands for our Quota of the forces Transports, & other necessary provisions for the Service.”

*Letter from Capt Samuel Moodey to Gov^r Joseph Dudley,
July 20th 1710.*

Casco 20th July 1710.

May it please y^r Excellency

I gave y^r Excellency an Acc^t in my last p Serg^t Hilton of y^e Indians being here y^e day before my Arrival & y^e treatm^t they met withal. Yesterday y^e 19th Instant A great number of them appear'd (I suppose near 50) who, they said, came from all quarters, Pigwockett, & Penobsent as well as Kennebeck— They pretended much sorrow for y^e mischeif y^e Indians had done upon y^e frontiers, w^{ch} they had warn'd us of in y^e Spring, & promised to give advice of y^r Motions & designs from time to time: & withal complain'd of y^e Fishermens unfair treatment of them under a flagg of truce, & gave us y^e Same Relation of y^e Matter w^{ch} y^r Excellency had from Piscataqua.

M^r Littlefields Master was y^e man y^t came to us, & told Lev^t Bean The ffrench were very Angry with them for bringing Littlefield to our Fort, & haveing now no Co^merce

wth them, were come for a Supply from y^e English According to y^r Excellency's promise in y^r Letter sent M^r Littlefield y^t they might freely come hither at Any time & be civilly treated.

They have heard by some Captives y^t 4 of Maquas were gone to England & were much concern'd to know whether they w^r returnd, & w^t y^e Issue of y^t matter was, to w^{ch} I made them little or no Answer—

They plead as formerly, y^r desire of Lying still if they could have a Supply, Otherwise they could not live, but must return to y^e French, & seem'd much disgusted y^t no more notice was taken of y^m; p^ticularly Littlef^ds master, who thought he deserv^d a reward for his pains in going round y^e country to bring y^e Indians hither. I reply'd to y^m y^t they had no reason to complain of their treatment here: and as to trade & supplying them wth Provision (w^{ch} they earnestly begg'd for) I would forthwith send to know your Excellency's pleasure & they might expect An Answer in ten or fifteen dayes.—

I p^sume they are very needy, yet dont seem to abate Any thing of y^r lofty imperious temper, & act as if they hop'd for a Compliance wth y^r Excellency upon y^r own Terms. I would humbly pray y^r Excellency's Answer & p^ticular directions in my Farther treatm^t of them.

Co^{ll} Walton return'd yesterday to us with y^e Forces, from whom y^r Exc^y will have a full acc^t of y^e Expedition. I psume He may have done his Utmost to surprize the Enemy, Along the Eastern shore as y^e season of Year & craziness of y^e Whaleboats would allow. I have shown him y^r Exc^{ys} Order for y^e Exchangeing y^e Men y^t have been long here in y^e service, for whom I would humbly intreat y^r Exc^{ys} Favour y^t they may be wholly dismiss (haveing been more than four Years in the Garrison here & many of them altogether Unfit for y^e service. Our Garrison hath lately been visited with A malignant fever, with wch ten men at once have kept their beds in Co^{ll} Waltons absence for near three weeks & two have died, besides One in y^e Winter w^{ch} I gave Y^r Exc^y an Acco^t of. I should account it a Special fav^r if y^r Exc^y would please to Allow me my Usual complement in y^e winter, of sixty men besides officers, now y^t y^e Summer is Advancing, when we may expect the Enemy will be often Visiting of us. I desired y^r Exc^{ys} direction in my last ab^t y^e Exchange of the prisoners, whether I might give them part of theirs for an Equal number of ours, or stay for their bringing all. The Squaw is desireous once more to go into y^e Country to look for them; whether it be y^r Exc^{ys} pleasure y^t I should send her Alone after y^e drawing off y^e forces, or

wait for their coming in, I should gladly know p this Conveyance. I shall indeav^r carefully to comply y^r Ex^{cs}s direction in y^t affair & all others committed to my Trust.

Petition of Lewis Bane, Coroner. June 2, 1711.

To His Excellency Joseph Dudley, Esq^r

Captain Generall & Governour in chief of Her Majesty's Province of the Massachusetts Bay &c^a & to the Hon^{ble} Council and Representatives in Generall Court Assembled

The Petition of Lewis Bane Coroner of the County of York.
Humbly Sheweth

That Your Petitioner in January last being Called to Attend the Duty of his Said Office upon a Corps, found upon the Beach in the Town of Wells opposite to Boon Island, reasonably Suppos'd that a Wreck, had happened upon the s^d Island, & thereupon Ordered a Shallop with a Suitable number of men to go off to the said Island where they found Ten men in the utmost distresse whom they happily releived,

But when the Shallop return'd ashoar, a vehement Storm arose, which brake her to pieces that she is wholly lost. The Owner thereof applies himself earnestly to your Petitioner for Pay, for the same, which your Petitioner humbly supposes not just or reasonable that he should give it and as little reasonable that the owner Should bear the Losse.

Your Petitioner therefore humbly Prays Y^r Excellency & this Hon^{ble} Court to Order the Payment of the value of the s^d Shallop (which is hereunto annex'd) out of the publick Treasury, or in such other method, as in your wisdom shall be thought fit.

And y^r Petition^r as in Duty bound shall ever Pray &c.

The Petition of Lewis Bane Representative of the Town
of York.

Humbly Sheweth

That this Honour^d Court, has for diverse years past
had a compassionate Regard to the s^d Town & in consid-
eration of their Impoverishment by the War Abated their
Taxes & afforded them Assistance towards the Mainte-

Assured their reverend Minister M^r Moodey (whose great
worth is well known to this Hon^d Assembly) will not
have due support from the s^d Town in it's low circum-

maintenance being raised by Contribution, he ever refusing

Letter from Capt. Sam^l Moodey to Gov. Dudley

Jan. 3. 1712

Casco 3 Jan^{ry} 1711.

May it please y^r Ex^{cy}

We have this week been visited by all y^e Kennebeck Indians who lay two nights within musket shot of our Garrison very peaceably. They express a great deal of joy & Satisfaction at y^e news of peace w^{ch} I have inform'd them of; I have withal intimated to them y^t they could not reasonably expect to have y^e Benefit of it when perfected, (The peace with them haueing been made a considerable time after y^e War began between y^e two Kingdoms, when they declared themselves y^e Queen of Englands subj^{ts}) unless they would give some satisfaction for their perfidious breach of y^e last treatys with them, & good assurance for their peaceable behaviour for y^e time to come.

And when I only propos'd this Question to y^e Sagamores, What have you to do with this peace? & what if our Govern^r should Say you shall have no peace, what course would you take? where would you have your supply?

They were confounded & answered not a word, only y^t y^e French had deceivd & drawn them in & they now Saw their

Folly & intimated their willingness to comply with Anything y^r Ex^{cy} should offer to them.

At length I hinted to them by Lev^t Bean y^t I might possibly be their Friend & speak Something for them, which they greedily catchd at & nothing would serve their turn but I must make some propositions for them. I told them I could propose nothing, haveing no direction to say further.

They then urg'd my comeing to Boston to acquaint y^r Ex^{cy} with what they Said; I reply'd y^t I was but just returnd to my Post, however if need were I could possibly obtain y^r Ex^{cy} leave for my going off when the winter was broke up—I am satisfied they are reduc'd to y^e last extremity for want of provision; I have been Oblidged to feed their whole company of men Women & children for several days & could not get rid of them, They pleaded y^r Exc^y had sent for them, & they had nothing of their own to live upon.

I have sent Lev^t Bean who will be able to give y^r Ex^{cy} a more perticular Acco^t of our treaty, by whom I should gladly receive your Exc^ys farther Instructions referring to y^t Affair

*Letter from Capt. Samuel Moodey to Gov. Dudley
Jan^y 6, 1712.*

May it please y^r Ex^{cy}

While Lev^t Bean was detain'd here some days by badness of weather, The Indians have made us several Visits. In my discourse with them to day, some mention was made of a letter I sent to y^r Ex^{cy} by Lev^t Moses wherein they call'd y^e French Govern^r their Father & intimated their waiting for Mons^r de Vaudreuil his thoughts referring to y^e peace;

I told them plainly if they expected & depended on his Determination of the Matter y^r Ex^{cy} would have no more to say to them; & y^t they who had so often Submitted to the English Governm^t might never Expect to be treated as Subj^{ts} to y^e French. They were greatly Surpriz'd & said they were wholly ignorant of what their Minister had written & y^t Mons^r de Vaudreuil had nothing to do with them & y^t they had little reason to hearken to those who had drawn them into such a snare by persuading them to break their Covenants with us; & protested (haveing been taught by long & sad Experience their Own Folly) they would wholly renounce the French Interest, if y^r Excell^{cy} would receive them into Favour once more –

Lev^t Bean can more fully declare y^e matter to your Ex^{cy} how much they Seem'd concern'd y^t the French should imagine to bring them into subjection at such a rate; & further Said y^e French were much afraid they should come over to us. They Again earnestly desire y^r Ex^{cy} would send some proposalls to them in order to a firm & lasting Peace. Severall other Matters pticularly referring to y^e State of our Fort I have desired Lev^t Bean to Acquaint y^r Ex^{cy} withal, concerning which would humbly pray y^r Ex^{cy}s Direction.

I have your two letters by Le^t Bean and therein observe well enô the Indians desire of being in friendship with us for

their own supply & benefit, but with the adviee and Consent of the Council & assembly do Peremptorily Insist upon it that I will not see them nor speak further without first they deliver at your fort all the English prisoners in any of their hands either with them or any Indians at panobscot passamaquody or elsewhere within their reach, & you may let them know that I have sixteen principal Indians of Cape Sables in my hands whom I am inclined to send to their own Country & set them at liberty but that I will not Give nor take any redemption for prisoners, which is inconsistent with a peace, upon which all the world over all prisoners whatsoever are always freely set at liberty.

& you must offer them with that Condition to write for them to Mee that they may see Mee at piscataq, & Assure them I shall treat them with all kindness upon their submission as they know I have done when I saw them Last let them have by your Interpreters the repeated knowledge of what I Instructed you at your going hencee and by My last letter & this & that I shall humbly submit all that I say & do to her Majesty for her Most Gracious & royal Comands in Every thing referring to them.

You must Industriously & skillfully pass through these Conferences with them & keep all in writing that you do & say & if you write to me for them you Must Make them signe it.

You may assure them that all the negotiation of peace in Europe as well as here is at the Instancee of the french king & that all the Articles are in favour of the English Interest Everywhere, if they conceed to you that they will send & fetch the prisoners from penobscot you may go on to write for them to Mee their Submission & what they pray for.

& let it be their own motion if you can bring it to pass that they give their principal Children as hostages to us, that some English men may be desired by them to dwell

amongst them to be witnesses of their good behaviour towards our people & that thereupon they may be further Encouraged. as I would have you let them know that I shall be willing to see them as above, so I will appoynt the time & place & Number that shall attend Mee which must not be more than 5 or 6 sachems as Many servants and four at Least of their principall Children for Hostages

*Letter of Instructions from Gov. Dudley to Capt. Samuel
Moodey, Nov. 12, 1712.*

Boston 12 Nov^r 1712

The next visit the Indians make you at the fort receive them friendly & acquaint them that in order to a firm & lasting

peace between the Queen of Great Britayn & the french king there is a cessation of arms Concluded for four months to give the Necessary time to make it perfect & that the governments of the french & English are comanded not to Hurt each other till they shall hear the Issue & be furthur Directed & that if the Sachems Will Come to you you have something to say to them & to acquaint them with what is aboves^d

& when the sachems shall attend you acquaint them accordingly with what is above and that you are well assured & Certayn of the peace to follow Imediately & that nothing but the winter time can hinder our knowing of it from home.

That the french King has shewed to the world how much Inferiour his armies are to the English by surrendring so many places & fortifications & Towns to the Queen & her Confederates.

That they now see plainly the Mischeif they have brought upon themselves In breaking their Covenant & leaving their dependence upon the English & going over to the french Interest who have now for ever lost placentia, St. Peters, Port royal & all the bay of fundee & acknowledged all those countrys to belong to the Queen of Great Britayn So that they have no french country or people to depend upon Except Quebeck for trade or supply.

That if they have any thing to say to the Governour referring to their good behaviour for the future towards the Qveen of Englands subjects they must acquaint you & you will let The Governour know what it is.

& afterwards in your discourse as from your self you may tell them it will be Very hard to persuade the Governour to believe them to be good after the breach of two sollemn Treatyes in the years 1702 and 1703, and that they must give very good assurances but you have not further to say being not Instructed but that you will be their freind &

speak to the Governour for them & get his answer to what they shall propound as fast as the winter will allow

Monsieur

Le gouverneur general du Canada me mande par sa lettre qui m'a été apportée depuis quelques jours, que le dernier vaisseau du Roi arrivé a Quebec le 30 Sept. rapporte que la paix n'est par encore conclue entre les deux couronnes de France & d'Angleterre quoi qu'il est vrai qu'on en parle fort. Voila ce qu'il m'en dit.

Et d'autres lettres que j'ai reçues m'apprennent que Monsieur L' Intendant qui est arrivé dans ce vaisseau, dit qu' étant sur le point de s'embarquer à la Rochelle on y reçu une lettre de Monsieur de Tallard, qui assuroit que la paix étoit faite, & qu'elle seroit publiée sur la fin d'Octobre.

Or on ne le peut pas sçavoir en Canada, mais on le peut sçavoir à Boston où les vaisseau peuvent arriver en toute saison, si vous en sçavez quelque chose, je vous prie de me le faire sçavoir, afinq' j'envoie incessamment à Quebec sur les glaces, pour en informer le gouverneur general pour qu'il empêche les sauvages de faire aucun acte d'hostilité Je suis tres parfaitement

A Monsieur

Monsieur Moody

Capitaine & gouverneur

du fort &c.

Boston. N. England. Decemb^r. 2^d 1712/

My Lords

Captain Rouse in her Majestyes Ship the Saphire, brought my Last Letters to Your Lordships Dated 29th Octob^r last past, wherein I gave your Lordships Account of the Articlees in Your Lordships Letters of the first of Febr^y 1711/12 Referring to the Stores of Warr, Small Armes, Left here of the Late Expedition, which are well Disposed and Secure^d as now in the Accounts sent Home— and Referring to the Difference between this Government, and Conecticut, & Road Island Colonyes; Referring to the Division Line which I hope are well arriv^d, and I shall attend your Lordships further Commands therein-

This Comes by the Chester who brings home the Mas^t Ships, and other Merchant Ships that are Ready; and in your Lordships Packets, are the whole years papers, Minutes of Councill Acts of the Assemblies of both the Provinces, State of the Castle, & forts Amunition and Stores of Warr, and other Papers which I hope will be to your Lordships Satisfaction ~

About a month Since by Letters from St^t Nicholas Trevanion, then at Newfoundland and a few Dayes After, by Letters from my Lord Dartmouth, brought by Captain Graves in her Majestyes Shipp the Dunnige, I Receiv^d the Happy Account of the Cessation of Armes, which I presently made publiq, being attended therein by the Gentlemen of

Her Majestyes Councill, and Representatives of the Assembly, and the Foot Regiment of the Town of Boston, with all Demonstrations of Satisfaction in her Majestyes good Subjects, in hopes of an Established peace, upon the Artieles in Her Majestyes Speech Referring there unto, A Cobby of the Cessation of Armes I have sent Over Land to M^r Vodreil the Governour of Canada, by some French Prisoners which I sent to him Last week, which I suppose will stop any Further March of any Partyes of the Enemy on that Side, and I believe the peace, when it arrives will be as welcome to him, as to her Majestyes Good Subjects in these provinces ~

There will Remayn a Difficulty in the Obtaining One of his Hands, and the French Indians Depending upon him our many Prisoners, Men, Weomen, and Children, which he has Long Detain^d, Contrary to his many promises, and thrust severall of them into Nuneryes and Religious Houses, and many more Left in the barbarous Hands of the Indian, Some of them Gentlemens Daughters, to be made Heathen, and Wives to their Maquas. Notwithstanding Every Year I have Assured him that I have Returned to Canada, Placentia, and Martineco, and Into Europe all such Prisoners of the French Nation that have fallen into My Hands, either by Sea or Land, which have been to the Number of 500 & more, of this Redemption I Dispair unless by your Lordships Means, the french Kings orders to his Governours of that part do strictly Command it, and that some Gentlemen from hence, may be allow^d to go to Quebeck, Montreal and other parts in those Goverments to Search and find them out.

Another Difficulty will be how to Govern myself Referring to the Indians In the Bay of Fundee called Kenebecks, Panobscot, Norigwoek and other Settlements upon the English Grounds who have for these sixty years acknowledged their Dependance upon the Crown of great Britayn,

and Twice since I have come heither have Acknowledged their Dependence upon the Crown of Great Britayn & their Submission to it, but presently after the Warr broke out Committed barbarous murders and Burnt many Houses in Company with the French and their Dependant Indians, by the Instigation of The French Jesuits, and Priests alwayes Residing Amongst them, and at this time with them ~

These Indians are weary of the Warr, having Lost some Hundreds of their Number, and are not now left above three or four Hundred men, but we Can never be Assured of their fidelity, untill some English Settlements be Established in those Eastern parts to Govern them, and their Priests be Kept from them which will hardly be obtain^d unless the French Governours be Command^d Intirely to with draw them ~

In these Articles I pray your Lordships Consideration and that I may Receive her Majestyes Commands therein, It is a great mortification to all These Tribes of Indians, that they can have no more Assistance or Encouragement, from Newfoundland, placentia. Portroyall, Nor any its Dependences but must travel to Quebeck for all their Supplies, untill they are Restored to the English Friendship, which I am humbly of Opinion is best to be Done, both to Secure the Trade with them, as well as to take them of from their French Dependence, or gaining them to any future Assistance.

I humbly Submit the whole Affayr to your Lordships Direction and pray to have her Majestyes Commands, which I shall with all faithfullness persue as in my Duty in the mean time I shall bring them to as good a Quiet as I can, which they are already Enquiring after, at our Eastern Garisons next adjoyning to them ~

Your Lordships will please in the Accounts of Stores of Warr, to observe that the thousand Small Armes left here

of the Canada Expedition are divided One hundred to New Hampshire, half, in the Fort, and half in the Comissaryes Stores, and the other Nine hundred to this Province, One hundred at the Castle, Eight hundred in the Comissaryes Stores, some few of them were Lost in the Soldiers passage by Sea, in their going & Return, and Death of some of them, as is usuall in Such Cases, they are Disposed under the Care of the Comissaryes of Each Province, for the publiq Service, and will be Kept, clean, & Serviceable at all times, and shall be Disposed in an Armory, in the publique State House, which was Last Year burnt, but is again built in better form and will be soon finished. \

My Lords /

I am Your Lordships

Most faithfull

obedient humble Servant

Earl of Orford, &c

The humble Represent^t

of Thomas Coram.

Most humbly sheweth

That his Majesty has in North America between New England & Nova Scotia, bounded by the River Saga-

dehocke & S^t Croix, a large Tract of land now waste & uninhabited, capable of great Improvements, to the advantage of his Majesty's Kingdom.

That Tract of Land is well situated, having many safe harbours, and navigable Rivers, lyes in the Latitude of 44 to 47, being above an hundred Miles Square, abounding with Trees fit for Masts of all Sizes, & for the making of Pitch, Tar & Rozin in very great plenty, as well as 10^{ch} Oak for Planks Knees, & other Ship Timber in great Abundance; The Soil deep & fertile, very proper for hemp, & might in a few Years be made to supply his Majesty's Kingdoms with the Naval Stores &c^a, now precariously had at Arbitrary prizes from the Northern Kingdoms.

The Sea before this land, is commodious for Fishery, having many other Advantages for the Increase of Trade & Navigation.

The said Tract of Land was granted by King Charles the second to his Brother the Duke of York. Some Fishermen & others endeavour'd to settle themselves thereon, but they wanting the Countenance of Authority, as well as a Support from the Crown, did not well succeed, for that the French, who were then in possession of Nova Scotia, prompted the Native Indians to drive away or kill them, w^{ch} they effected, by reason the Settle^{ts} were begun in a disorderly manner, at too great a Distance from one another; To remedy w^{ch} King James the second built a Fort; At the Revolution the New England People possess'd themselves of it, but in the Year 1696 shamefully deliverd it up & yielded themselves Prisoners to two French Merchant Ships, who demolish'd it, since w^{ch} time none have attempted to settle upon that fine Land.

There are now a good Number of the disbanded Officers & Soldiers who having been bred up in the Wars from their Youths, have no Calling, or Trade to enable them

to subsist here, are extremely desirous to make a Settlement upon the said Land, w^{ch} they apprehend to be for the Service of their Country, as well as for y^e Good of themselves & their posterity; and do humbly hope his Majesty in his Royal Compassion will grant them the said Land, as also his Letters patent for a Brief, or otherwise enable them to raise Money to transport themselves & Families thither, & help support them there at first, till they can subsist themselves by raising Naval Stores, & by the Fishery; His Majesty reserving to himself & his heirs 5^s p Annum for ev^{ry} hundred acres w^{ch} shall be taken up by the Settlers & all those shall come after them, to be paid in Hemp & other Naval Stores fit for the Navy Royal, or in what manner his Majesty shall think fit.

The settling the said land with some of the Disbanded Soldiers, & others who cannot get Employment & Maintainance here, will make it the most useful Plantation of any to this Kingdom, and be a means of strengthening his Majesty's Empire in America, & a lasting Security to y^e neighbouring Plantations against y^e French & Frenchify'd Indians in those parts, & wou'd open a Way for the future, if Occasion shou'd be, to Quebeck, without the hazarding a Fleet in the River of S^t Lawrence, where the late Misfortune befel That under S^t Hovenden Walker; & wou'd also create a new Nursery of Seamen by continually bringing a certain Supply of Naval Stores from thence.

Which is most humbly submitted

(No Endorsement.)

Further Proposals from Mr. Coram and Others, to Earl of Orford &c.

According to your Lordships Order to lay before your Honours our Proposals for settling a Colony in the County of Cornwall in North America.

1st That near the Mouth of y^e River Sagadahock alias Kenebeck, the aforesaid Colony by the Title of S^t. George's shall build a Royal Town, & call it Augusta, with sufficient habitations for 500 small Families, w^{ch} shall be well enclosed in an Earth Wall & a Ditch well palisadoed which shall be capable of securing y^e whole Colony & give Encouragement both to Trade & Fishing.

2: This River having a large Course, bordered with some of the best Land in that part of America, well furnish'd wth good Trees for building of Ships & the best Masts now known in America, will easily furnish the Colony wth Timber for to build Vessils of all sorts for their use, & supply Masts for y^e Royal Navy of Great Britain.

3. The land being known to be a good & deep Soil, w^{ch} is proper for the planting of Hemp 'tis proposed that as this Colony is chiefly design'd for raising a Supply of Naval Stores, that as soon as the land can be clear'd from the Wood, w^{ch} in the destroying will produce Pitch & Tar &c: & all the land (that can be spar'd from the necessary Corn to be sown for their subsistence & convenient pasture) shall be kill'd & sown with Hemp, & the possessors shall pay to his Majesty 5^s p annum for ev'ry hundred acres they shall take up.

4. The persons proposing this Settlement are many of them Officers now supported by half pay, who think it will be an Advantage to the Publick to take off five hundred out pensioners now in the pay of Chelsea College, such as are recover'd of their Wounds, & may be capable of doing good

Service, being persons knowing y^e Discipline of War, under which they must continue for y^e first three Years till y^e Colony is settled & secur'd, & afterward do duty as Militia under such Regulation as his Majesty shall think fitt: But they do humbly beg to be incorporated without Subordination either to New England or Nova Scotia.

5. Whereas your Lordships demand an Estimate of the Charges of this Undertaking, We have made a Computation of the Charge of pay of one thousand Men wth Officers in proportion, building of Churches, erecting of Forts, &c^a amounting to sixty thousand pounds Ster: w^{ch} Estimate is herewith deliver'd; And they humbly conceive if the Coinage of the Copper upon half pence & Farthings (for w^{ch} some of them have mov'd) was applyd thereto, it wou'd be an Expedient, if not, they hope that some other Way might be found.

6. As for the Transportation of y^e Coloney over with their ffamilys, as also a sufficient Number of Artillery for y^e necessary Forts & Block houses w^{ch} are to be had out of his Majesty's Stores, as well as the Arms & Ammunition for the Men, with other necessary Utensils to raise the said Forts, your Lordps will also be pleased to have under your wise Consideration.

7. We also beg leave to let your Lordships know that when his Majesty & y^e Council referr'd this matter to your Honours, it was his Majesty's Pleasure to say, as we are well inform'd, that he had rather give the Coinage of the half-Pence & Farthings to So publick a Good than to any other matter whatever; and we further humbly pray your Honours to consider the Season of the Year; for We are all of the Opinion that if your Honours are pleas'd to favour Us in y^e Report to his Majesty & Council, that then We may happily get away in March or April, for We can be forthwith furnish'd wth Money on that Credit for the first Year.

Febry 10th 1714.

Right Hono^{ble}

The Officers & Soldiers requesting this Settlement, have desir'd us the Sunscribers on their behalf, to wait on your Lordships with their proposals, & to receive your Lo^{ps} Pleasure therein.

to Secretary Addington April 5, 1715.*

“The project so often mention’d in my former letters about settling our Eastern parts with disbanded Soldiers has bin once more reviv’d. The Lords Commissioners for Trade writ me a letter desiring me to attend their Board about it, & to bring with me the Principal New England Gentlemen that were in Town, & the Traders there, that it might be thoroughly debated, & they might hear every body’s opinion about it. I did so, & the cheif thing argu’d was Whether the land about Cape Sables, or that to the Eastward of Kennebeck River were the most convenient place to make the Settlement. It was agreed at last that the former had an Advantage in lying nearer to the fishery, besides that a fort there with a Town well inhabited would check the French at Cape Breton, & be a Security to the Countrey of Nova Scotia.

It was also agreed that the latter Scituation was better for Naval Stores, & was of importance otherwise, as it would cover His Majestys Provinces of Main & New Hampshire. In this manner it was left for their Lordship’s further consideration, since which they have taken no Step in it.

I had another letter from the Board of trade to know if I had any thing to offer as to the bounds which were to be settled between New England & the River of Canada, to which the Substance of my answer was, that I beleiv’d it would be necessary to appoint Commissioners to make the Line, unless it can be obtain’d of France that the British

Colonies shall extend to the borders of the River, which would be better.”

“I beg the favour of you that together with this letter you'll present my most humble duty & Service to the General Court.

I wish you health I am

To the R^t Hon^{ble} the Lords Commissioners for
Trade & Plantations.

Memorial relating to
New Hampshire Province in
New England.

May it please your Lord^{ps}

The province of New Hampshire is of very great Importance both for the Honour & Service of his Majesty & Good & Benefit of the whole Kingdom, being in some respects preferable to any other of his Majesty's Plantations, in that it affords Trees fit for Masts, Yards, Bow Sprits, such as for their Goodness & large Dimensions have never yet been found in any other part of the World but there, & in the adjoining province of Meine, being fit for his Majesty's greatest Ships of War as also Trees for smaller Masts in great plenty, likewise Pitch, Tar, Rosin, Turpentine, &c^a. the Soil is also suitable to produce Hemp & Flax.

I have formerly been at considerable Charge to search the Country as far Eastward as Kennebeck River; sending sev^l skilful persons & with them the Liner of his Majesty's Masts, to survey the Woods, but thô they found smaller

Masts plentiful, yet they found none, or but few Trees beyond New Hampshire & Province of Maine wou'd make Masts exceeding thirty two Inches Diameter; I wou'd humbly propose to your Lordships to have the Opinion of the Com̄iss^{rs} of his Majesty's Navy, whether or not it wou'd be for his Majesty's Service to have a certain Number of suitable Masts, &c: to be got & securely key'd down, to be always in readiness, whenever his Majesty shall have Occasion for them.

This Province & further Eastwards affords plenty of Trees fit for Timber, Plank, boards & joyse enough to supply the whole Kingdom, the purchase of w^{ch} from Norway, & the Sweed is chiefly by money sent out of the Kingdom, & Bills of Exchange. Whereas from America, besides it being y^e Growth & produce of his Majesty's own Plantations, are chiefly purchas'd by English Manufactures & Com̄oditys; the Nature of New-England Firr-Trees is esteem'd by many deal-board Traders, or timber Merchants to be as good, if not superior in Goodness to any other, they are very good, of a good Grain, ordinarily yellower, & much better than Norway white Boards, but not quite so yellow as the yellowest Sort; if the Duty w^{ch} is 23^s 6^d p hundred Deales, be taken off, wth some addition of Bounty Mony to encourage the Importation, the Freight by ye great distance being dear, it will greatly advantage the Kingdom by Consumption of the English Manufacture, will breed up Sea faring Men, inploy much Shipping & be greatly serviceable, if a Rupture with the Sweed &c^a

I would also humbly represent it as needful, that the person whom his Majesty shall appoint Lieu^t Gov^r of that province, do reside within the same, his Excell^y the Governor who is also Governor of Massachusets Bay province residing (as it is proper he shou'd) at Boston, w^{ch} is sixty Miles distant, cannot conveniently visit the same more than

once or twice p annum. The Province may well be term'd the Key of New England, if an Enemy shou'd possess themselves thereof (as in the late War was much fear'd) it wou'd endanger the whole Country.

If there be any other particular relating to y^e Massachusetts Bay or New Hampshire provinces, wherein your Lord^{ps} desire to be satisfy'd, I shall be ready at all times to contribute all I can, to the best of my Knowledge, faithfully & truely for the Good of his Majesty's Service & true Interests of the provinces.

most devoted Servants

That your Memorialists & their Ancestors haveing
been in possession of Arrowsich Island and the other
Lands Claimed by them as in the Report of his Majesty's
Soll^{er} Generall to your Lordships are mençoined for 78
years or thereab^{ts} (viz^t) from the year 1639 to this time
& haveing expended above 20000 in purchaseing the
p^rmes and makeing Settlem^{ts} thereupon dureing all which
time there was only two Interrupeons (Viz^t) in the year
1675 & in the year 1684 when the ffrrench Indians made
Insurreççõs and destroyed the Settlem^{ts} and killed the
s^d Cap^t Lake & divers other persons in defending the
Same & imediately after such Destruççõn retired and
quitted the P^rmisses.

That by vertue of an Ord^r or Act of the Gen^l Court and Court of Elecc^{ns} held at Boston in New England the 15th Oct^r 1673 the s^d P^rmisses were called Devonshire and your Memorialists Ancestors Cap^t. Lake & Major Clarke with others were appointed to repair thither & Impowered to keep a Court as a County Court to give Oaths to Constables and to appoint meet persons & Inhabitants there to such Offices & places (so far as within their Patent) according to God & the wholesome Laws of their Jurisdi^{ct}ion and to appoint Com^{rs} for Ending of Causes which Com^{rs} had Magistraticall power to punish Criminall Offences to licence Publick Houses to prove Wills and take Acknowledgem^{ts} of Deeds As also for marrying and to Settle the Militia in those places and in all Cases where they were not ffreemen they might make use of other fitt men provided they had taken the oaths of ffidelity (any thing in the Law to the contrary notwithstanding.)

That pursuant to the aforesaid Authority your Memorialists Ancestors with others held Courts Summoned Jurys appointed Constables and Officers for the Militia for the places now Claimed by your Memorialists and a Treasurer was appointed and Money raised on the Inhabitants to defray the Expences thereof and a Jurisdi^{ct}ion according to Law exercised & afterwards Certified to approved of and Confirmed by the s^d Gen^l Court at Boston as by Authentick Copys of Court Rolls recorded at Boston now ready to be produced to your Lordshipps doth appear.

That the Governm^t of New England impowering your Memorialists Ancestors to Exercise a Jurisdi^{ct}ion both Civill and Military aforesaid on the s^d p^rmes fully proves they had then a just and legal Title thereto under their Indian purchases since which your Memorialists

have had the same Confirmed by the Crown as in M^r Soll^r Generalls Report is mençoned.

That your Memorialists have since his Maties happy Accession to the Crown built a Town called George Town upon Arrowsick Island and made the same defenceable and have made diverse other Settlem^{ts} upon the p^rmisses and are now dayly Employed in perfecting the same which they are able to perfect and are now in quiet p^ossion thereof.

Therefore your Memorialists humbly hope there may be a Saving for their said Lands in any Grant that shall be made by his Most Gracious Matie

Memorial of Thomas Coram. June 6, 1717.

The Memorial of Thomas Coram, in Answer to the Petitions & Memorials of Jeremiah Duñer Esq^r & others against making a Settlement on his Maj^{ty}s Land & Islands between Nova Scotia & the Province of Main in New England.

Humbly Sheweth

That whereas Jerimiah Dummer Esq^r Agent for the Inhabitants of the Massachusetts Bay in New England, hath by his Memorial & Petition read before your Lordships the 24th of May last, Represented,

That near a third part of the said Lands, Viz^t "the Tract lying between Penobscot & Kenibeeck was more than

sixty years since “ purchas’d Bonâ Fide of the Indian Natives
 “ by Numbers of English People, with the Consent of the
 “ King’s Governor’s & Government from time to time & con-
 “ firm’d by Grants from the Council of Plymouth,

That pursuant to such fair & legal Purchases & Con-
 firmations, “ the Purchasers & their respective Agents, did
 “ with great Expence make sev^l flourishing Settlements, w^{ch}
 “ were at last broke up & utterly ruined by the late War,

To w^{ch} the underwritten Tho: Coram most humbly begs
 leave to make the following observation

The Inhabitants of the Massachusetts Bay in New Eng-
 land by their Charter from King Charles the first being lim-
 ited to a Tract of land between Merrimack & Charles Rivers
 & three Miles each Side above one hundred miles distant
 from the nearest part of the Land now in Question, without
 permission from the Crown to settle in any other part of his
 Maj^{ty}s Land or the Lands of the Indians. It appears that
 to confirm any Settlement or Purchase made of Lands from
 the Indians, it was necessary to have his Maj^{ty}s Authority,
 Nevertheless the New Englanders as well as others, Traders
 & fishermen tempted by the Conveniencys of the said Land
 to settle themselves thereon in the time of the unnatural
 Rebellion in Great Britain, when the King had no Gov^r
 there, practis^d so with the Indian Natives of the Land now
 propos’d to be settled, that debauching them with strong
 Liquors they drew in the Indians to execute Deeds for large
 Quantities of Land, whether their own or his Maj^{ty}s, without
 any valuable consideration for the same, knowing nothing of
 the Intents of those Writings. But when the Indians became
 sensible of the Deceit put upon them, they were so exasper-
 ated, that waging War with the New England Men, they
 destroy’d with fire & Sword, the Purchasers & their families
 by w^{ch} not only the said Land was laid desolate, as it remains
 at this day, but many other Towns & Villages near it in New

England have been laid waste, in revenge of the Deceit put upon them by those pretended Purchasers from time to time, who in truth cou'd not know whether the Persons signing their Deeds were the Possessors, or had powers to dispose of those Lands.

That since the time mentioned by the s^d Jeremiah Dummer Esq^r for those Lands to have been purchas'd the said Lands were granted by King Charles the second to his Brother the Duke of York, who reconvey'd some of them to the New England Men. Indeed one West & Grayham with some other Creatures of Col^o Dungon & S^r Edmund Andros, when they privately heard that King James had left England being desirous to raise a Sum of money to go off with, sold lumping Penny Worths, And whether these Purchasers any more than those from the Indians can be thought good, Your Lord^{ps} will please to determine.

As to M^r Dumers second Petition, wherein he seems to doubt his Maj^{ty}s Power of granting the Lands afores^d without Consent of y^e Gen^l Assembly of New England, by whose Neglect they were lost to ffrench & many years after recover'd by Conquest at great Expence to the Crown, your Lordships can best judge of it.

From S^r Bigbye Lake's Petition it may be observ'd how difficult it has been & may hereafter prove for a private Person to support such large Tracts of Land as he thereby pretends a Right to, & as wou'd be sufficient to employ many thousand ffamilies, his Claim is by Indian Deeds too, tho' indeed some part he says is confirm'd by the Crown; Be that as it will, it is very discernable from his own words, that the weak Settlements he & his Grandfather have been able to make upon his great possessions, have only serv'd as a Prey to the Indians as often as they thought it for their Pleasure & Interest to dispossess them. Insomuch that tir'd with their Disappointment, neither the present petitioner, his

Grandfather or partner have had any regard to those Lands for more than thirty years last past in Peace or in War, till now since his Maj^{ty}s Accession to the Throne, they have built a few ffishermens Hutts upon Rowsack Island, call'd by them a Settlement of thirty ffamilies, in order to prevent the present Grant.

The Duke of Hamilton's Lands not being included in those petitioned for, for making this new Settlement, the Dutchesses Letter in his Graces behalf can have no relation thereto, or supposing they were included they will fall under the same Considerations as the Lands granted in the fore-mentioned manner.

One wou'd think the propos'd Settlement wou'd be much for the Security of New England, since the inhabiting the said Lands may prove a good Barrier between them & the Indians, rendring the former secure from all Attempts of the latter without prejudicing any Coñmerce or Intercourse between them, And since the Inhabitants of New England are not excluded taking Share in the New Settlement in the manner propos'd they have the less Reason to object against a well regulated Gov^t w^{ch} may be appointed under his Majestys Authority interposing between them & their common Enemy, less than w^{ch} cannot be sufficient to settle the afores^d Tract, but less may be the Occasion as has been already hinted of destroying many of his Majestys Subjects.

It is hop'd, that what is above mention'd may prove full answers to the sev^l Objections made in order to disappoint the propos'd Settlements for the Advantage of his Majesty & his Kingdoms, And that your Lordships clearly seeing through the Cobweb Pretensions of the sev^l Parties claiming Right the afores^d Lands, will use your powerful Interest with his Maj^{ty} for obtaining the Grant in the manner and for the uses contain'd in a Plan sometime since deliver'd to your Lord^{ps} sign'd by the underwritten and others; Which will

occasion the employing & maintaining many of his Majestys Subjects, the supplying his Majesty with Naval Stores from his own Dominions & the Consumption of great Quantities of the Manufactures of Great Britain.

And now Peace being Restored and Several other Settlements Carrying on Further Eastward, Your Petitioners and others Concerned with them to the Number of Upwards of Thirty familys are desirous without Delay to Go or Send and Rebuild their wast Places, & Resettle their Lands, Which they are Excited to do the more Speedily by Reason that Great Strip and wast is daily made of the wood and timber in their Propriety to their great Damage by ill minded Persons that frequently load vessells with the Same—

My good Friends

I sent you word last Winter that I designed to visit the Fronteirs of my Government about the middle of this Summer & at the same time to meet with you, being then in hopes I should have had nothing to hinder my doing so, but I now find the affairs of my Government will not allow me to make a progress to the Eastern parts where you dwell till the next Spring when I hope (God willing) I shall be able to see you ; As I shall alwaies expect you will be true & faithfull to your promises to the English so I am careful to keep my word to you, & therefore I thought it proper to give you Notice in Season, that so I might prevent your attendance in expectation of my coming.

You find the benefit of carrying it well to the English, & I shall order them to carry it well to you, & if you receive injury from any of my People at any time, you must not quarrell with them but make complaint to me that I may punish them. *Attorney General's Opinion respecting settling Soldiers
at Augusta.*

S^r:

In obedience to the Commands of the Lords Com^{rs} of trade and plantations signified by Yours of the Sevent of June last I have considered the petiçon and the several memorials & have heard all parties concerned except M^r Patridge on whom no personal Summons could be served by reason of his absence from England as I was informed & his Son who presented the Memorial on his fathers behalfe being Summoned Answered that he should take no care about it as was deposed before me.

The Question their Lop^s are pleased to ppose is whether the King can pperly Grant the Lands petiçoned for which Land is described to be a tract of Land Between Nova Scotia and the pvince of Maine in New England in America M^r Dummer Agent for the province of Massachusetts bay, appeared before me and I required of him to make out the Allegaçons in his first Memorial wherein he Asserts that near a third part of this tract of Land was purchased of the Indian Natives bona fide by English people & confirmed by Grants from the Counsel of Plymouth which he says also therein are ready to be pduced & that severall flourishing Settlements were made at great expense by the said purchasors till they were ruined by the ffrench in the late warr I found him Unable to make out any of the said facts but he alledged he wanted time to pduce the said Deeds of purchase & make out the other facts I heard him as to his Second Memorial wherein he Asserts that the pvince of Massachusetts bay have these Lands given to them by the Charter of King William only with this limitation that their Grants be afterwards confirmed by the Crown & that therefore a good title cannot be made to these Lands without a Grant first made by the General Assembly of the said province & to make

good this assertion he referred to the Words of the Charter in the printed booke page (13) which are as follows

Provided also that it shall and may be lawful for the said Governour & General Assembly to make or pass any Grant of Lands lying within the bounds of Colonies formerly called the Colonies of Massachusetts bay & new Plymouth & pvince of Maine in such manner as heretofore they might have done by virtue of any former Charter or Letters patents which Grants of Land within the Bounds aforesaid We do hereby Will & ordain to be and continu for ever of full foree & effect without further approbaçon or Consent And so as nevertheless it is our Royal Will and pleasure that no Grant or Grants of any Lands lying or extending from the River of Sagadahock to the Gulph of S^t Lawrence & Canada Rivers and to the Main Sea Northward & Eastward to be made or past by the Governour & Generall Assembly of our said pvince be of any force validity or effect untill we our heires & Successors shall have signified our or their approbaçon of the same.

Upon Consideration of these Words I am humbly of opinion that the Crown has not divested itself in any manner of the right to the Lands described to be extending from the River of Sagadahock to the Gulfe of S^t Lawrence & Canada Rivers & to the Main Sea northward & Eastward which I understand is the Land in question Nor has the Crown given the said Governour & General Assembly any of the Lands these words being at most only a power by implication to prepare Grants which are to have no validity unless confirmed by the Crown so that I humbly conceive there is nothing in this Charter which prevents the Crown from granting those Lands the Sole legal right remaining still in the Crown.

I required the Agent for Duke Hamilton to make out the right of the Duke to the Tenn thousand acres as is Asserted in the Letter of her Grace the Dutchess of Hamilton in the

behalfe of her Son and I find that there was a Grant in the 11th Year of Charles the first of that quantity of Aeres lying on the South East side of Sagadahock river to the then Marquiss of Hamilton & his heires But I do not find that the Grantee or his descendants have taken possession or in any manner occupied the same which is attributed to the Civil Warrs in England that ensued after the said Grant & to the other Warrs of the Indians not many Years after Nor do I find that any other person have been in possession of the same. If so it would be hard for the Crown not to reserve such right in any future Grant As to S^r Bigby Lakes pretensions for himself and the others mentioned in his Memorial I required some of the Assertions of their Right to the Lands menconed therein & there were pduced to me A Conveyance under the hand & Seal of Robert West Esq^r to S^r Bigby Lake by vertue of a patent dated the Sixth day of December in the Second Year of the Reign of King James the Second and several Authentick Copies of antient Deeds which were purchased of Indians & English certified under the hand & Seal of the Governour of the p vince of Massachusetts bay which seem to convey a very good title to the Memorialists of the p ticulars hereafter menconed (Vez^t) Rowsick als Arrowsick Island lying on the East side of Kennebeck River Nequeasitt als Negwegseg bounded by Sagadicoek River on the Western side thereof and Sheeps Corke River on the Eastern side thereof one Great Pond lying on the North side thereof & the River commonly called Nogwasseg River on the West side thereof And all houses and Lands in Nogwasset bounded by Sackechork River on the West or Westerly & so to Merry meeting Creek and from thence to the Northwards eight Miles up into the Country and from thence Easterly to Shipscott River and from thence to a place called Tapanegine Southerly and from thence all along Mourswaggen Bay & so along to Russock & from Rus-

the Indians in defence of their possessions as in the said Memoriall is sett forth and the Memorialists have been at great expences to improve and resettle these pr misses since his Majesties happy accession to the Throne and have settled a great many families thereupon and are now in quiet possession thereof I am therefore humbly of opinion that in Justice and Equity these Memorialists the Duke Hamilton S^r Bigbye Lake Ann the Wife of Inreas Mather Edward Hutchinson and Josiah Waldo are entituled also to a reservation of their Right to the p misses aforesaid respectively.

I had obeyed ye commands of ye Lords Coññirs signified by you in June last immediately after, If ye petitioners for ye tract of land between Nova Scotia & ye Province of Main had not been ye occasion of their own delay: I desired their agent to summon all partyes who had given in memo-

rials against ye petition, and I fix'd a day for a hearing, and I found three different partys not summoned ye vacation came on when I was at leisure I order'd fresh summon's, but I found some of ye partys out of town, and their agents applyed for time till their writings could be produced, I could not in Justice deny their request, It was some time in last month before all partys could be ready to attend a full hearing of ye affaire, ye hurry of ye latter end of ye Terme has prevented my preparing my thoughts for ye board; I fully intended it ye first leisure day, but am very much out of order with a violent cold so that tis very uneasy to my eyes even to write these few lines I hope ye beginning of next week to be able to obey the commands of my Lords.

Tis contrary to my inclinations to lett business lye before me undispatched, nor should this have been so, if it had not been upon ye ocaasion I mention.

Land lying between the Province of

in America.

Sheweth,

That the Petitioners to his Mag^{ty} for a Settlement on the said Land, did alledge that the Land did formerly belong to the Crown, that it was lost to the French in King Williams War & was reconquered from the French by the Crown of England in the Year 1710, that it lay wast & uninhabited &c.; Which Allegations his Majesty in Council, was graciously pleased to refer to your Lordships to be examined.

That your Petitioners humbly conceiving the Crown by the Conquest thereof has reinvested itself of a just Right & Title to the said Land, the French demolishing Pemaquid

the fortress thereof laid the Governmen^t of that Land to the Garrison of Port Royal in Nova Scotia, & was surrendered together at the Conquest to the Crown, & also confirmed to the Crown of England together at the Peace of Utrecht.

May it thereof please your Lord^{ps} to have the Conquest examined before you, & that it may please your Lord^{ps} to give direction to your Secretary to write to Gen^l. Letter from Governor Samuel Shute "to the jesuit at Norigwalk," Feb. 21, 1718.

S^r

Tis now some time Since I received your long Letter of August last, and had sent you an Answer to it before now, but that I was willing, and in some measure Obliged to Communicate it to the General Assembly of this Province; and which I accordingly did at our last Sessions, and Who are very much surprized at many of the Articles Contained therein, and especially at your Unchristian, as well as unkind Treatment of M^r Baxter: But of that I shall take Notice in it's proper place, as I Come to it in your Letter which I have now before me.

I Observe you begin it with professing your self a Lover of Peace; I shall be very glad to understand you Approve your self so, in your Management & Conduct with respect to the Indians, and especially those that are under the Allegiance & Protection of His Majesty the King of Great Britain, and that accordingly Inhabit within His Territorys in America. And this is what you ought always to remember when you are treating with the Eastern Indians; And therefore you must Expect to be Accountable first to God Almighty by whom Kings Reign, and then to His Majesty and His Government, if a People that have in many solemn Treaty's put themselves in great willingness and seriousness under the Government and protection of the Crown of Great Britain, should by your Influence be seduced from it, and drawn into a Disturbance of His Majesty's Government & People of this Province who are Willing to live in Peace and good Affection with them, But I hope & Expect Better things from a Missionary of the Gospel of Peace. When you say *Ecclesia abhorret a sanguine*, I suppose you mean vera Ecclesia, the Church of God built upon the Foundation of the Apostles and Prophets Jesus Christ Himself being the Chief Corner Stone; For otherwise we read in Revelation of a False Church or Spiritual Babylon who was Drunk with Blood Viz: the Blood of the Saints, and of the Martyrs of Jesus; and it will be very Terrible, where even a drop of that Blood is found when Inquisition is made.

Your Allegorical Character of the Indians Temper and resentments is a little Misterious; however I Cannot Apprehend any Danger or Mischief from them so long as We are Just & keep Our solemn Agreements and Treaty's with them, which I shall always Endeavour with utmost sincerity & Exactness to perform and make good And that you may the better understand what those are, I have herewith sent you a printed Copy of the last Treaty I made with them my self

at Arowsick, which will set you right in Many things that hitherto you are either mistaken in, or not well Informed of.

After all, if the Indians, should without any Just provocation on Our part, Maliciously, or by Ill advice give us any Disturbance (which God forbid) we shall Endeavour to Defend Our Selves, and punish them; Always Trusting in the Protection and favour of a Good, Almighty, & a Righteous God.

As to the Affair of the Man of Justice, by whom I suppose you mean Capt Ephraim Savage; I have Enquired into it, And he Justifys his proceedings in that matter by the Laws of this Government: And you know the Old saying *Cum Fueris Romæ Romano Vivito More* ~ If the Indians or French Come into Our Towns, they must Observe the Laws of the Land, and Especeally those referring to the Sabbath or Lords Day, and the preservation of the Peace, Drunkenness, or the like; And the Old Gentⁿ Averts That he did not otherwise with the Indians than he would have done by English People in the like Circumstance; After all it is such a Trifle, that it is scarce worth mentioning, much less Can it deserve to be a Foundation of a publick Quarrel, Especially when the Indian had no Indignity done his Person & all went off with a small Mult. Besides Capt Savage was a Magistrate under Oath, & so Obliged to do what he did ~ Before I leave this Paragraph, I must needs Desire you in your Religious Instructions to the Indians to Observe and press upon them how very necessary it is for them and all Christians to Sanctify the Lords day Sabbath.

As to the Business of Rhum, or Strong Drink; I am perfectly of your Opinion, Concerning the Mischievous Consequences of Supplying the Indians therewithall, that it is destructive to Soul and Body; and that it has all along had a great hand in private Murthers, as well as the Open & Cruell Warrs, we and they have in times past been Engaged in, but how to prevent it *Hic Labor, Hoc Opus* —

The Clergy of this Countrey have from the Pulpit bore a very Affectionate and Solemn Testimony against this Wickedness.

And the Government have made very wholesome and Severe Laws with Penaltys against it; and as often as the Transgressors are Convicted, they are Punished: But helas! it is almost Impossible to prevent it, the Countrey, & Sea Coast being so large. However you may be Assured this Government have nothing more at heart than this very thing, to prevent the Indians to the Eastward from having any Rum sent them, and every session of the General Assembly, we are projecting new and more Effectual methods for that purpose; And I shall take it kindly if you Can suggest anything of that sort, either of your self or from the Indians ~

Besides the Laws of the Land against this Iniquity; I have given Strict Orders to the Officers of the Government and principal persons of the Eastern parts to take Special Care that the Indians have no Rhum sold or given them on any pretence whatsoever; and I am in hopes we shall in time attain a good reformation in that Article ~ However you must Assure the Indians that nothing of this sort has ever been Transacted, by Order, or so much as with the knowledge of the Government, for they utterly renounce & Abhor it But transacted secretly by Villains; for which reason the Iniquity, or Ill Consequences thereof, cannot with Justice be Imputed to the Government, no more than a plunder, or Robbery Committed by the Pyrates ~

As to Your not having an Answer from this Government to a Letter of yours dated three years since, it was before my arrival here, and therefore say nothing to it ~

I am now Come to that part of your Letter which refers to Mr Baxter ~

By the Treaty I had at Arowsick which I must again refer you to; You will find that I presented M^r Baxter to

the Indians as a Protestant Missionary to Instruct them in the Religion of Our Lord and Saviour Jesus Christ, according as we find it Revealed in the Holy Scriptures of the Old & New Testament: And that as he Came with an Ardent and Sincere Desire for their Conversion & Eternal Salvation; So I Expected they should treat him with all Affection and Respect for his Character and Works sake: to which the Indians Answered That it would be Strange, if they should not love them that came from God - It is true they Added withall, that which was not only very Surprizing but even a Contradiction or Inconsistency Viz! That they Desired to be Excused as to the Bible, Giving as a reason, That God had Given them Teaching already ~ Must it not seem Strange even to Your Self, That a People whom you pretend to have Instructed in the Christian Religion and Even Proselyted thereunto, Should Disclaim the holy Scriptures which Contain the Entire Rudiments of the Christian Religion and are the only Rule of Faith, Worship and Manners; You would do well to Explain that matter for them, That they should pretend to have teaching already, & yet avoid the Bible ~ But as to your Charge of M^r Baxters want of Scholarship; I have never yet seen either your Latin Letters to him or his Answers to you, and so Cannot Judge which of you may have the better, as to the Latinist: But Certainly you Cannot Suppose the Main or principal Qualification of a Gospel Minister, or Missionary among a Barbarous Nation, as the Indians are, to be an Exact Scholar as to the Latin Tongue I say with respect to the Indians, For I am perfectly of Opinion That a Man Cannot be Accomplished for the Work of the Ministry without good Literature - And that next to a Zeal for the Glory of God, a Love to Souls; Learning is not only an Ornam^t but even Necessary to an Able Minister of the New Testament ~ And Yet after all a Man may be well skilled in the Learned Languages & not Capable Ex Improviso, to write a Correct Latin Letter ~

I hope I need not tell you the Main design of a Christian Mission among the Indians is to bring them from the Darkness of their Ignorance & Paganism to the Marvellous Light of the Gospell, and Under the Influence of the Divine Spirit to Translate them from the Power of Satan, who has had a Usurped possession of these parts of the World for so many Ages, to the Kingdom of the Son of God, whose right it is, and to whom every knee shall Bow &c And as I Can Assure you, it was with this Design that I Carried and left M^r Baxter in those parts; So I Dare Answer for it, he had never undertook the Blessed Work, but with & from the same principle; most seriously and Affectionately professing, there was nothing he Desired more in the World than to be Instrumental in setting up and Carrying on the Kingdom of Our Lord Jesus Christ among the Indians.

And it seems strange to me, That one who professes himself a Christian Missionary, as you do, among the same People, should not only Oppose, But even Ridicule a Mission in the same Glorious Name, and for the same Blessed end; Altho the Method taken may be very differing; Your Conduct in this Affair does not seem to be Agreeable to the spirit and practice of the Great Apostle in his Epistle to the Philippians, Chap. 1. Verses 15. 16 & so on. What then? Notwithstanding every way whether in pretence or in truth Christ is Preached, and I therein doe Rejoice yea & I will rejoice. Upon which Catholick Principle I had reason to Expect that instead of hindring and Abusing M^r Baxter you should have Embraced & bid Him Wellcome; If not as a Brother on all Accounts, yet at least as a Fellow Labourer in the Work of the Lord, & the rather when the harvest was so plenteous, and the Labourers so few; And instead of Excoḿmunicating and Unchristian Treatment of the Poor Indians for only Attending on Mr Baxters Instructions, you had Recoḿended him and his Labours, to those poor People;

This had been not only for the Glory of God, the promoting the Common Cause of Religion, but your own honour & Comfort.

After your long Paragraph referring to M^r Baxter, you proceed to tell me of a Complaint the Indians make of the Treaty of Arowsicks being already Broken by the English Settlements up the river Kennebec; here again I must remark to you That either you never saw or have forgot the submission and Agreement of the Indians to His Majesty King George & His Government, at Arowsick in that Treaty, which was but the Repetition and Confirmation of many preceeding Treatys, you will find – Notwithstanding some little Difficulty and Dispute at first It was finally Agreed on, That the English should have Enjoy and settle, if they saw good, where their predecessors had done – And be look't upon as the just and rightfull Owners or Proprietors of such places and Lands as at any time heretofore have been under the English Improvement; Nor would I put it wholly on the foot of Possession, but a Just and good Title by Purchase from the Natives, the Original Indian Sachems or Proprietors of those Eastern Lands: For we not only had it in Command Antiently from the Kings of England, But it was one of the Fundamentall Laws of this Government not to Enter upon any of the Lands belonging to the Aboriginees without a fair, honest purchase; and accordingly the Gentlemen Claiming Lands about Kennebec River, and those parts have their Indian Deeds to show for the same —

As to the Lands lying to the Eastward of Pemaquid I know of no Settlement Designed at present from hence in those parts and whenever any does Come forward by Order of this Government I shall take Care, that no Lands be Entred upon but such as have been honestly purchased from the Indians, or heretofore possessed by the English being Determined according to my promise at the Treaty

afores^d to preserve the Indians in their rights of Land, as well as other privildg and at the same time to Defend & secure the King's Government and the English propriety; ~

You will also Observe by the Treaty That the Liberty of fishing fowling & hunting was freely and without Exeption Granted and secured to the Indians; I am glad to find no Complaint upon that head —

In the Conclusion of your Letter, you were pleased, as in the beginning, to set before me, the Warlike and Terrible Genius of the Indians, and the strong Alliances they have with some other Indian Tribes; this Harangue I Can look upon no otherwise than as a Menace & Insult to His Majestys Governm^t & People of this Countrey; but you will please to remember what a King of Israel once said in a like Case Let not him that puts on the harness, Boast as he that pulls it off, nor is the Strong Man to Glory in his strength; And as I have told you already, so I now repeat it, That as long as we are Just and true to our Treaties of peace, & Agreements with them, and give them no Just provocation for a War, we shall not fear or be Dismayd, but put our Trust in God, & not only Defend our selves, but Endeavour to Chastise them And I would have both you & them to know, That I serve a Great, a Wise, a Just & Mighty King, & who will take Effectual Care, not only to Protect His subjects but to punish His Enemy's & tho they are at some Distance from His Throne Yet he will find a way to reach them with his Armes, & make them sensible of His power & Just Displeasure, And Especially if any of the French King's subjects are found to be promoters of any Disturbance, or Warr between us—pursuant to that strict Alliance between Great Britain & France, by Virtue of which the French are Obliged to Assist us against our Enemies; And it seems strange to me That when there is so strict a Union & peace at home between the two Nations,

there should be the least mention of a War abroad in the plantations. Nor will it suffice to say, It is the Indians &c. No: We have found by more than three score years Experience, that We had always lived in perfect peace with Our Neighbouring Indians, had it not been for the Instigation, protection supply & even personal Assistance of the French; so that in Case any Unjust War or Breach should happen (which God forbid) We shall look upon y^e French, & principally the Popish Missionareys among them, as a Main Cause thereof I must therefore caution & Charge you regarding the Indians to keep them in peace to put them in mind of their own Submission & solemn Covenants from time to time with my Government, to remind them of their being under the happy protection & subjection of King George as they themselves acknowledge by the Treaty – And finally that you will well & faithfully Coṁunicate to them the Contents of this my Letter & Assure them of my Justice & favour to them, in whatever they Can reasonably Desire, upon their faithfull peaceable & good behaviour And y^t they will Certainly find their Account in being at peace & ffriendship with us. I shall add no more, but upon your Just respect & Dutifull behaviour towards His Maj^{ties} Governm^t of this province, with regard to the Indians you shall find me

S^t Yours &c

The Memorial of the Proprie^rs & Settlers of the

Humbly Sheweth That by a Petition of the Proprie^rs of the
 Town of Falmouth in Casco bay to his Excellency the Gov^r
 Hon^{ble} Council & Represent in General Court Assembled in
 May 1717. Liberty was Granted to the said Proprie^rs to
 resettle the said Town And in order thereunto the s^d Proprie^rs
 were directed to Apply themselves to a Com^{tee} Appointed in
 the Year 1715 to regulate the Settlements of the Eastern
 Frontiers; for Advice in the Manner of their Settlement

That Your Memorialist have Fully Complied with the
 s^d Direction And that Notwithstanding we have repeated
 Our Applications to the s^d Com^{tee} the Matter is still delayed
 which has a tendency to Great Confusions in Our Settlem^t
 And is a Great discouragment to the Proprie^rs & Inhabit^{ts} of
 which there are a Considerable Number already Upon the
 Spot that are very desirous of a Good regulation.

That Your Mem^{rs} Also have been Informed that a Small
 Number of the Antient Proprie^rs of the Town of North Yar-
 mouth (having been Incouraged thereto by some few of the
 Proprie^rs of Falmouth bordering upon them) have Petitioned
 Your Ex^cy and the General Court for Liberty to Settle a
 Town at or Near a place called Broad Cove & so to Extend
 to Pesumpscut River And have Already taken possession
 And have Actually Laid out Lotts (without Approbation of

the Governm^t) by a Com^{tee} Chosen Among themselves that have no right or Interest in said Towns.—

That the Greatest part of s^d Tract of Land Your Pet^rs Crave Leave humbly to shew is within the Antient Bounds of the Town of Falmouth Settled by the Governm^t And Contains at Least an 8th part of Our Said Town together with a Commodious Stream for Mills the Antient priviledge of s^d Town which Land And privileges if we should be deprived off would tend greatly to Our detriment & Discouragment of Our Settlement here

Your Memo. Therefore humbly pray Your Ex^{cy} And the Hon^{ble} Court now Assembled take Our Circumstances into Your Consideration that some proper Method may be taken for Our regular Establishment, as to Our Antient Bounds as well as in Other respects by a Com^{tee} fully Impowered for that End or by Liberty Granted to the Propri^rs & Inhabitants here to Act as a Town which We humbly Suppose tend to Our peaceable Settlement & prevent all Unhappy diffirences And Confusions Among us.

But all is Submitted to the wise Consideration & Determination of Your Ex^{cy} Your Hon^rs And the General Court now Assembled. By Your Humble Pet^rs

vindicated.*

Their late Majestys King William & Queen Mary of Blessed memory in the Third year of their Reign in their Royal Wisdom being Graciously pleased to gratifie their Subjects of the Colony of the Massachusetts Bay in New England: & also for other Good ends & Considerations did of their Special Grace, Will & Ordain that the Territories & Colonies Commonly called or known by the Name of the Colony of the Massachusetts Bay & Colony of New Plymouth the Province of Main, the Territory called Accada or Nova Scotia & all that tract of land lying between the said Territories of Nova Scotia & the said Province of Maine should be Created United & Incorporated into one Real Province by the Name of the Province of the Massachusetts Bay in New England: Ferdinando Gorge Esq^r Grandson & Heir of Sr.

Ferdinando Gorge Kn^t deceased, being Advised thereof & Supposing the Lands within the Province of Main to belong to him, made his humble Application to the Queen & the R^t Hono^{bl} the Lords of their Majestys most Hono^{be} Privy Council that his Inheritance might not be given away to the Massachusetts Colony And by his Petition set forth, that King Charles the first by his Letters Pattents under the Great Seal of England, bearing date the third day of April in the fifteenth year of his Reign did Give grant & Confirm unto S^r Ferdinando Gorge Kn^t his heirs & Assigns forever the propriety & Government of all that Country called the Province of Main in New England, lying between the River of Kennibeek Eastward & Piscataqua Westward: containing one hundred & Twenty Miles with diverse great privledges Royalties & Jurisdictions, And the s^d S^r Ferdinando Gorge being so seized as aforesaid did lay out & Expend Twenty thousand pounds at least, for the better Improvement of the said Province of Main, That after the death of the said S^r Ferdinando Gorge it legally descended & came by Right of Inheritance to him the s^d Ferdinando Gorge; Who soon after sent Persons over to New England to take Care of his Interest in that Province John Archdale Esq^r having a Commission from the Crown at the Request of the s^d Gorge went over for that purpose & was there Resident for the Space of One Year, & then was opposed by some of the Inhabitants of the Colony of the Massachusetts by their laying Claim to the Chief part of the s^d Province: which Occasioned several Contests & Suits at Law & he thereby compelled to defend his Legal Right to the s^d Province Several persons being sent over to England by the s^d Colony to maintain the same: And Several hearings were had on both Sides before his late Majesty King Charles the Second in Council who was then Graciously pleased to declare at the Council Board that the s^d Province did of Right belong to the s^d Petitioner Gorge,

& accordingly it was Confirmed unto & Reinvested upon him Which Tryals & hearings did occasion vast Charges & almost the undoing of the s^d Ferdinando his Estate & family: Whereupon the s^d Ferdinando did humbly offer the s^d Province to his said late Majesty for a Reasonable Consideration, as belonging Originally of Right to the Crown, but his Majesty Not Accepting thereof granted him to dispose thereof as he thought convenient, And by reason of his great Extremity Occasioned as afores^d he was forced to sell the same to John Usher of Boston for an inconsiderable sum, who afterwards sold it to the Colony of the Massachusetts: In some short time after, his said Majesty Ordered a Quo Warranto against the Corporation of the Massachusetts & by a Legal Sentence made Voyd their Charter: And the s^d Corporation being so dissolved & become forfeited he presumed that upon the dissolution of the Charter of the Massachusetts the Lands purchased by them of the s^d F. Gorge did Returne & Remaine in the s^d F. Gorge whom they had disseised & not either to the s^d John Usher or any other, And did therefore humbly pray that his Inheritance might not be given away as afores^d but he permitted to maintain his right at law or that her Majesty & that Hono^l Board would condescend to hear his Case & what ever should be by them determined he would Cheerfully Submitt unto: And the Right Hono^l the Lords of the Committee of trade & plantations were appointed to Meet at the Council Chamber at White Hall on Wednesday the 26 of August 1691 & to hear at that time by Council Learned, the Agents of the Colony of the Massachusetts Bay, the said Gorge Mr Samuel Allen & such others as might be concerned in the Settlement of the boundaries of that Colony, And by a Summons signed William Blathwayt directed to the Messenger Attending the Committee of trade & Plantations the Agents were Summoned to Appear for the ends afores^d Who did then & there among other things In Answer

to the Petition of the s^d F. Gorge Acquaint their Lordships concerning the Vast Charges the s^d Gorge had been at in Maintaining Countors at law with the Massachusetts, that in the year 1676 the Kings order respecting that affair was sent to the Government of the Massachusetts & the same year they sent over their Agents & before they had been Eight Months there the matter was determined in favour of the s^d F. Gorge; Who after he had tryed such as he thought would give the Most sold the Province to M^r Usher And the Massachusetts Colony to buy their & the Inhabitants peace purchased it of him And besides the purchase it had Cost them to defend it in the late Indian War Anno 1675 & in the then present War at least Twenty Thousand pounds besides the loss of Men: And altho by the Execution of the Judgment against the Massachusetts Charter, they might be deprived of their Charter priviledges & Rights as to the Government, yet not of their Rights to their Lands nor was it so intended; For King Charles the second when he sent over the Quo Warranto against the Colony he therewith sent his declaration bearing date the 26 of July 1683 wherein it was declared that none should Receive any prejudice in their Freehold & estate thereby & that the Private Interest & properties of all Persons should be Continued to them; and the greatest part of that Province is Accordingly disposed of: And the Remainder is in the same Condition with the Estates belonging to the Corporations in England that were so deprived of their Rights & priviledges & not legally Restored And if there be any Revertion why to Mr. Gorge & not Mr. Usher he having been the Immediate precedent Proprietor but if he must be leapt over why not M^r Gorge too & the Lands Revert to the Crown which advantage the late King Charles the Second declared against as afores^d & they therefore humbly their then present Majestys would not take: And after the matter had been fully heard & argued on both

sides Mr Gorges Petition was dismissed and in less than two months the Charter granted to the Inhabitants of the Province of the Massachusetts Bay and the Province of Maine notwithstanding all the strenuous Endeavours made by the said Gorge, and the same then Incorporated with & put under one & the same form of Government with the other Colonies & Territories. In which Royal Charter are the several Grants & Provisos following vzt. Provided nevertheless, & we do for Us, our heirs & successors Grant & ordain, that all & every such Lands Tenements & hereditaments & all other Estate which any Person or Persons or Bodies Politick or Corporate, Towns Villages Colleges or Schools do hold & enjoy or Ought to hold and Enjoy within the lands afores^d by or under any Grant or Estate duely made or granted by any General Court formerly held or by virtue of the Letters Pattents herein before Recited or by any other Lawfull Right or Title whatsoever shall be by such Person & Persons, Bodies Politick & Corporate Towns Villages Colleges & Schools their Respective heirs Successors & assigns forever hereafter held and enjoyed According to the purport & Intent of Such respective Grant, under & Subject nevertheless to the Rents & Services thereby Reserved or made payable, any matter or thing whatsoever to the Contrary Notwithstanding.

It being our Further will & Pleasure that no Grants or Conveyances of any Lands, Tenements or Hereditaments to any Towns Colleges Schools of Learning or to any Private Person or Persons shall be judged or taken to be avoided, or prejudiced, for or by Reason of any want or defect of Form, but that the same stand & remain in force & be maintained & Adjudged and have effect in such Manner as the same should or ought before the time of the s^d Recited Judgment, According to the Laws & Rules then & there usually practised & Allowed. Again Provided, also that it

shall & may be lawfull for the Governour & General Assembly to make or pass any Grant of Lands lying within the bounds of the Colonies formerly called the Colonies of the Massachusetts Bay & New Plymouth & Province of Maine, in such manner as heretofore they might have done by Virtue of any former Charter or Letters Patents; Which Grants of Lands within the bounds afores^d we do hereby Will & Ordain to be & Continue forever of full force and Effect without our further Approbation or Consent. It is now Seventy Nine years Since the Crown Granted the Province of Maine, now Called the County of Yorke to S^r Ferdinando Gorge Under whose assigns the Inhabitants of those parts do now hold their Lands & Estates: during which time many disputes, Controversies & Law Suits have been between the then Inhabitants & the Agents of Gorge concerning the Title to the Lands in the afores^d Grant, which being Complained of by Gorge A hearing was had before the King & Council & pursuant to the Report of the Two Lord Chief Justices S^r Rich^d Ransford & S^r Francis North, to whom the Matter was Referred for their opinion, as by their Report bearing date July 11, 1677, it was determined and Given in favour of the Complainant; So that had the Inhabitants no other Title than what they derive from M^r Ushers Deed, which was several years before the vacating of the Charter of the Massachusetts; And Continuing ever since in the Uninterrupted quiet & peaceable possession & Improvement of their Lands properties & Estates and they being Anno 1691 by the afores^d Royal Charter fully & absolutely Confirmed to them their heirs successors & Assigns forever in such manner as they held & enjoyed them or ought to have held & enjoyed by force & Virtue of the afores^d Grant of the Crown to the s^d S^r F. Gorge and the several Purchases from his Assigns: It necessarily Creates in them an absolute Estate of Inheritance in fee simple forever: Wherefore It cannot be Supposed

that the & owners of y^e Lands, Woods Timber &c contained within that Grant ought to be any Measure Abridged Restricted or hindered in the Use & Improvement thereof as they shall from time to time think will conduce most to their profit & advantage, but they have to all Intentes purposes & Constructions as good Right & Lawfull Authority to make Use of them as the Proprietors & owners of the Real Estates within the Colony of the Massachusetts & New Plymouth can pretend to have: And therefore if at any time attempts have been made to deceive the People in the County of York & make them beleue that they have not a Right to Cut down the Trees & make Use of the Wood & Timber growing & being on Lands within their several Townships & they thereby in great danger of being put by their Usual employ & business without which many of them would not be able Comfortably to subsist themselves & familys or pay their Publick dues but very soon brought into very mean & Low Circumstances to distressing streights & difficulties: And it being often Intimated to them, that whoever shall be so hardy as to venture into the Woods to logg or get Timber without purchasing a libertie & license so to do from the surveyor General of his Majestys Woods would forfeit one hundred pounds sterling for every tree they should fell cut or destroy of such a Diameter and made to pay it: When such base designs are on foot why it should be thought Criminal or in any wise mischeivous or Injurious to his Majestys Interest, to endeavor to detect & defeat such Intollerable enterprizes. And therefore sometime last winter being advised that John Bridger Esq^r Surveyor Generall of all his Majestys Woods in North America vnder Colour of his Commission, & preserving the Woods for his Majestys Service, had, by himself or his Deputy Strictly forbid all persons goin to the Woods within the Townships to Cut down trees for any Use until he had Caused the afores^d Woods to be

Surveyed & (which might have their Cost & Charge) they obliged themselves to pay to him forty shillings for each team employed in that Service And that all such as would give into his terms should have free libertie to go into those Woods as their Occasions required. I being then in that County & hearing Several of the Inhabitants of the Towns Complain that by reason of the insnaring demands & Extravagant Exactions of M^r Bridger & his deputy they should be wholly put by their Constant Winter Work being the best Season to procure Timber for the Supply of their Saw Mills the ensuing Summer, & being under fears & Apprehensions that some of the People rather than be forced to ly still all Winter to their greivous hindrance & damage would be prevailed vpon to purchase M^r Bridgers favour to make use of their own estates, which might prove a great snare to them & their posterity if once brought into practise: put me upon Reading & perusing his Majestys Commission to Mr Bridger I could not find that by any Clause or paragraph in his Commission or Instructions he was therein directed to prohibit or forbid the Inhabitants the Use & Improvement of the trees & Timber growing & being upon their properties, much less that the Crown had Invested him with Power to Sell the Kings trees & Timber & put the produce thereof into his own pocket; I did therefore Inform the Inhabitants, that in my opinion the Reservation, made by His Majesty in the Royal Charter for the better providing & furnishing of Masts for his Royal Navy, wherein all trees of such diameter growing upon any spot or tract of Land not heretofore Granted to any Private Persons were Reserved for his Majestys Use & all Persons forbidd Cutting any such trees upon penalty of forfeiting one hundred pounds sterling to his Majesty Could not in any Legal Construction or Intendment effect the Lands of the Townships of that County inasmuch as they had been for so long a time heretofore legally

granted to & quietly possessed by Private Persons who for valuable Considerations had bona fide bought & paid for the same: And did therefore declare to some that Provided they did not go beyond the bounds of the Townships, notwithstanding all Mr Bridger false Amercements they could not Incur the afores^d penalty for Improving their trees without his libertie and dissuaded them, by what Arguments I was capable of, from Suffering such a manifest Ineroachment & mischevous violation to be made upon their estates & Properties contrary to all Law and Justice: withall assuring them, if M^r Bridger should Continue to Interrupt them, I would acquaint the Assembly at their next Sessions what Ill treatment they had suffered from him in this Affair In no wise doubting but that if they were capable to make out their Allegations against him the Government would take effectual care to Redress them. And accordingly at the Session of the General Court in February last, not being able to attend the Court in Person by reason of Bodily Indisposition, I looked upon myself under an Indispensible duty more especially considering the Station I then Sustained in the Government to Inform & make the same known, which I did by Writing a Letter to Mr Speaker Burrill praying him to communicate the same to the House, Relating the demands of Mr Bridger upon those People. And as in the afores^d Information I had no private end or design of my own to serve but purely Intending the Publik good, so neither did I in the least intend in any Measure to affront or put any slight upon his Excellency the Governour & the Hon^{le} the Council in directing my Letter & Memorial to the House only, But taking it for granted that in England all Petitions or Matters of Grievance were directed to & layd before the house of Commons only & not to his Majesty & house of Lords in Conjunction with them, was what wholly guided and directed Me in that path: Regis ad Exemplum. Supposing that when

the Matters inserted should come to be disclosed before the Hon^d House of Representatives, upon either want of proof or their not being deemed hurtfull or greivous there would be a stop put to all further proceedings thereon, but if otherwise they would take such further steps as in their wisdom they should think best: And accordingly the House after the Letter had been Read Ordered it to be sent up to the Hon^{le} Board Requesting his Ex^{ce}cy & Council to enquire into the greivance Mentioned therein & to do what is proper & Necessary to Remedy it, At the same time Voted Me thanks for the Information I therein gave them, & appointed three of their Members to Acquaint me therewith, which they accordingly did but inasmuch as their vote for thanks is not entered in the Journal of that Sessions, Nor why omitted is not for Me to say, Some have almost questioned the truth of it. The Letter I sent to Mr Speaker Burrill was follows. Mr Speaker Burrill &c. Sometime in the month of March following M^r Se^cty Willard was ordered to write Mr Bridger who was then at Piscataqua & let him know what I had alleadged against him & the Resolve of the House thereon that he might have time & opportunity to make Answer thereto: which occasioned the following Letter from that Gentleman:

Boston April 15 1718 S^r I have the favour of a Letter by his Excellency's Command of the 27 of March from You, & Inclosed a Copy of a Letter from Mr Cooke to Mr Speaker, for which Justice I Return my due Acknowledgments to his Ex^{cell}ly & likewise for his Caution to Me, but have not been Guilty of any Executions complained of makes me beleive the Complainant was wrong Informed for as I have always made it my Care & duty in the first place to Secure & protect his Majestys Interest to the best of my Power & diligence from being Cut or destroyed so on the other hand I have been as Careful & tender of the Subjects Right & propertie,

nor did I ever Act or design any thing contrary to the Just privileges of the Inhabitants of that Province for those Townships are so Large that they never go out of their Townships to Cut logs as I know, nor did I ever Receive any Sum at all from any Person of that Province nor can any Person produce my Order for Receiving forty shillings or any other Sum Since my Arrival all which I presume will be a Satisfactory Answer to his Exçelly to whom please to Communicate this with my duty is all from

Śr your humble Servant J Bridger

To Mr Seçy Willard.

This Letter being Read at the Board it was observed that it was directed to No Person whereupon the Seçry has directed the Gentl therewith that it might be amended by him which he did and the Letter brought to the Board again. Had this Letter Contained just as much of truth as it doth artfull evasion & Misrepresentation it might have been Satisfactory to all Mankind: And yet I can readily Agree with him that he hath been alike Carefull to secure his Majestys Interest from being Cut or destroyed as he hath tender of the Subjects Rights & properties for it is very probable in his apprehension, Its no waste of the Kings Woods for him from time to time to sell & dispose thereof and to license such Persons as will gratifie him to go & Cutt trees there, for their own occasions, so on the other hand he dont think it any breach upon the Peoples Rights & properties to be debarred from making Use of that which they have long since bought & payd for, for why should they unless they can comply with such Easie & Reasonable terms as he so Generously offers them: If the Gent had well Read over and Considered my Letter he might have Answered much more direct had he thought it Convenient, What I Charge him with was that he was endeavouring such & such things which he Industriously passes over And again As to the time of Receiving Moneys he fixes that since

his Arrival & that only to take in the persons of that Province which seems to be a tacit Confession that it was his practise to Demand & Receive Money in this Manner heretofore, And if so, it was doubtless as pernicious in him then, as now. And after the Letter had been Read I then declared to his Ex^cy & the Hon^l Council, that notwithstanding what Mr Bridger had Wrote I had the declarations of Sundry Persons of that County of good fame & Credit to make Evident what ever I had Charged him with in my memorial who were all Willing & free to make Oath thereto when Required And prayd the favour that they might be severally Read over, which being Admitted of then left them with the Se^cry who Ordered to send them to Major Charles Frost of Kittery Esq^r that he might summons the Several Persons to Appear before the Hon^l Justices of the Superior Court at their Sessions at Kittery on the _____ of May following to make Oath to their afores^d declarations: who in obedience to the Summons Appeared and after having been Examined, were sworn Sam^l Plaisted of Barwick Esq^r, Mr Bridger Deputy, being in Court at the same time & objected against their being Sworn. And the Several affidavits were Returned into the Se^crys Office, Are these following. Some time after M^r Bridger Exhibits the following Memorial & a Copy of Archibald Maphedens oath thereto attested by himself to be a Copy together with a Paragraph of Maphedens Letter to him Certified after the same Manner. It must Necessarily be a surprizing story to hear of the wonderfull Care & pains & that for so long a Space of time Mr Surveyor hath been in the Constant practise of to preserve his Majestys Woods, when it is so notoriously known that contrary to the Gov^s ends & designs, for which he was Commissionated, forsaking his duty & altogether perverting the Instructions given him for his Management in that Concerne, has from time to time for the sake of Money given libertie to such a Number of

Persons to go into those very woods which he deems to belong to the Crown & there to Cutt down trees for loggs & other Uses: Who presuming upon the licence they had purchased of him & some at dear & Extravagant Rates too, have Improved that libertie & Cutt down many hundred of Pine trees & Converted them to their own Use. And this he esteems to be no Wast or Spoil made upon his Majestys Interest.

It is now almost full Eighty years since the Crown Granted the Province of Maine now called the County of York to the first Pattente Gorge under whom the Inhabitants of those parts do now hold, Since which time diverse Controversies have Arisen Referring to the Title of those Lands which occasiond hearings to be had before the King & Council, and pursuant to the Repert of the Two Lord Chief Justices Sr Rich^d Ransford & Sr Francis North to whom the matter was Referred for their opinion bearing date July 17, 1677 It was in favor of the Successors of the s^d Gorge, So that had the Inhabitants of that Province no other Title than what they derive from Mr Usher which was several years before the vacating of the Charter, & continuing ever since in the uninterrupted quiet possession & Improvement of their Lands & properties & the same being fully & absolutely in & by the afores^d Royal Charter Anno 1691 fully & absolutely Confirmed to them their successors & assigns forever in such manner as they held & enjoyed them by Vertue of the afores^d Grant of the Crown to the s^d Gorge and the Purchase from his assigns must necessarily Create to them an absolute Estate of Inheritance in fee Simple forever; Certainly then the Proprietors & owners of the Lands within that Grant cannot be Supposed in any Measure to be abridged Restrained or hindered the Improvement of their Lands & Estates as they shall from time to time and at times think will be most for their advantage, but have to all Intents purposes &

Constructions in the Law as good Right & Lawfull Authority to Improve & dispose thereof as the Proprietors & owners of the Lands lying within the late Colony of the Massachusetts & New Plymouth now have or at any time ought to have had. Wherefore if at any time Attempts have been made upon the People there to forbid them in their Lawfull & necessary Improvement of the Wood & Timber growing & being upon Land within the Several Townships in that County, without which they would not be able to Subsist & pay their publick dues, and they in great danger of being seduced & made to beleive that if any of them shall be so hardy for the future to presume to Cutt & make Use of trees for Loggs or the like that they thereby will be trespassers & liable to severe penalties & forfeitures unless they will procure libertie with their money from one who under Colour of a Commission from his Majesty is contriving & endeavouring, by Indirect Means & false Insinuations to disturbe and grievously Molest the people in their Estates & properties, I think it no ways Injurious to his Majestys Interest for any one to do as much as in him lyes to detect & defeat such unjust practises & wholly prevent the same, And therefore being well advised, that some time Last Winter John Bridger Esqr Surveyor Generall of all his Majestys Woods on the Continent of America, under pretence of Preserving the woods for his Majestys Service had by himself or Deputy threatned the Inhabitants in the County of Yorke, by declaring that who ever of them should go & Cutt any trees off of Land with the Townships before they had obtained his license so to do he would make them pay one hundred pound a tree by them Cutt down, But if they would pay to him or his Deputy fourty shillings a Teame for every Teame employed in that Service after he had Surveyed the Woods at their Cost & Charge he would upon those Terms Suffer them to logg in the woods afores^d: I being then in that County & hearing

many of the People often Complaining that by Reason of the afores^d demands of the s^d Bridger they were very much hindered in their Usual Winter business from logging in the woods that being the Chief time for procuring Timber for their Saw Mills for the coming Summer, And I some what fearing lest the people would some of them rather than be put off from their necessary business & livelyhood be prevailed vpon to purchase libertie to Improve their own estates from one who had no manner of pretence to grant the same. After having Read over & Considered the Kings Commission to Mr Bridger I was fully perswaded that he did not try to answer the good ends & designs of his Commission but the Reverse I did then once & again Inform the Inhabitants that I could not think that the Reservation made by his Majesty in the Royal Charter for the better Providing & furnishing of Mast for his Royal Navy whereby all trees of such diameter growing upon any Soil or tract of Land not heretofore granted to any Private Persons were Reserved for his Majestys Use and all Persons forbid Cutting any such trees upon penalty of forfeiting one hundred pounds to his Majesty could by any construction be thought to reach the Lands within the several Townships for as much as they had been for a long time heretofore granted to Private Persons. And that therefore if they should give into Mr Bridgers Measures & come up to his Illegal demands they would extremely hurt themselves & suffer a very great Ineroachment to be made upon their Estates contrary to Law & Justice: withall assuring them that if Mr Bridger shall persist in the affair I would acquaint the Assembly how they were treated by him, no ways questioning but that if they could make out their Allegations against him the Government would take effectual Care to Redress them. And Accordingly At the Sessions of the General Court in February last not being able to Attend the Court by Reason of Bodily Indisposition, I looked upon my

Self undeniably & Indispensably bound more especially considering the Station I then Sustained in the Government to make the Same known and did therefore Write a Letter to Mr Speaker Burrill praying him to communicate the Same to the House, wherein I briefly Informed of the Actions of Mr Bridger And Sure I am I did not any ways design to affront his Exçelly the Governour or the Hono^l the Council in not directing my Letter or Memorial to them as well as the House of Representatives, but taking it for granted that in England all Petitions or Matters of greivance are directed to & laid before the House of Commons only & not to his Majesty & house of Lords in Conjunction with them was the only reason that Guided & directed me in that Path Regis ad exemplum: Supposing that when the Matter should be disclosed before the Hono^l House of Representatives, upon either wanting proof or being thought no ways prejudicial or greivous there would be an end of the Matter, but if otherwise they would take such further Steps as in their wisdom they should think best. And the House of Representatives Ordered the Letter to be Sent up to the Hono^l Board Requesting his Exçelly & Council to inquire into the Greivance Mentioned therein & to do what is proper & Necessary to Remedy it. And at the same time Voted Me thanks for the Information I then gave them Respecting that affair & appointed three of their Members to acquaint Me therewith which they Accordingly did this latter vote not being in the printed Journal of that Session. Some have made doubt of the truth of it. Sometime in the Month of March following Mr. Secretary Willard was ordered by the Gov^r & Council to write Mr Bridger who was then at Piscataqua, an account of the Memorial & Resolve of the House thereon that he might have time & opportunity to make Answer thereto; who accordingly on the 15 of the next month wrote a Letter to Mr Secretary which he desired might be Communicated to

his Excellency which was produced & Read at the Board wherein he denys the Matters Complained of & that as he always made it his Care & duty to Secure & protect his Majestys Interest So on the other hand he hath been as Carefull & tender of the Subjects Rights & properties & that he had not since his Arrival Rec^d any Money from any Person of that Province for libertie to logg, &c. And after his letter was Read I informed his Excellcy & the Hon^l Board that notwithstanding what Mr Bridger had wrote I had then the declarations of sundry persons of Good fame & Credit w^m that County to support & maintain all that I had Charged Mr Bridger with in my Memoriall who were all willing & ready to make oth thereto if Required and after they were severally Read M^r Sečerty was Ordered to write to Major Charles Frost of Kittery Esqr to Summon the several persons to appear before the Superiour Court at their Sessions at Kittery in May following and make affidavit to their several declarations Who appeared & after being Examined by the Court were Sworn. And their affidavits Returned into the Secretarys Office. Sometime after this M^r Bridger Exhibits a Memorial against Me to his Exčey which I had not the least Knowledge of he Fyld it the last of May last past wherein he complains of my Audacious & bold declarations made in that Province in the Winter last as by Affidavit he says may Appear wherein I denyed the Power the Crown had Invested him with over all the Woods which he has preserved for Twenty years, & the libertie I took would soon destroy all the valuable Pines & render all the Care Charge & endeavour the Crown has been at forty years vain & fruitless And in as much as this was done by a Member of the Council & the time being neer wherein his Exčey would have opportunity to Remove all Enemyes to his Majesty from that board he was obliged to give notice thereof declaring to the Inhabitants that they might go & Cutt where & what

loggs they pleased & I would bare them harmless. And to support his memorial Adds a Copy of Archibald Macphedris Oath thereto & signs a Copy Examined p J Bridger together with a paragraph of Cap^t Macphedris Letter to J B & Concludes Copy Examined p J Bridger The Gentl in this Memorial first declares that he has for Twenty years past preserved the woods belonging to his Majesty. It seems strange that he should pretend to have preserved the Kings Woods when Contrary to his duty & Instructions has from time to time for the sake of money given libertie to so many persons to go & Cutt trees for loggs & other Uses in those very woods which he deems to belong to the Crown, who presuming upon the license they had purchased of him and that at an extravagant rate too, have gone into those woods & Cut down Many hundred of Pine trees & Converted them to their own Use, this he Accounts to be no wast or spoil made upon his Majestys Interest, & why because he has tho in a base & shamefull manner Raised Considerable Sums of Money for his own Support & Maintenance. But if any man that hath not bought it & his good will should within the Bounds of the Townships where the Proprietors or owners have undoubted Right to the woods & trees thereon standing & growing Cut down but a small tree for a Sloops Mast or the like nor suffering Ships to go from Piscataque to Spain & Portugal with Masts & other Naval Timber he shall have his tree seized & threatned & made to beleive that he has forfeited a hundred pounds & put to Considerable Charge for presuming to go into the woods till he had Surveyed them & given out his libertie. And as in the first part of his Memorial contrary to truth boasts of his own faithfullness & Service he hath done in his Past so in the same manner goes on to charge Me in a very Extraordinary Manner tho with as little Reason as he had to Applaud himself; for I did at all times acquaint the Inhabitants of those parts that if they

Cutt down or Carried off any trees or Timber from Land out of their Townships they would not be able to defend themselves in so doing but if sued would be found to be Trespassers And have at sundry times told Coll Leighton the Sheriff of that County that I thought he would be well to prosecute all such as should Cut down any trees off of the unappropriated in order to freight ships as by the several affidavits will appear. The Gentleman in another part of his Memorial seems to be weary of Surveying the Kings woods, and marking such trees as he thinks fit for his Use, but thinks himself well qualified to pass his Judgment upon Men & dictate to his Exeçy whom he thinks suitable to sit at the Council Board—Unparalleled Impudence. So that I have no great Reason to Wonder that he treats me with so little civility or good Manners, Since he so Rudely Gives his Advice to his Exeçy in the Election of Councillours; And in as much as I knew my self very grossly & falsely abused & misrepresented being Conscious to my Self that in all the proceedings I had not done any thing to Retarde or hinder M^r Bridger or any under him either in surveying or preserving his Majestys Woods or doing any thing in the Execution of his office pursuant to his Commission & Instructions & have been no ways Injurious to his Interest in that Regard & ought not to be sayd by him to be an Enemy to his Majesty, to whom as I always have so hope ever shall bare true loyalty & firm allegiance. I was obliged to make my application to the General Court which I did by a Memorial presented to them in their last May Sessions, bearing date June 14. 1718 & vpon considering some days on the first of July after was Read at the Board & some time after sent down to the house where after hearing the Several papers Relating thereto appointed a Committee to Join with such as the Hon^l Board should nominate to be a Committee to whom that Memorial & the papers Relating thereto were Referred to sit if it might

be before the rising of the Court otherwise in the Recess to Receive any further Information & to Report what they think proper for the Court to do thereon which vote on the 1st of July was read & Concurred & a Committee of the Board joyned with the Committee of the House: And at the Last Sessions of the General Court made their Report on the above affair which. In his Letter he Asserts that he never Acted or designed any thing Contrary to the Just Priviledges of the People, & how vastly differing that is from the Orders & Instructions under his own hand & seal to his Deputy is very obvious: He gives Mr Plasteed a Commission & Prays his great Care in the Preservation of all the Woods under his Inspection & orders him to mark all Trees that then were or in time to come should be fit for his Majestys Service & that all Persons that design to go into these woods must give in their names to him or his Deputy or they should be Excluded the Woods and that y^e woods y^t he surveyed must be payd for by them they are Surveyed for, And lest any should Seruple his Authority, whether Ignorantly or to Terrify the Common People Assumes a Jurisdiction over all the Kings Justices & all other Civil Officers Requiring them to Aid & Assist his Deputy as they will Answer the Contrary, a Power that never any before him but the Governour of the Province did Essay to belong to them; And where is the Place assigned for Mr Plaisteeds Care & Circumspection in his warrant dated 1709 he is confined to the woods up the Little River & Swamps Adjacent. In the other Warrant dated 1714 he appoints him Surveyor of all his Majestys woods in the District of Newichawannock; both which places are within the Township of Barwick & yet by his Instructions all Persons are Strictly Injoynd not to go there and his Deputy Impowered to mark all trees that are or shall be fitt &c – Well then if these orders of his are Complied with the Inhabitants of Barwick cannot Improve

the Common Lands lying within their Township but they will make themselves obnoxious & liable to his prosecution: And can all this be Consistent with the Inhabitants Right properties & priviledges: ? So that were there no other proof than what proceeds from him Self, it would be more than enough evidence to demonstrate all that hath been Imputed to him to be undeniably true. Mr Bridger having plunged him self into such difficult Circumstances & Justly fearing that should these Matters be set in a true light it would strike at his Commission & all the Interest that he or his friends could make for him, with men of Justice & Honour would be fruitless & vain: And unless some speedy way might be found out to put a full end further proceedings against him, he would be discarded, And Conceiving of no Readier way than to make a Representation as if what I had done with Relation to him had a Tendency to defeat all the good designs Care & Charge of the Crown which it had in the Article of Masting, not sparing to say that I was an Enemy to his Majesty, vainly Conceiting that by this weak stratagem he should discourage & divert Me. It must needs be a very strang & surprizing story to far the greatest part of the Inhabitants both of the Province of Maine & Newhampshire to hear that Mr Bridger for the space of Twenty years past hath been Carefull to preserve the Kings Woods, when for many years past it hath been so notoriously Known that contrary to the Good ends & purposes, for which he was entrusted, not Regarding his duty but as perfidious & ungratefull Servants Serve their Masters, for Lucre of Gain hath Licensed great Companys of Men to go & Cut & dispose of the trees growing upon Land without the Townships & yet all the woods thereon he deems to belong to the Crown, Who presuming upon their License procured at dear rates have Improved their Time & Cut down many hundreds of Good white Pine trees for Boards Rafts & other Uses, at

other times Conniving & permitting Ships to load in the River of Piscataqua in the Government of Newhampshire with Masts & all Sorts of Naval Timber for Spain, which hath been Accustomed these late years past & Mr Bridger when he went last for England went a Passenger in Capt Archibald Macphedris Ship from Piscataqua to Cadiz & without Scruple had he been as willing to know if Ignorant what the Cargo then send on board or this last fall when he saild thence for Spain he might without much expence of time or Money had a full account thereof. How therefore he can shew forth that such management is not inconsistent with the Interest of the Crown at present is attended with some difficulty, for what Reason can he assign for Extorting Money by such base & vile tricks for his Releif. And notwithstanding the Consideration of Two hundred pounds p Annum the Poor People must be in Considerable Advance to have their Woods Surveyed contrary to the Stat. 3 Edw^d 1. Where it is Enacted that no Sheriff or other the Kings officer take any Reward to do his office, but shall be paid out of that which they take of the King & he that so doth, shall yeild twice as much & shall be punished at the Kings pleasure.

And whereas in the Province of Newhampshire a very few Gentlemen have wrote in favour of Mr Bridger & Recommended & set him up for one that hath with Care & Pains gone through his Work & duty, which in all likely hood (met with the same Recognition if no more) Credit & Esteeme rather than the other part of the Letter wherein they as (unadvisedly) Write of Malacontents & disaffected Persons in this Government, tho if all of them were to come & make a strict search & scrutiny they would not be able to make up a quarter part of the number of the Recommenders. which one Individual would compleate. Having in the first place made proclamation of his faithfullness & Integrity &

boasted of the great Service He hath done in his Post. He proceeds to Enumerate my transactions in the Province of Main with Respect to his Power & Commission & would render it a more heinous Crime in Me to say that He had not power to make Merchandize of the Kings Woods, than for him to make havock & destruction therein & Repeated Incroachments vpon the Rights of the People. The only Proof that hath been produced to make good the Allegations against Me is the Testimony of Archibald Macphedris, who Relates what he heard Me say tho not in that Province as by his Affidavit is manifest & therefore were it true could not possibly be any manner of Evidence to Confirm his Memorial, And then for the Person complained of & in whose favour any Testimony is taken for that Person to Attest Copys of Such Affidavits is what hath never been heretofore done. I was so far from encouraging the Inhabitants of those parts in the manner he Sets forth that I have as by the oaths of Several English Men, constantly declared that they had not the least pretence of right to go out of the Townships for Timber and if any should be found so doing & Informed against the Law would be against them & have urged & pressed Capt Leighton Sheriff of that County to prosecute those that for the future trespass upon the unappropriated Lands, thereby to put a stop to such destructive practises: and in the close of his Information breaking thro all the Rules of Civility & good manners & putting on an unparalleled Impudence raises himself up to be of Advice to his Ex^cy the Govern^r in a Matter of Election to be transacted by the Great & General Court or Assembly: and has the Pride & Arrogancy to put his Ex^cy in mind that the time will then come wherein he will have an opportunity if so a Negative voice, that he would not forego it. Adding that in the past he had fully Answered his Instructions & discharged his Duty. By this high flight of his those that are Strangers

to the Constitution of this Government may be apt to conclude that Mr Surveyor hath some other Commission that thus emboldens him. And forasmuch I was conscious to my Self that I never endeavoured to discourage Retarde or hinder Mr Bridger in the due Execution or his office, & therefore not Injurious to his Majestys Interest, or deserving by him or any one else to be said to be an Enemy to His Majesty : towards whom as I always have borne & intend ever to have & bare true & complete loyalty & firm allegiance. had I had a Copy of this Memorial before any procedure had thereupon it had been no more than Mr Bridger was once and again Indulged. Had his Excellency been pleased to favour Me as Mr Bridger once & again was, so far as to have been possessed of a Copy of his Memorial before any procedure had been, which I had as much Reason to Expect & would have been answered to & Comported with the Repeated & spontaneous Assurances of Receiving Such treatment if ever occasion should call for it. I trust it had been no hard task for Me to have demonstrated how that Gent. had Misrepresented things & without the least Shadow of truth or Colour of Justice by groundless imaginations taken upon him to deceive his Excy & Injuriously treat Me. forbidding the inhabitants to cut trees nor suffering ships to go from Piscataqua to Spain or Portugal with Masts & other Naval Timber which hath been frequently done these late years & I have been told Mr Bridger when he went last for England went a Passenger in Capt Maephedris from thence to Cadiz tho it doth not follow that therefore he knew what Cargo was on board no more than he might know what he was doing with this timber. How therefore he can make out that such Management as this is not Inconsistent with the Interest of Crown Appears to be somewhat difficult, for there can be no Reason assigned for his Raising such Considerable Sums of Money from the Inhabitants in so base & shamefull Ways for his own Sup-

port & Maintenance. Moreover as hath been before hinted If any of the Inhabitants that will not be prevailed upon & brought over to give him Money should even within the bounds of the Townships go upon the Common Lands where the Proprietors or owners have an undoubted Right to the woods & trees thereon growing & standing & Cut down but smal trees fitt only for Sloops Masts or the like y^v shall be sure to have their trees seized & they threatned to be sued & liable to be Ruined unless they will Compound & make up the Matter with him, for presuming to go & Cutt in these Woods before he had Caused them to be Surveyed which he also Refused unless the persons that came for a Survey would be at the Costs & Charge thereof. & Notwithstanding his being allowed Two hundred pounds Sterling p^a annum for that service Contrary to the Stat. 3: Ed: 1. Where it is Enacted that no Sheriff, nor other the Kings officer take any Reward to do his office, but shall be paid out of that which they take of the King & he that so doth shall yeild Twice as much, and shall be punished at the Kings pleasure. Wherefore I cannot but perswade my self had those very few Gentlemen in the Province of Newhampshire that have Recommended Mr Bridger & set him up for a good officer & one that hath performed the trust Reposed in him, been more Cautious & Circumspect in that Affair it had been as well, notwithstanding the obligations & honors some of them may have heretofore Received from him. And as to the first part of his Memorial contrary to truth he boasts of his own faithfullness & Integrity & tells of the great service he hath done in his Post, so in like manner he goes onto Charge Me in a very Extraordinary Manner tho with as little truth or Reason as he had for Applauding himself and in truth would make it far More Criminal for Me & give out that he had no power to sell & dispose of the Kings Woods & that the Inhabitants might follow their own business & Improve

their own Estates with asking of him leave, than for him to make such havock & destruction of his Masters Interest & Ineroachments upon the Peoples liberties & properties. I was so far from encouraging any to do & behave themselves towards the Kings Interest: as he would Intimate that I have in the hearing of Many often Cautioned the Inhabitants there, told them their danger in Cutting down or Carrying off any trees or timber that grew upon Land out of their Townships & that they would not be justified or defended in so doing and that if they should be sued the Law would make them Trespassers: And have Urged & pressed Capt Leighton the Sheriff of that County to prosecute & Sue any that should Cut down trees off of the unappropriated Lands, thereby to put a stop to such dishonest & Illegal practises. And now in the Close of his Information, to his Exčey, breaking thro all the Rules of good manners & being bewitched with unparalelled Impudence assumes to himself the Freedom of being of Advice to his Exčey in a Matter of Election to be transacted by the Great & General Court or Assembly, And has the vanity to think himself qualified to Survey & pass his Judgment upon Men & mark out whom he shall think not suitable to Sitt at the Council Board & haveing Carracterisd Me for such a persons therefore hopes when the time comes his Exečy will Remove me therefrom Adding withall that he is obliged thus to do or he should not fully Answer this Instructions, And for as much as I certainly knew my self to be so grossly abused & falsely misrepresented and being conscious to my self that in all my proceedings in this affair I never Retarded & hindered Mr Bridger nor any under him either in Surveying or preserving his majestys woods or doing any thing in the due Execution of his office & therefore no ways Injurious to his Majestys Interest & not deserving by him or any one else, to be sayd to be an Enemy to his Majesty to whom as I allways have

deserved trust so hope I ever shall bare true & unshaken Loyalty & firm Allegiance And had his Excẽy the Governour been pleased to have favoured Me with a sight of the Memorial before it was proceeded upon, which would very well Comported with his own voluntarey Assurances so to treat Me if there should be Occasion, I doubt not but that I could have easily demonstrated to his Satisfaction how that Gent. had misrepresented things & without the least Colour of truth & Justice by groundless imaginations taken upon him to deceive his Excẽy & Injuriously treat Me: which I was altogether Incapacitated to do not having a sight thereof til Saturday the Last of May last past; Was then obliged to make Application to the General Court by a Memorial in the Words following ~ ~ ~

Some time in the month of January or December 1717 Elisha Cook Esq^r in my hearing said that he understood the Inhabitants of the Province of Maine were hindred by M^r Bridger as to their Cutting of Loggs, saying that Bridger

Demanded Money. But says Elisha Cook I am now goeing into that Province to let the Inhabitants know that they may goe on with their Logging for I know no Power that M^r Bridger has in that Province to hinder any person to cutt Loggs where they please and that if Bridger gave them any molestation, he would bare them harmless.

Whereas Elisha Cooke Esq^r has falcely accused me in a leter & memorial to the Gover^r Council & Assembly.

That John Bridger having Reec^t a Commission from his Majestie for Surveying the wood, In North America under Colour of putting the same In Execution, In Strenuously endeavouring and Contriving by wrong Insinuations and Threats to compel the Inhabitants of these And the Neighboring Towns In the County of Yorke formerly the province of Main.

to Contribute and pay me forty shilings a Team for each Team they send into the woods to logg and get Timber, & that I Exact this Sum^m from them, for my Allowance or Lycensing them to worke upon land within the grant of the Townships.

I John Bridger Survey^r Generall &c voluntary make oath, That I have not demanded from the above named Inhabitants either by my self or deputy any such Sum or Sum's; nor

Exacted or Received any Sum whatever from those Inhabitants- nor from any other person whatever.

Boston July 14th 1718.

R^t Hon^{ble}

In this leter your Lordships will have an account of my proceedings last winter and too this time. In Nov^r last by virtue of his Majestyes Royal lycense to me directed. I gave Warrants for the Cutting of 478 mast Trees in his Majesties Woods. Contracted for with the Navy Board by M^t Taylor to be delivered into his Maj^{ties} respective yards according to Contract this Summer

My Instructions from the Lords of the Admiralty forbids all persons his Majesties woods with out leave, the Inhabitants of all the towns next his Maj^{ts} woods being Acostomed to go & cut such trees as were not fitt for the Royall Navy, the Woods being first Survey'd and the trees marked that were to be reserved, to put these Instructions in pratice gave me very much trouble; and the people dissatisfaction, however by care, and Application, Diligence, and a Deep Snow falling in November the wood has been preserved better than in some years past which gave me great satisfaction.

But Ill minded persons factions, Malicious, and Dis-Loyal and vile in Practise are never Easie and who to Carrie on their designes stiek at nothing all which will appear in the Actions of one Elisha Cooke Esq^r: one of the Council of this Province, who In a leter to the Spaker of the House of Representatives, unjustly fales on me, and office: Asserts vindicates, and maintaines, that his Majestie Nor Officers has anything to doe with the Woods in the Province of Main as by a true Copie Inclosed your Lordships may see and pray to refer thereto

This was done in Feburary while I was at my Duty at Portsm^o in New Hampshire I knew nothing of It, till the Governer Inclosed me a Copie of his leter to the Spaker of the House of Representatives in Apprill which leter I answered to the Gov^r: by way of Memorial (w^{ch} Is likewise inclosed) upon which the Governour at the next Election of Councilors was pleased to put a Negative on s^d Cooke.

Since which he has delivered a nother representation to the Gov^r: and Council & Assembly to w^{ch} I answred by memorial to the Governour But the Majority are for him and his Rebelious Assertions, saying that they bought the Province of Main for 1250^l 80 miles long as by Cooks Memorial will appear which was out of the power of the then Charter to purchas, much less had they a power to Annex it to a Charter Govern^t: if so; they may now purchass Roade Island Connetitt &c^a and add it to this Charter, and Entierly thrô of his Majesties Power and prerogative from this Continent. the people of this Province pleading they have a Charter; When the Dispute of his Majesties Just rights and Prerogative of the Woods was debating in the lower house. I gave one of the Members two Acts of Parliament Pass'd in the 4 & 11 years of the late Queen for the preservation of his majesties woods here in America, he was very smartly answred that Acts of Parliament were of No force with them

they had a Charter with great submition I am of Oppinion that the Grant of the Province of Main may be reassumed and Annexed to his Majesties Province of New-hampshire, with much more reason than the Grants of Ierland were, wth out any regard to the possesors) if it should be thought proper to repay the Purchase Sumⁿ: there is none can in Justice be against it, for the present Inhabitants should be so still. only paying An Annual Acknowledgment to his Majesty of some small value as a otter, or minks skin, from each proprietor; the land to be Subject to the people and Heirs as before so many miles 41 (?) there grants were; Hereby no person would sufer a Mite in their Estates. but the King and Crown as before Lords & Masters of Govern^t and Woods &c^a the Province of Main is better furnished wth Mast Trees both for Number & Large Sizes more than all besides: there are now Cut this last Winter $\frac{2}{5}$ of what was cut of the 478 trees: there are severall New Towns Laid out In the s^d province Since 4 years past, all and every Proprietor that have Conveniency for a Saw Mill is Building one, and Nothing but a Resumption of that Grant will, I fear do to preserve the woods. An Act of Parliament as severe as that for the preservation of Pitch Pine Trees or Tar trees that very Act would wth Amendments do. but i pray leave to Inclose a Copie for a Bill to be pass'd forthwith wth such Amendm^{ts} as your Lordships shall think Convenient, or all the large pines will be Destroy'd, unless I go where M^r Cooke pleased to Direct; that is beyond & above all Grants without Inhabitants those parts that Gen^l says may be the Kings; there be large Trees.

I allways Deemed the Woods without the Township to be his Majesties: the General Court says he, that is his Majestie has none, and that it is In their power to Grant all land & woods with out the Townships or give them away as they please. And can lay out or give away another rainge

of Towns above the present Towns if so, the King cannot have a mast Tree without purchasing it of these Proprietors. Thus the Case stands at present, and what farther may be done by the people in this Country Prejudicial to his Majesties Intrest I cannot yet Informe. There being a Committee appointed of the upper, and of the Lower house, to sitt as Judges of his Majesties Title to the Woods in the Country, which with other particulars remaine undetermined till next Session In October, and I hope to give your Lordships full satisfaction of the Care I have taken to defend his Majesties Intrest, as may appear by the Inclosed and by which your Lordships may see Cook's Disloyal and base Pretences; and malicious and falcely Accusing me with 50^l recd from one Mico Eleven years since w^{ch} I answard to your Lordships before the renewall of my Commission and at the time when I was first charged wth it. Equally frivolous is his mentioning 10^l w^{ch} was received by me to let a prosecution fall; to prove this Cooke brings his afffavitts from some persons, who swore I proceuted them in this very action; and at the time they sware this against me, I was not In this Country; as by Oaths I have from the Master & Officers of the Ship I went hence in will appear and Designe to proceute them as Guilty of Perjury. but I would not trouble your Lordships wth Inclosing this and many other affidavitts, as Insignificant.

Such libic Treatment I have allways meett with from those people, In two causes perticularly, wherein I Recovered Judgm^t & Execution in an action against Elisha Davis, who after the fact committed made over his Estate by a fradulent conveyance, and thereby Evaded the Act of Parliament w^{ch} lay'd the pennalty of one hundred pounds Ster^l for Every Tree so cut fell'd or destroy'd, after I had Expended on this Action more than fifty pounds and so It Remains with out remedie to this Day.

the other Instance is one of John Sincler that I obtained Execution against, & his Estate Delivered to me by the Shriffe and by the s^d Sherifes neglect of making a Due return I have lost the Sale, and am out of near 30^l ever since; both those Causes being the Kings I have lost and no remedie or reliefe can I find to this day.

I could heartiely wish some care might be taken for Maintaining his Majesties Rights, and Title, and the supporting his Officers in this Country In their Duty, for all belonging to the Crown are so obnoxious to these people in Generall, that it is very dangerous for to travaile a lone this is by my own Experience true; as well as the Officers of the Customs can testifie who has been Molested in the Execution of their duty; In all the Charter Goverments, some of them being forced home this last year for redress; which I presume is not unknown to your Lordp^s

and Whereas s^d Cooke Charges me wth recevng and Demmanding Exacting & Threatning the Inhabitants of the Province of Main to make them pay me forty shilling^s a Team for every Team of the Inhabitants that cut Trees for Loggs within the Town grant, or grant of their Townships of the County of Yorke &c^a in the Province of Main which Insinuation is malitious false and Groundless, as May appear by the Copie of my affidavitt made before the Gover^r & Council Inclosed.

A Speecimen of the General Assembly's Loyalty will appear by their thanks they gave s^d Cooke for his Seditious Lybel and Information wherein he Denies and Defies all Intrest of his Majestie here; and I pray leave to let yo^r Lordp^s know that the Copies of some Officers leters hence to some board at home, relating to his Majesties Intrest, has been sent over hither, to their great hurt, and damage to his Majesties Intrest.

The care that has been taken to preserve his Majesties Woods by Good & wholesome Laws as Cook says In his Memorial will not appear when there was a Necessity for making such your Lordships may please to Observe, that in the time of My Absence and some time before these Great and General Assemblys has laid out Eight New Towns, and no reserve made according to the Charter which reservation ought to have been the Obligatory part in every Town Grant so lay'd out, the neglect of w^{ch} not only a breach in the Charter, but Destroys all the Woods within those townships beyond redress, besides when ever there is Occasion to But name this is for his Majesties Intrest or tis against the Prorogative of the Crown, the Answer is, these are the priviledges of the Charter so that the Charter is allways pleaded and the reservation for his Majesties Navy is Rule'd, If this Magogg or Idoll of these people were lost, No one person would Suffer a penny Damage in there Estates: and his Majesties Intrest secured, & Officers protected, and kept from the Insults of the people.

My Lords./

If in any thing in this Letter I have not kept strictly to a Just Distance to your Honours or have said any thing Displeasing to your Lord^{ps} I heartily begg your Lordships Pardons, and beg that you would Impute It to my Zeal for his Majesties Intrest, for should I be Silent, and See his Majesties Intrest abused & trampled on by Every one, I should think my Self unworthy of your Lordships favour or his Majesties Service I am with all Possible Defference and Regard.

*Copy of a Letter from M^r. Bridger Surveyor of the Woods in
North America Dated from Portsmouth
26 Aug^t 1718.*

I have since my last to your Lordships discover'd some Persons, who have made it a Practice to destroy a great Number of Mast Trees in his Maj^{ty}s: Woods, by cutting them down, and sawing them into Plank, Joice, Boards &c^a this Trade was told me by an acquaintance in that countrey more than 150 Miles hence, upon a Promise of Reward in money which I have comply'd with and have their names, designing to Prosecute them forthwith.

Upon viewing the Eastern Parts and Woods I have discover'd a large Swamp of 10 miles long and 4 broad, full of WhitePine Trees of the first Sort, in which there has not been a Mast Tree cut, as I am inform'd by some of the old People that lived in these Parts before the Indians cut them off; near thirty years.

This Tract or Swamp of Pine lyes very commodious near a Navigable River, not above 6 or 7 miles land Carriage, whence these Mast Trees may be Slipt for Great Britain; These parts being now Settling, and the People building Saw Mills on every River and Brook almost which will soon destroy those Fine Trees and all others, unless an immediate care be taken, by an Act of Parliament, or some other Method as your Lordships shall think most proper for the preservation of the Whole, which are now threatned on every Side as well as the Officer, who must use his greatest care and diligence more than ordinary for the future, the People being perswaded that his Maj^{ty} has no right to the Woods in this Countrey by Elisha Cook, and on that Opinion they will act next Winter they say.

This in all Humility, as well as Duty, I lay before your Lordships, and although, I have known all this Countrey for 500 Miles together, and have been employ'd here 22 years, I find it very difficult singly to protect even the least part of his Maj^{ty}'s Woods from the Common Waste made therein by the respective Inhabitants next the Frontiers, all which is most humbly submitted to your Lordships &c^a

Memorial

To S^r Ovide De Brovillian Governour of Island Breton in North America Concerning Antient Boundaries of Nova Scotia or Accadie September the 11th 1718.

The whole Countrey of Nova Scotia as farr Eastward as Cape S^r Lawrence was Seized for the Crown of Great Britain about the Close of the Fifteenth Century by S^r Sabastian Cabott Grand Pilot to Henry the Seventh King of Great Britain and by him sent to find out such parts of North America, King James the first therefore knowing his Title to be good did in Year 1621 make a Grant of this Countrey to S^r William Alexander afterwards Earl of Sterling, who Settled a Colony there by the Name of Nova Scotia. Upon the Marriage of King Charles the first with the Lady Heneritta Maria it was by Order of the King given up to the French in Year 1627 and Year 1628 we gott it againe and was given to S^r David Kirk, who was both Proprietor & Govern^r of the North side River called Cannada and South side called Accadie it fell againe into the hands of S^r William Alexander in Year 1632 it was given away againe to the french King who Obliged himself to pay in Leiu of the

Forts Five Thousand pounds to S^t. David Kirk which he never did, Cromwell weighing the premisses sent Colonel Sedgwick in Year 1654 & retook it, and when he made peace with France the following Year, tho' their Ambassador made Pressing Instances for the Restitution of it Yet he would not part with it, Insisting that it was the Ancient Inheritance of the Crown of England, and of right belong to it Whereupon Monsieur S^t. Estinne Son and heir to Monsieur De La Tour, a French Refugée, who bought Nova Scotia of the Earl of Sterling came over into England and making out his Title had it Delivered to him and then Sold it S^t. Thomas Temple who was Governour of it till the Restoration, soon after King Charles delivered it againe to the french and Canada with it, in Year 1710. Colonel Nicholson recovered Nova Scotia againe and the Treaty of peace and Friend ship between Queen of Great Brittain and the Most Christian King Lewis the 14 Concluded at Utrecht 31 of March and the 11th day April 1713, in the 12th Article of peace the Most Christian King to Deliver to the Queen of Great Brittain all Nova Scotia or Accadie with its Ancient boundaries which Ancient Boundaries of Nova Scotia or Accadie was to Cape S^t. Lawrence Eastward on Island Breton, and Cape Roziars Northward to the Great River S^t. Lawrence as may be seen by Monsieur Suberease Passport to the English and that the Subjects of the most Christian King shall hereafter be Excluded from all kind of Fishing in the said Seas, bays and other places on the Coast of Nova Scotia That is to say on those which lye Towards the East within Thirty Leagues beginning from the Island Commonly called Sable Inclusively and thence Stretching along Towards the South West It has not been Mentioned in the Thirteenth Article of peace that the Island called Cape Breton as also all others both in the Mouth of the River S^t. Lawrence and in the Gulph of the same Name shall hereafter belong of right to the French,

and the most Christian King shall have all manner of Liberty to Fortifye any place or places there and no other It must of Course have been the Queen of Great Brittain as being within Ancient Boundaries of Nova Scotia which shoves that the French have Nothing to do with any part of the Continent nor Islands from Cape Canso to Cape Roziars afore Mentioned

– But soon after comes the Squirrell Man of War from Boston to break up & destroy (I may say rather the English than) the French Fishery at Canso, which (after he had been to Cape Britton) on the 18th Sept^r last he began like fury to do; my Vessell then happened to be at Sea: caused me to be but under poor circumstances to secure & get away what little Fish & other Effects I had: the disturbance grew so great in 2 or 3 days, that I fear'd to lodge in my house, but left it for severall nights with all in it to the generosity of the (then) theivish French & Indians, at last on a Sabbath day I sold & was forced to weigh of my dry Fish, & 2 or 3 days after got Freight to Cape Ann for my Green Fish, & had got most of my things out of my house

The 26th Sept^r the Fleet sail'd for Boston together with a Brig^t & Sloop, two Prizes taken from the French, the former had a thousand Quintalls of Fish; the French Admiral had his Ship given again but all his Fish & Wine & Brandy; about 4000 quintalls in all & considerable Wine & Brandy all Lassoons, & he carried to Boston a Prisoner & Hall, Robinson & I tarry'd with six Vessells 7 days after the Fleet, We are all bent (with three times the Number before) upon going another year, hourly expecting Coll^o Phillips with Forces to Garrison there. Advise me p^r first how this action is approved of at home, & whether any care is like to be taken for its Strength & Settlement, -- The French would have had forty sail there next year, was it not for this Rout.

A Brigantine called the Catherine & a Sloop called the

Report of John Wheelwright

Anno Regni Regis Georgy Magnæ
Brittania &c Quinto ~

At a Great And Generall Court or Assembly of his Majestys Province of the Massachusetts Bay held at Boston the 29th of Oct. 1718.

The report of John Wheelwright Esq^r &c Appointed a Com^{tee} by an Order of this Court passt at the Sessions begun And held the 28th of May Last for Regulating the Settlement of Falmouth in Casco bay is as follows ~ viz -

Pursuant To a Vote of the Great and General Assembly of his Majestys Province of the Massachusetts Bay in New England begun & held at Boston May 1715. Impowering And Appointing us the subscribers to be a Com^{tee} to prosecute the regular Settlement of the Eastern Frontiers And in Answer to the Petition of the Proprie^rs and Settlers of the Town of Falmouth in Casco bay in the Year 1717. & 1718. who have made Application to us the said Com^{tee} According to the Direction of the General Court. We have Upon the 6th day of this present Month of July taken a view of the Said Town of Falmouth And Mature Deliberation & Consideration.—

We Offer Our Report to this Hon^{ble} Court as ffollows
viz -

The dividing Bounds between Scarborough & Falmouth We find to be the Line from the first dividing of Spurwinck River; from thence to run into the Countrey Eight Miles North West And from the Said Branches as the River runs into the Sea And the Easterly Bounds of Falmouth to Extend to Certain Islands known by the name of the Clap Board Islands from a red Oak Tree Upon the Main Over Against said Islands Marked F. on the South side and So South East over a white rock into the Sea & from said Tree Eight Miles into the Countrey: And According to the best of Our Judgments We have determined the Spot whereon the Antient Town of Falmouth Stood & a Fort was formerly Built by Order of the Governm^t. And where there are Already Settled above Twenty Familys in a Compact defensible Manner to be a very Agreeable place for the Settlement of a Town being bordering Upon a fine Navigable River Guarded from the Sea by Adjacent Islands most Commodious for the Fishery And is Accommodated with Several Large Streams for Mills as well as a Large Quantity of good Land for the Encouragement of Husbandry, And We are of Opinion there is a fair prospect of its being in a Little time a Flourishing Town; And in Order to the Enabling them to a Methodical proceeding in their Affairs We are of Opinion that it is Absolutely Necessary that they be Invested with power to act as a Town as Soon as may be with Convenience: We have Also Left Our Advice with them with respect to the Laying out their Streets & High Ways as Also for the placing their Meeting House after the Most Commodious Manner for the Bennefit of the Town in General-

Sign^d John Wheelwright, Abraham Prebble, John Leighton, Lewis Bane, Joseph Hill.

In the House of Represent. Novem^r 11. 1718.

Read and Ordered that the report on the Other Side be Accepted And that the Bounds of the Town of Falmouth be

Continued confirmed & ratified as in the said report is Sett forth And the Inhabitants of the said Town that Now are & hereafter shall be from Time to Time be Invested with the same powers and Authorities to Act Manage direct And Order the Affairs of the said Township as Other Towns are provided that this Order shall in No Measure prejudice and Infringe any Just right or Title that any persons have to lands there And that Fifty Familys at the Least more than now are be Admitted as soon as may be & Settled in the most Compact & Defensible Manner that the Land will Allow off ~

To the Right Hoñorable the Lords Comiss^{rs}
of Trade & plantions

My Lords

In Obedience to yo^r Lordships Coñmands I have perused & considered of the severall papers relateing to the memoriall of John Bridger Esq^r Surveyor Generall of his Maj^{ties} Woods in America And I doe find That the Title which Mr. Elisha Cook doth by his Memoriall claim to be in the province of Massachusetts bay in Opposition to the Right of his Maj^{tie} to all Trees fitt for Masts of the Diameter of 24 Inches & upwards at twelve Inches from the Ground Growing within the province of Main in America is founded upon a Supposed purchase of the said province of Main by the province of the Massachusetts Bay of & from the Assignees

of S^r Ferdinando Gorges the person to whom the said Province was Originally Granted from the Crown

I must beg leave to observe to yo^r Lord^{sh}ps that King Charles the First Did Incorporate the Assignees of the Patent which King James the First did in the Eighteenthth Year of his Reign Grant to the Councell Established at Plymouth in the County of Devon by the Name of the Governour & Company of the Massachusetts Bay in New England By w^{ch} Charter The said King did Grant unto the said Corporation power to have take Possess acquire & purchase any Lands Tenements or Hereditam^{ts} or any Goods or Chattells & the same to Lease Grant Demise alien Bargain Sell & Dispose of as other our Liege people of this our Realm of England or other Corporation or Body politick of the same may Lawfully doe.

In the 15th year of King Charles the First the Province of Main was Granted to S^r Ferdinando Gorges His Heirs & Ass^s. Which province did descend Unto Ferdinando Gorges' Son & Heir of John Gorges who was Son & Heir of the said S^r Ferdinando Gorges which Ferdinando Gorges did in the Year 1677 In Consideration of the Sum^e of 1250[£] Give & Grant All his Right & Title in & to the said Province unto John Usher of Boston Merchant his Heirs & Ass^s. But whether it was by way of Absolute Sale or Way of Mortgage doth not appear And the said John Usher did afterward in the Year 1678 Convey the same unto the said Corporation as appears by the Printed Journall of the House of Representatives of that Province which was sent to me by M^r Dummer their Agent It may my Lords be made a Question in Law whether that Corporation which was created by King Charles the First could Legally purchase the said Province of Main Inasmuch as the Clause of License does goe noe further then that they might purchase Lands &c as any other Corporation or Body politick in Englnd might Lawfully doe and I take it

to be Clear Law that no Corporation whatsoever in England can purchase any Lands which shall Inure to themselves unless an Express License for that purpose be inserted in their Charter of Incorporation or otherwise. Yo^r Lord^{sh}ps will be pleased to observe that this Corporation is by the Charter only Subjected to the same Laws as the Corporations in England are and that there is no Licence to purchase Lands Granted to them by Express Words I need not observe to your Lord^{sh}ps that nothing but Express Words is in Law Sufficient to take away the Kings p^rogative But Indeed I should not have made Use of any Argum^t of this Nature did I not think the Maintaining the Royall prerogative in Relation to the Navall Stores in America of the Utmost Consequence to the Kingdome And that therefore any advantage in point of Law ought to be taken w^{ch} does not Injure any Private Persons

But admitting that Corporation was fully enabled to purchase Lands yet that Corporation is now Extinguished for the patent 4^o caroli primi was in the Year 1684 Reversed in Chancery by a Judgm^t upon a Sci^r Fa^c and Consequently the Province which was Granted to that Corporation & all Lands purchased by that Corporation were Revested in the Crown and therefore the Inhabit^{ts} of New-England can be no otherwise Entituled unto the province of Main then by some New Title which must have accrued unto them Subsequent to their Incorporation by King William w^{ch} it is Impossible ever should have been since there is no Licence granted unto them to purchase Lands in or by their Last Charter: Their Last Charter was granted by the late King William in the third year of his Reign In which Charter It is observable that there is not a Variation in the Name of Incorporation but in the thing itself. And so far is the old Corporation from being revived that by this Charter they are not so much as Erected into a Corporation or Body Politick so as to be

able to Sue or be Sued &c but the very Termes of the Charter are that the King does Erect and Incorporate the Severall Countries mençoned in the Patent into one Reall Province by the Name of our province of the Massachusetts Bay in New England.

It is plain to a Demonstration that King William did at the time of Granting this Patent Consider All the Countries therein named and particularly the province of Main as vested in himself in the Right of his Crown and therefore he does Unite & Incorporate all those Countries which were before Severall & Distinct into one Real province & does then Grant all the Lands Included in that Province unto the Inhabit^{ts} of the province of the Massachusetts Bay in w^{ch} Denomination & Grant the Inhabitants of the Province of Main &c are as much Included & Concerned as Grantees as the Inhabitants of that part of the Countrey which was Originally & Singly Known by the Name of the Massachusetts Bay All these Provinces therefore are now to be Considered as one neither is it Possible that one part of the Province should be the Private Property of Another.

It is true that the King does Grant a Power unto the General Assembly of the said Province to make Grants of Lands Uncultivated lying within the Bounds described in & by the Charter But that Grant does no ways Extend to one Part of the Province more than Another But is equall to them all And is therefore Subject to the Last Clause in the Charter by w^{ch} all Trees of the Before mençoned Size are Reserved to the Crown and Consequently the Generall-Assembly of that province cannot make any Grant of Lands to private Persons without their being Subject to that Clause of Reservation The Act of Parliament Nono Annæ page 387 Extends no further then the Reservation in the Charter does only that Prerogative w^{ch} before Subsisted Singly on the Charter is now Confirmed & Established by Authority of

parliament And therefore upon the whole Matter I am of opinion that the King is Legally Entituled to all Trees of the p^rscribed Size Growing in the Province of the Massachusetts Bay as it is prescribed & bounded in the Charter of King William & particularly in the Province of Main Excepting only those Trees Scituated in Lands w^{ch} were Legally Granted to private persons before the Charter 4^o Caroli primi was reversed: All w^{ch} I humbly Certifye to yo^r Lordp^{ps} and I am my Lords

On Saboth day night last a Man Came to me from Berwick
 & Inform^d me that Some Indians had drove Away a Cow
 from him & that on y^e Same Day had Quarrelled with &
 Insulted y^e people there / upon which M^r ffrost & my Selfe
 Early on monday last went to Berwick & in order to Inquire
 into y^e premisses Sumoned Such Evidences as were likely to
 Inform us. & we find by those Evidences About five or Six
 in Numb^r on Wednesday y^e 6th Insta^t Came to y^e house of
 One Joseph Hart a Sober man who gave them bread & Some
 bear & they went from him & in a short time return^d
 Againe Some of them Went into y^e house & Some Stayed
 with him in the Shop those in y^e house by their Insolent
 behavio^r frighted his wife So that he was Obliged to go in &
 desire them to go out of y^e house and Warm themselves in
 his Shop but they being Angry one of them took hold of s^d
 Hart by the Shoulder & he went out of y^e house with them.

One of y^e Indians threw of his Blanket & drew out his
 hatchet & Came Violently at s^d Hart who retired back into

his house y^e Indian Came to y^e Window Calling him Dogg & bid him Come out which he did & Closeing with y^e Indian took his hatchet from him upon which Another Indian Came behind him & laid hold on his hair but he being a Strong man cleared himselfe of them & with a Stick defended himselfe & they left him / After which on y^e Same day in Sight of Severall Credible people they pursued a lad with a hatchet lifted up / Some Teams being y^e Same day Coming out of y^e Woods Saw y^e Indians in their way One of them Lay down in y^e Way Two more Set by him & one Stood up & So Stop^t y^e Teams / the fforemost man desired them to Move & let him pass which they Angrily denied. The Second man that Came up was M^r John Shapleigh A p^rson of very good Credit & reputation who Also desired y^e Indians to Move pointing with his Stick to y^e Indian that lay in y^e way bid y^e Others take him out of y^e way upon which y^e s^d Indian rose up & laid hold of M^r Shapleighs Stick & Strugled with him Sometime. An other Indian Comeing behind M^r Shapleigh & with Some Instrum^t in his hand Cut his Nose So that y^e blood Issued Very much the other man Seing y^e blood he with his Stick Struck y^e Indian on y^e head & y^e Indian Turn^d upon him & So the Two Englishmen & four Indians had a Considerable Combate but y^e Two men with their Sticks Defended themselves & y^e Indians left them / the Oxen being frighted with y^e Struggle one of them broke his legg to y^e great Dam̄age of y^e Owner./ The Same Indians afterwards Came to y^e house of One Tompson towards y^e Evening of s^d day the man being from home.

One of them went into y^e house & Asked for victuals which y^e Woman of y^e house was providing but hearing a noyes without went to y^e door & Saw three Indians one of them threw his hatchet at a goose, & Cutt her the woman desired them to forbear the Indian took up his hatchet & Come to her lifting it over her head but y^e blow was

prevented by Another Indian Takeing hold of his Arm. The woman being affrighted Cryed out & Some Neighbours Came & So y^e Indians went of & Drove Away a Cow of s^d Tompsons with them which they have kil^d & Eaten part of y^e Cow being found —

We have Well Inform^d our Selves of this matter by Credible Witnesses upon Oath./ These Insults makes y^e people of that town Very uneasie and if any more such Affronts be Offered I fear the people will in their passion take Satisfaction on ye offenders./ We used all possible Care & dilligence to Inform ourselves whether those Indians were drunk but Cannot find they were So / or that they had Any Strong drink of Any of y^e people —————

We sent for Two Indians which were in Town but They Denied their knowledge of those Actions Yet we have reason to think they were partners in Eating y^e Cow./ We told that we Came to Enquire into y^e reasons of this Quarrell & that we should Inform yo^r Excell^{cy} thereof & that yo^r Ex^{cy} would be very Angery if y^e man were not Quickly paid for his Cow. They promised to Enquire out those Indians & perhaps when they Catch beaver they Say y^e man will be paid ~

Thus I have given yo^r Ex^{cy} a particualr & Just Acco^t of y^e Whole Action./ And am

May it Please your Excelenc

Persuant to your direktions we imbraced the first Opportunity of going to Norigwalk, and delivered your Letters, and the message according to your instrucktions given us, Upon reading your letter to the Jesuit, his answers were as follows viz^t That rum was the greatest reason of all the disturbances in the plantations —

That when the indians treated with the Govern^r at Arowsick they did not permit any settlements above Arowsick mills, That the indian Tribes from Canada wrote to the Kenibeck indians that in giving away their lands, they kild themselves and them to, and that they were Obliged to assist them in case of any injustice done them by the English in setling upon their lands, they claiming an equall right with them to this river; That he reciv^d a Letter from the Gov^r of Canada wherein he writes him that the King of france has given him instrucktions that in case the English does the indians any injustice he must proteckt & assist them, and the Jesuit sayes he sent a Letter to your Excelenc: of the same nature at the treaty at Arowsick; These things he told us he would write to your Excel: we think it propper notwithstanding to insert them, that your Excel may compaire y^m with his Letter which is here inclos'd.

The Indians answer to your Letter were these viz^t

That those that disturbe the English they look not on them as their Bretheren, That those indians that are complaind of, are prayerless, that they did not come amongst them; and they lookt upon them no better than Robbers, they thank your Excel: for your freindly advise, of their peoples ill carrage towards the English and your resolutions not to hurt those that Are orderly by the souldiers now sent

out, That if any thing greivous was offer'd them by the English they would come and acquaint your Excel. with it, they say they would not have your Excel: beleive the report of any ill persons either English or indians which tends to the breaking of the freindship betwene us, which they desire to Continue. After the Jessuit had talkt with us as before inserted in the name of the indians / as he said / We told the principall indians thereof who said the Jesuit told us wrong Storeys and calling a councell declair'd they did not consent to what the Jessuit said, and that he spooke his mind, and not theirs, and that they did not imploy him to write any Letter for them and y^t if he sent any Letters at any time they desire your Excel: would receive them as his Letters and not theirs: Its our humble Oppinnion that the fryer is an Incendary of mischeif amongst these Indians and that were it not for his pernicious suggestions your Excelency would not meet with any trouble from them We are

S^r On Satterday last Coll^o: Winthrop & I going up this River we meet with an Indian who said he was Son to Ter-ramugus he inquired for me & gave me a Letter for yo^r Excellency, which Letter I have here inclosed, We had no body with us could speak Indian, so we understood but little from him, only that the Letter was written by the minister at Narigawak & that the Indians understood it — They seem dissatisfied that people should settle in a body, & have given threatning language to a Tennant of Coll^o Winthrops at Swan Island & about a week ago Two Indians whome he had im-ployed to bring up some things for him, after they had deliver'd them drove away one of his oxen & Kill'd it, which so discourages the people they dont think themselves safe without some force to cover them for the present. If your Exce-lency with the Councill has ordered Cap^t Beane with his men to be at the Mouth of Kenebeck River, it is thought here is no place can be more servisable to keep the Indians in Awe. I am

*Extracts from Letter of Jeremiah Dummer, Agent in England
to Josiah Willard, Secretary, Sept. 9, 1719.*

“There has bin nothing further done upon the Petition for our Eastern Lands since my last. The Lords of the Council expect your Answer to the proposition they have

made you, viz^t that if you will consent to resign y^e Jurisdiction of the Tract of Land between Kenebeck and Penobscot, that then the Crown will confirm to the Province the property of the Soil. I see no prospect at present of getting it made part of the Massachusetts Government, I mean by any express declaration of the Crown, Soe deep are the prejudices, which men in power here have taken against our Charter. And I am sorry to say they have bin from time to time confirm'd herein by people of our own Country, who come over here to get places, & having no Interest take this method of recommending themselves to complement the Crown at the Expence of their Country. It is an invidious Task to mention names on such occasions as these, but as I have not hitherto bin timerous or reserv'd in the discharge of my Duty, so neither will I now.

I think I need not name Col^o Vaughan in this list, having long since transmitted to you his famous Memorial, besides that he makes no Secret of his principles, but openly declares his Opinion that we are not Subject enough to the Crown, and that we ought to pay a Yearly revenue to the mother Kingdom. M^r Usher never comes to any of the Offices of State, but he continually inculcates as the Principal thing he has to say, that the people of the Massachusetts are all Enemies to Crown Government, which phrase he appears very fond of as well as of the thing. He tells every body that the reason of their refusing to pay him his due is because it was a Debt contracted under a Crown Government. And in his petition for his Arrears, which I shall speak to afterwards, He ascribes the Revolution made in S^r Edmund Andros his time to the people's being weary of Governm^t where by he seems to think there can be no Government unless it be despotick."

"Coll^o Bladen went out of Town this morning for the Court of France to get French Commissaryes appointed, and

to adjust preliminaries for running the lines not only between Nova Scotia and Cape Breton, between the River of Canada and the back side of New England and New York. When the Government first thought of fixing these Boundaries, they desir'd my Sentiments upon it in writing, which I immediately drew up, and therein set forth the late trespasses of the French at Petty Canso, and in the same writing deliver'd it as my opinion, that the whole Settlement of Canada is an encroachment on the rights of the Crown, and therefore hop't there would be no advantage allow'd them in this treaty, but that the Borders of the River of Canada should be made the French bounds.

It is propos'd that when the limits are fix't, the Popish Priests shall be forbid under a strict penalty to pass over them into the English Territoryes on any pretence whatsoever, So that I hope we shall be made easy in that point. I have also taken care to get it made a part of Col^o Bladen's instructions to procure an Order from the Regent of France to the Governor of Canada for the releasing all our poor Captives that remain in the hands of the Indians And I hope in a little time to give you a good Account of the Success of his Commission as to that particular."

We are thereby Well Assured that y^e Indians have a Design to make a Warr upon us or at Least to Drive of y^e Inhabitants & make themselves Masters of that Country ~

This goes by an Express, to represent unto You the Malancholly State of the eastern parts, who being so frequently alarm'd by the repeated insults of the Indians, are all entering into garrison even from Arowsick unto Newchawanoock by by which means several of their cornfields are destroyed, by the swine, and others Through fear are drawing of their Cattle in great numbers, insomuch That unless they are Speedily covered, The new Settlements will be totally overthrown.

Att first we gave little or no Creditt to y^e Common rumours concluding They sprung from y^e Effects of Some drunken frolick but are now confirm'd in our beleif that They resolve a Suddain rupture upon which we have ordered our own frontiers To draw in & keep Scouts in constant motion at the heads of our Towns

*Letter from J. Adams to Hon. Paul Dudley, Esq.,
Sept. 22, 1720*

Annapolis Royal 7^{br} 22^d 1720

Honourable

S^r

The News we have here from Boston that the Indians are up in Arms and that the Government has thought fit to Arm Some hundreds of men to guard the frontiers and that Your Honour with some others is appointed to treat with the Indians before it comes to Blows, I thought it proper to give you the following account how the Indians were incited to break the peace they So Solemnly made with your late Most Excellent ffather Governour Dudley of Pious Memory at Casco as it was related to me by Mons^r Jaque Gourdan, who was (as he says) at the Council in this place when it was Contrive'd

When Mons^r De Vandrielle Govern^r of Canada and Mons^r de Brouillan the Govern^r of this place understood the Indians were inclin'd to make peace with the English in New England they by themselves and thier agents the priests and traders among them Used all thier divillish pollicy to hinder it by pswations, Menaces, and traducing the English to them by forging the Most abominable falshoods against them that could be invented on purpose to imprint and root in them an irreconcilable hatred against the English yet notwithstanding the Indians were tired of the long war and were resolved they would conclude a peace which they did with His Excellency Govern^r Dudley att Casco Bay where the English and Indians raised two heaps of Stones which they calld the two Brothers.

About that time a french Privateer had taken a prize on the Coast of New England richly loaden with all sorts of English goods and brought her into this Port which very

much rejoic'd Mons^r de Brouillan and all the french here and put into his head to forge a letter as coming from the Queen of Great Brittain Directed to Govern^r Dudley Commanding him to make peace with the Indians after he had assembled them all together in some Convenient place and give them the presents her Majesty had therewith sent him for them and give them Wine and Liequors to make them all Drunk and then Cut thier throats. This leter was proposd to the Council here who all aprovd of the designe and got one Peter Mellanson an aged English Gentleman who came into this Country with S^r Thomas Temple and lived here ever since to translate it into English which when he had done Mons^r de Brouillan sent Mons^r de Chaufour in a small sloop with this Letter to Penobscot with Arms Amunition and all sorts of goods proper for the Indians of which there was abundance in the prize with instructions to tell them these were the presents the Queen of England sent to Govern^r Dudley for them on purpose to ensnare them to their owne Destruction but by good fortune they fell into the hands of thier old faithful friends the french who instead of betraying them therewith made a present to them to renew thier antient friendship and offer thier assistance against the English thier unveterate implacable enemies. Mons^r de Chaufour accordingly arriv'd at penobscot and after haveing assembled all the Indians told them he was come from Mr de Brouillan to Acquaint them that a priz was brought into Port Royall wherein was a letter from the Queen of Great Brittain to Govern^r Dudley which Concernd them and desired they would take Council on the Contents and then withdrew.

Some of the Indians after the letter was read and Explaind to them suspected it to be a Contrivance of the french to engage them in a New War which they were not inclin'd to but the Young men among them when they discoursd further with de Chaufour and heard all he was orderd

to say to y^m were inclin'd to recieve the presents, but yet they were in suspence till a detachment ariving there from Cannada with letters from M^r de Vaudreille to the same purport as it was Concerted between the two Govern^rs Confirm'd the Indians in the belief of the storry who receivd the presents and as they term it took up y^e hatchet, and they with the assistance of the french Imediatly upon it Murdered by surprise so many poor men women and children att York & Wells &c. the truth of this relation I had Confirm'd to me this summer by the forementioned M^r Mellanson who is still living in Minis

May it please your Ex^{cy}

In my Last from Arowsick I gave your Ex^{cy} An Account of my receiveing the Jesuites Letters from M^r Secretary with your Ex^{cys} order to interpret them to the Indians, & to demand their Answer to the letter sent them from the Governm^t sometime in the last winter, which they promised to return in May.

Pursuant to your Ex^{cys} Directions, upon my Arriveal at G. Town the 4th Current, I dispatched two Indians to Norridgewock to Acquaint their Chiefs that I was there by your Ex^{cys} order, & that it was Expected from the Governm^t that they should return their Answer According to their Promise. The Messengers came no more to Us So that after ten dayes waiting on them (in which time we have put the Garrison at Thoils point into a good posture of Defence, Cap^t Wainw^t & company being lodg'd there in good Order) I was obliged to return to Falmth.

What Indians I met with in the Interim that came from their Head Quarters, Inform Us, that the Matter has been

debated in their Councils And do plainly intimate that they dont design to return Any Answer at All but insolently charge the Govern^t wth Folly in makeing New Demands, before the Matter is finished referring to the skins which they are to pay And are resolved peremptorily to Demand their Hostages upon the paym^t of s^d skins. And I am pretty well assured y^t this is the Substance & result of their grand Debate & that y^r Ex^{cy} will receive no Other Answer from them - The Bearer is one of my Sergeants Whom I have allowed to visit his Family at Charles Town & will attend y^r Ex^{cy}s Order for his speedy Return —

May it please your Honour

I wrote To your Honour from Hampton the 22^d Instant, and acquainted you of My dispatches from Thence To The Eastward by Lew^t Hilton, To have the marching Forces mustered at the places of rendezvous wth all possible expedition, and I shall not fail to be with them, by the time they are Assembled together; I am now at portsmouth awaiting y^e Arrival of one of y^e Sloops to take me in, If She comes not with this days fair wind, I determine to Sett out for my post tomorrow by land so that no time may possibly Slip unimproved.

In perusing my Instructions, I observe, in case of extraordinary and unforeseen Accidents, and in matters not particularly mentioned, Your Honour is pleased to refer me to my own resolves with the Advice of my Commission officers, upon which Article I pray your Honours favour to be resolved, whether you Intended all y^e Commission officers, or the Captains onely: This being all that offers at present, I Take leave to Subscribe (most respectfully)

I have received two Letters from you The First from Hampton of y^e 22^d inclosing Lieutt^t Hilton's Journal, the

other from Portsmouth of y^e 24th & I observe you have dispatch'd Orders for all the fforces to be at the Place of Rendezvous & that you intend to be att the Head of Them with y^e Utmost Expedition, of Which I hope you will not fail; and when it shall please God you are there, that you will exert your self to improve y^e First oppertunity of putting your instructions in Execution especially since y^e usual Season for Action is so far advanced that the least Omission or Delay may probably render the Whole Expence of this Winters Campagne ineffectual & vain.

You'l have a Sufficent Supply of Provision 'ere this All the Sloops being Doubtless at Casco.

As to your Question relating to a Council of War; You must call all the Captains, that are near, & if you have not enough to make five at the least call y^e Eldest Lieu^{ts}

Your fforces being to be divided Two Chaplains will be necessary & I would have you to call M^r Pierpont for the Service Which is All at present from Your Assured

Persuant to instructions from Colo^l Westbrook I Received 120 men Aquipt with Snowshoes Moginsons & Twenty Dayes provision to march up Ammoscoggin River &c. But after some dayes Travel I found the river was wholly broke up & y^e Designed march frustreat. Heartily Sorry to See y^e Gov-

erm^t Disappointed in their Expectations, & willing to take the best methods the Season would allow of, I took the pilots advice & with y^e concurrence of y^e Officers, Divided into three partyes who have performed Several Scouts, an Acc^{tt} of which as well as y^e reasons I could not march further into y^e countrey, I herewith present to Your Honour & Shall Transmit the Same to Colo^l Westbrook pr the first. I have Given Orders to Cap^t Heath to repeat his Marches from Kenebeck river to Ammoscoggin river & shall keep y^e rest of y^e men continually moving with Expectation of Speedy Directions from your Honour or my Colon^l (and have also ordered Capt Gookin to Repeat his marches from Casco River to Pussimscutt falls and from Thence to the Harry Sickett & to where as y^e matt^r Req^{rs} These 120 men y^t I have the Honour to Command being most of them old Experienced Souldiers Its a great grief to their perticuler officers, & no less to my selfe, that wee were obliged to march into y^e woods in such a Season when wee had not a rational prospect of doing Our Countrey Service.

Four of my Souldiers Couming from Arrowsick the 22^d instant One of them viz George Cary fired his gun att A Tree & an other of y^e four called Samuel Stockbridge being up a brest with y^e Tree Shot at (but three rod wid thereof) thought he was safe; nevertheless the bullet Struck a Tree & Glancing very Straingley did unhappily kill the s^d Stockbridge. Upon vewing y^e place & Examining the Other Souldiers present, I am fully Convinced the fatall part of y^e action was purely Accidental, However I have confin^d y^e man Slayer & pray your Honour will please to give Directions in y^t matter.

Burncoat Harbour - Feb^{ry} 1722/3

May it please your Honour —

These are to give You a short Acc^t of my Proceedings since my last w^{ch} was y^e 10th of this Instant: Since w^{ch} we have rang'd amongst y^e Islands and on y^e Main Land between Kennebeck River and y^e Eastermost Side of Mount Desart Bay & have met wth nothing worth your Notice, save Numbers of Wigwams on allmost every Island, & y^e Main Land where we have rang'd w^{ch} we judge were deserted in y^e Fall: 2 French Letters Inclosed w^{ch} were found in John Deny's House, as also 2 small fire places at y^e head of Mount Desart Bay w^{ch} we judge had been made about 3 or 4 Days, supposing there might have been 4 or 5 Men, who we judge made no longer Abode there, than just to refresh themselves.

We now lye at Burncoat Harbour & are ready to proceed to Penobscot, waiting only for Wind and Weather, purposing after my Return from Penobscot to send you a compleat Journal of my Proceedings w^{ch} I have already attempted but was frustrated in my Designs of finishing it —

Having examin'd y^e Quantity of our Provisions I find that we have not enough to last Us exceeding a Month.

Our Whale-Boates are so shatter'd & Defective, that they're unfit for Men to venture their Lives in —

We have not one Individual thing where withal to repair them, on y^e Behalf of w^{ch} above mentioned particulars, I have sent a Sloop to y^e Treasurer expecting a Supply from him; & humbly pray that your Honour wou'd forward that Matter —

By Reason of My Hurry, & for Want of Conveniences I can't give your Honour so particular an Acco^t as I cou'd wish for —

This being all at present I remain

Most Hum^l & Obed^t Serv^t

Thos Westbrook: —

P. S. I send you y^e Letters just as
 I rec^d them, supposing part of one
 of them was torn off before we found them.
 & pray that your Honour wou'd send me
 a Coppy of y^e Interpretation

*Lieut Gov. Dummer to Capt. Johnson Harmon,
March 8, 1722/3*

Boston 8th March 1722/3

Sir,

I rec^d your Letters by the Express with the other Papers; And I approve of your Proceedings, And think you have done the best you could for the Service, Since as you have sett forth the Openness of the Rivers & the Wetness of the Countrey rendered the Execution of my Orders for a March to Wedembeseck & Norridgewock impracticable. I would have you repeat y^{ur} Marches & Scoutings upon the Rivers as high as you can, And in other places most likely to find the Enemy especially about the Grounds where the

wounded Deer & Canoe were seen, untill further Orders, & not let the Men ly in Garrison any more than is necessary for their Refreshm^t: I am heartily sorry for the unhappy Disaster in the accidental Death of one of y^{re} People; I hope the Soldiers will be warn'd for the Time to come of such Carelessness & Folly, You must give strict Ord^{rs} that no Guns be fired but at the Enemy, Unless by the Leave & in the Presence of an Officer. The Man Slayer must be tried by a Court Martial, and I shall in a Short time give out a Commission for that Purpose. In the meantime thô you are to keep him under Restraint, You need not be very rigorous & severe to him, seeing you are fully convinced as you say that the Mischief was purely accidental.

You have Liberty to come to Boston wⁿ Coll. Westbrook returns from his March taking Leave of him.

Letter Lieut. Gov. Dummer to Capt. Penhallow.

Sir

I have Considered your Motion respecting Arrowsick and Can by no means Consent that either of the Garrisons be Slighted, which will be dishonourable to the Government. You must Command the Inhabitants into Garrison and allow each Fort a Sufficient Defence And when Coll Westbrook Can Spair the Men he will leave some recrutes with you, As I have Ordered him: As to the Fort at Small point, I am sensible it is of Importance, And Should have gladly Continued a Garrison there, If any Provision had bin made to Support it However I shall have this Matter Still in my thoughts

March 22, 1722/3*

M^r Denny has complained to the L^t Gov^r that you don't allow him his Quota of Men according to 'y^r Instructions especially in Time of Danger, & that what then you do allow him are pick'd for the meanest & worst you have, And that when the Island is full of Soldiers you quarter more upon him than his Share; His Hon^r bids me tell you that If this Information be true, He expects the Grievance be immediately redress'ed, And that M^r Denny have equal Justice done him with others both as to the Number & Quality of the Soldiers & that the Men you post at his Garrison be sober & orderly.
